Schedule A

City of Corona Police Department

All grant awards, including any adjustments to requested funding, were made by the Cannabis Grants Unit based on the merits of the Grant Application, scale of operation, and in accordance with the Request for Application (RFA) requirements and associated regulations. As a result, not all Project activities and items detailed in Schedule A are applicable. Refer to Schedule B - Detailed Budget Estimate for approved Budget line items and Project activities. Project activities and items that are not clearly identified/specified in the Grant Agreement must be submitted to and approved by CGU prior to purchase.

Project Description

Currently, eight cannabis dispensaries are operating in the City of Corona. However, 13 dispensaries are in the permitting process and are anticipated to open by year's end. This increase in dispensaries could lead to a rise in impaired driving incidents. To tackle this issue, the Corona Police Department is pursuing grant funds aimed at reducing instances of impaired driving, DUI-related accidents, and associated injuries. The funding will allow direct patrols of high frequency accident areas associated with impaired driving, directed as DUI saturation patrols.

The enforcement efforts will be guided by data analysis, concentrating on areas where the issue is most pronounced. Additionally, this enforcement will be carried out on an overtime basis.

Problem Statement & Proposed Solution

Currently, eight cannabis dispensaries are operating in the City of Corona. However, an additional 13 dispensaries are in the permitting process and are anticipated to open by year's end. This increase in dispensaries could lead to a rise in impaired driving incidents. To tackle this issue, the Corona Police Department is pursuing grant funds aimed at reducing instances of impaired driving, DUI-related accidents, and associated injuries.

Data analysis will guide enforcement efforts, concentrating on areas where the issue is most pronounced. Additionally, this enforcement will be carried out on an overtime basis.

The City of Corona is a significant transit hub, sitting at the intersection of two major freeways, I-15 and SR-91, which are crucial routes for regional commuting. Despite this, the city's population has grown while the number of police personnel has declined over the last twenty years. By obtaining extra funds for enforcement initiatives, law enforcement can bolster their presence and better tackle impaired driving in Corona.

Performance Measures/Scope of Work

Conducting 48 saturation patrols strategically deployed based on data analysis and during peak risk times. These patrols will consist of one or two officers per vehicle, operating for shifts lasting between four to seven hours (with a target of six hours per shift). The goal of these DUI saturation patrols is to reduce DUI accidents and related injuries from DUI accidents by 10% over the fiscal year.

Implementing maximum enforcement measures on the 4th of July and New Year's Eve, deploying a team of four officers and one sergeant for an eight-hour shift to ensure a solid and visible police presence during these high-traffic and high-risk periods. This will also include social media posts about this enforcement effort prior to its occurrence and posting results of the enforcement activity.

Project Performance Evaluation

All operations, encompassing both enforcement and education initiatives, will be scheduled and organized prior to the beginning of the upcoming grant quarter, utilizing data analysis. Following each operation, whether it involves enforcement or education, statistics and information will be collected, including:

Enforcement Saturation Patrols: Date, times, duration, number of stops, number of Field Sobriety Tests (FSTs) conducted, number of alcohol-related arrests, number of drug-related arrests, total number of arrests.

Schedule A

Program Sustainability

The Corona Police Department is dedicated to eliminating impaired drivers from our roads. Currently, we receive grant funds from the California Office of Traffic Safety, which supports DUI checkpoints, DUI Saturation patrols, and training officers in SFST and ARIDE courses. We will continue seeking OTS funds to intensify our efforts against impaired driving. We are committed to sustaining DUI saturation patrols.

Administrative Support

The Corona Police Department effectively utilizes several grants to address various community issues related to alcohol violations. Both department and city administrators fully endorse these efforts, and the department's ongoing use of grants reinforces this support.

Furthermore, the Traffic Bureau has successfully managed the current OTS grant for many years and, in the past three years, has also overseen the CHP CTFGP grant. Officers within the patrol bureau have undergone training in SFST and ARIDE and currently participate in DUI saturation patrols funded by the California Office of Traffic Safety grant. These same officers are prepared to contribute to enforcement efforts under this grant by conducting impaired driving saturation patrols.

Additionally, the Corona Police Department's public relations team is committed to community education and outreach across various platforms, including social media, in-person interactions, and other media channels. With their expertise in social media management, the public relations team ensures that effective messaging reaches its intended audiences.
