AGENCY: CITY OF CORONA

PROJECT: LIGHTING MAINTENANCE DISTRICT NO. 84-1

TO: CITY COUNCIL
CITY OF CORONA
STATE OF CALIFORNIA

REPORT PURSUANT TO "LANDSCAPING AND LIGHTING ACT OF 1972"

Pursuant to direction from the City Council (the "City Council") of the City of Corona (the "City"), State of California, submitted herewith is the Engineer's Report for Lighting Maintenance District No. 84-1 (the "Report"), consisting of the following parts, pursuant to the provisions of Division 15, Part 2 of the Streets and Highways Code of the State of California, being the "Landscaping and Lighting Act of 1972", as amended, commencing with Section 22500, and which is in accordance with Resolution No. 2021-023 adopted by the City of Corona City Council, Riverside County, California ordering preparation of the Report for Lighting Maintenance District No. 84-1 ("LMD No. 84-1" or the "District"). This Report is applicable for the ensuing 12-month period, being the Fiscal Year commencing July 1, 2021 to June 30, 2022.

Section 1 PLANS AND SPECIFICATIONS of the improvements to be maintained and/or improved for the Fiscal Year. The plans and specifications show and describe the existing improvements, and are sufficient in showing and describing the general nature, location and extent of the improvements.

Section 2 The COST ESTIMATE of the improvements to be maintained and/or improved for the mentioned Fiscal Year.

Section 3 A METHOD OF APPORTIONMENT OF ASSESSMENT calculates the receipt of special benefit and the general benefit derived from the installation and maintenance and servicing of the respective improvements located throughout the District, and the methodology used to apportion the total assessment to the properties within the District.

Section 4 An ENGINEER'S SIGNATURE certifying the filing of the Engineer's Report, together with the Assessment Roll and Assessment Diagram.

Section 5 An ASSESSMENT ROLL showing the proportionate amount of the assessment to be charged in proportion to the benefits to be received by each lot or parcel within the boundaries as shown on the below-referenced Diagram.

Section 6 An ASSESSMENT DIAGRAM of the District. Said Diagram shall show the exterior boundaries of the District and the boundaries of any zones within the District. Reference is made to the County Assessor's Maps for a detailed description of the lines and dimensions of any lots or parcels. The lines and dimensions of each lot shall conform to those shown on the County Assessor's Maps for the Fiscal Year to which the Report applies.

Description of Improvements

Generally, the work to be performed consists of the energy and maintenance costs of the 10,915 streetlights, 616 safety lights, and 201 traffic signals and traffic control devices. The City owns and maintains 135 traffic signals; six are jointly-owned with the City of Norco, six are jointly-owned with Riverside County, and 16 are California Department of Transportation (Caltrans) owned and jointly maintained. Riverside County provides a maintenance reimbursement to the District to cover the costs for the county owned signals. The District pays the City's share of expenses for signals that are co-owned or maintained with these other agencies. The City owns and maintains 38 traffic control devices.

The existing streetlight improvements within the District, as shown in the City's Streetlight Atlas, are owned by the Southern California Edison Company and the City. The Streetlight Atlas is on file in the office of the City Engineer and is made part of this Report to the same extent as if attached hereto.

The existing traffic signals and traffic control devices within the District are owned by the City of Corona, Riverside County, City of Norco, and Caltrans. The locations of the traffic signals are shown on the Atlas Map on file in the Traffic Division of the office of the City Engineer and are made a part of this Report to the same extent as if attached hereto.

Annual costs this year provide for:

- Energy costs for street lighting, traffic signals and traffic control devices.
- Maintenance costs for street lighting, traffic signals and traffic control devices, including staff, inventory, utility markings, maintenance, servicing, and repair of all equipment, tools, vehicles, and personnel training.
- Reconstruction and repair contract expenses, including defective service pedestals, vandalism, and circuitry repair.
- Engineering and administration, including engineering, noticing, legal expenses, finance department expenses for the processing of revenues and electrical payments, and expenses for the maintenance of atlas maps, monitoring of facilities, and the investigation/implementation of cost savings programs.

The class, type, and number of streetlights and traffic lights by Benefit Zone are as follows:

Benefit Zone 1	7,886 Local Lighting
Benefit Zone 2	3,029 Major or Arterial Streetlights
Benefit Zone 3	201 Traffic Signals and Traffic Control Devices, and 616 Safety Lights

Cost History

As shown on the Cost Estimate in Section 2, the total costs exceed the total amount proposed to be assessed, thus requiring the use of funds from the Operating Reserve account.

Over the last fifteen years, the following conservation measures have been implemented:

1. *Traffic Signals*

   The signal lights were replaced with LED lights designed to improve energy usage efficiency and therefore reduce energy costs. In addition, a change in energy provider from SCE to the City's Direct Access program resulted in a decrease in electricity costs. These measures have offset the increased cost in electrical charges for the traffic signals.

2. *Streetlights*

   Installation of photocells for streetlights has resulted in a reduction of electricity costs. In addition, a change in energy provider resulted in additional reduction in electric charges.

Citywide Street Light Replacement

In Fiscal Year 2011, the City received an Energy Efficiency and Conservation Block Grant (EECBG) from the Department of Energy (DOE) in the amount of $727,100 to retrofit existing High-Pressure Sodium (HPS) street light fixtures with energy efficient Induction Lighting (IL) technology. The City started construction in May 2011 and completed the installation of 2,518 IL street lights in August 2011.

The new IL technology is saving the City approximately 572,000 kilowatts of power per year, which equates to a 50% reduction in electrical usage at the installation sites while still providing the same illumination of the public streets. The first phase of the project replaced the highest wattage consuming lights which provide the maximum electrical reduction to the system.

In 2016, the City began studying a project to replace older HPS street lights with LED lights, as well as installing a lighting control system for further energy savings and the ability to proactively respond to service issues. The City subsequently received notification from SCE that the rebate for installing LEDs was expected to end by December 2017. In order to take advantage of existing rebates, the City issued Notice Inviting Bid 17-068CA to replace HPS lights with LEDs and install lighting control nodes on both new LEDs and existing induction and LED lights within LMD 84-1. The project was completed in April 2018, and is estimated to have a return on investment of less than 9 years and provide for $280,000 in savings each year in both energy and staffing. The total project cost was $3,172,597 for LMD No. 84-1. Additionally, the City received rebates from SCE in the amount of $868,575, bringing the net project cost to LMD No. 84-1 down to $2,304,022. The City utilized a low-interest loan from the City's Electricity Fund to pay for the project, since the District's reserves have been depleted over the years. The District will pay the loan back with savings from the project. As of June 30, 2021, the principal amount of the inter-fund loan is $1,857,611. For Fiscal Year 2022, the projected debt service principal payment on the loan will be $267,393.

Detached Properties

From time to time, it is necessary to detach certain territories from LMD No. 84-1 which are described in Appendix D because the services provided by LMD No. 84-1 to those properties will now be provided by newly formed Community Facilities Districts. These properties will not be included in the Fiscal Year 2022 assessments for LMD No. 84-1.

Table 2-1
Fiscal Year 2022 Cost Estimate

	Estimated Through June 30			
Direct Costs	**Zone 1 Local-Lighting**	**Zone 2 Major/Arterial Lighting**	**Zone 3 Traffic Signals/Traffic Control Devices**	**Total**
Streetlight and Energy Maintenance[1]	$1,190,377	$97,431	$0	$1,287,808
Traffic Light and Energy Maintenance	$0	$0	$1,072,464	$1,072,464
Total Direct Costs	**$1,190,377**	**$97,431**	**$1,072,464**	**$2,360,272**
Indirect Costs				
City Personnel/Overhead	$36,705	$3,004	$81,874	$121,583
County of Riverside Administrative Fees	$6,101	$499	$6,600	$13,200
Engineering Costs	$11,323	$927	$12,250	$24,500
Total Indirect Costs	**$54,129**	**$4,430**	**$100,724**	**$159,283**
Total Costs	**$1,244,506**	**$101,861**	**$1,173,188**	**$2,519,555**
Collections /(Contributions)				
Operating Reserve	($197,474)	($18,430)	($169,482)	($385,386)
Capital Replacement	$0	$0	$0	$0
General Benefit	$0	($8,760)	($100,894)	($109,654)
City Contribution	$0	$0	$0	$0
Total Adjustments	**($197,474)**	**($27,190)**	**($270,376)**	**($495,040)**
Total Assessment	**$1,047,032**	**$74,671**	**$902,812**	**$2,024,515**
Reserve Fund Balance				
Beginning Operating Reserve	$447,291	$31,883	$385,648	$864,822
Reserve Collection	$0	($18,430)	$0	($18,430)
Reserve Contribution	($197,474)	$0	($169,482)	($366,956)
Estimated Ending Operating Reserve[2]	**$249,817**	**$13,453**	**$216,166**	**$479,436**
Beginning Capital Replacement Reserve	$0	$0	$0	$0
Reserve Collection	$0	$0	$0	$0
Reserve Contribution	$0	$0	$0	$0
Estimated Ending Capital Replacement Reserve[3]	**$0**	**$0**	**$0**	**$0**

[1] Amount includes projected debt service for inter-fund loan.

[2] The Operating Reserve Fund may equal up to 50% of the estimated annual cost of providing services funded by the District and shall be used to pay the cost of services until the District receives funds from the assessment levy.

[3] The Capital Replacement Reserve Fund is used for capital improvement projects. See Appendix C for all current projects.

California law, inducting Article XIII D of the Constitution of the State of California and the Proposition 218 Omnibus Implementation Act (Government Code Section 53750 and following) (the "Omnibus Act"), provide that special assessments, as levied pursuant to the "Landscaping and Lighting Act of 1972," must be based solely on the special benefit properties receive from the work of improvement. The Act does not specify the method or formula that should be used to apportion the assessment in any special assessment district proceedings. The Corona City Council has retained the firm of Spicer Consulting Group, LLC. for the purpose of assisting them in making an analysis of the facts in the District and recommending to the Corona City Council the correct apportionment of the assessment obligation.

In performing the analysis, it was necessary to identify the benefits that the improvements being financed by the District have or will render to the properties within the boundaries of the District and to determine the extent to which such properties receive a direct and special benefit as distinguished from benefits received by the general public.

Proposition 218 Compliance

On November 5, 1996 California voters approved Proposition 218 entitled "Right to Vote on Taxes Act" which added Article XIII D to the California Constitution. While its title refers only to taxes, Proposition 218 establishes new procedural requirements for the formation and administration of assessment districts. Proposition 218 also requires that all assessment districts existing on the effective date of Proposition 218 (i.e., November 5, 1996) must be ratified by the property owners within the District using the new procedures set forth in Proposition 218 unless the assessments are considered exempt pursuant to California Constitution, Article XIII D, Section 5.

California Constitution, Article XIII D, Section 5 provides that the following assessments existing on the effective date of Proposition 218 are exempt from the new procedures:

1. Any assessment imposed exclusively to finance the capital cost or maintenance and operation expenses for streets.
2. Any assessment levied pursuant to a petition signed by the persons owning all the parcels subject to the assessment at the time the assessment was initially imposed.

Proposition 218 does not define the term "streets"; however, based upon the Omnibus Act and California court decisions (*See Howard Jarvis Taxpayers Association v. City of Riverside,* 73 Cal.App.4th 679 (1999)), it has been determined that assessments levied to finance improvements that are necessary for the operation of streets and sidewalks, including, without limitation, traffic signals, safety lighting and street lighting, are exempt from Proposition 218. LMD No. 84-1, which was formed prior to the effective date of Proposition 218, finances; street lighting, traffic signals and traffic control devices, and thus, is exempt from Proposition 218.

LMD No. 84-1 is an assessment imposed exclusively to finance the capital costs, maintenance and operation expenses for streets as determined by the Omnibus Act and California court decisions (*See Howard Jarvis Taxpayers Association v. City of Riverside,* 73 Cal.App.4th 679 (1999)). It is therefore exempt from Proposition 218. However, the City is trying to make the District as compliant with Proposition 218 as much as possible without changing the methodology used at the time the District was formed.

Even if assessments are initially exempt from Proposition 218, if the assessments are increased in the future or property is annexed to the District, the District will need to comply with the provisions of Proposition 218 for that portion of the increased assessment formula (e.g., CPI increase).

Proposition 218 defines "assessment" as "any levy or charge upon real property by an agency for a special benefit conferred upon the real property," California Constitution, Article XIII D, §2(b). A special assessment, sometimes called a "benefit assessment," is a charge generally levied upon parcels of real property to pay for benefits the parcels receive from local improvements. Special assessments are levied according to statutory authority granted by the Legislature or, in some instances, local charters. Distinguishing among taxes, fees and assessments can be difficult and often depends on the context in which the distinction is made. For example, taxes, assessments and property-related fees all may be imposed on property. The key feature that distinguishes an assessment from a tax, fee or charge is the existence of a special benefit to real property. Without identifying a special benefit, there can be no assessment.

Distinguishing General and Special Benefit

Proposition 218 added a set of procedures and requirements which a local government must follow to levy an assessment. In addition to notice, hearing and assessment ballot proceedings, Proposition 218 provides that "only special benefits are assessable" and requires a local government to "separate the general benefits from the special benefits conferred on a parcel."

By its nature, most every public improvement financed through an assessment district contains an element of public benefit. The test is: does there exist, with relation to the improvement, a special benefit to the property assessed? The law requires that the portion of the cost of the improvement which benefits the public generally to be separated from that portion of the cost of the improvement which specially benefits assessed properties. Proposition 218 provides the following definition of "special benefit":

"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."

General Benefit

Street lighting, traffic signals, and traffic control devices provide a direct and special benefit to the residents of the City. However, these same facilities also provide benefits to non-residents as well. These non-residents would include visitors, commercial vendors, shoppers, travelers, and other pass-through traffic. Non-residents would benefit from the major/arterial streetlights, traffic signals, and traffic control devices.

The benefits received by these non-residents are considered general benefits. Proposition 218 requires that the special benefit be separated from the general benefit derived from the improvement and that the costs of the general benefit cannot be imposed as part of the assessment.

Based on the cost estimate shown in Section 2 of this Report, the estimated total cost for providing major/arterial street lights, traffic signals, and traffic control devices is $1,275,049.64 for Fiscal Year 2022. The total assessment for the major/arterial street lights, traffic signals, and traffic control devices for the same time period is $977,484.33, with the City contributing a General Benefit contribution totaling $109,654.27. This amount represents 8.6% of the total cost of maintaining these improvements. Studies prepared by the City's Traffic Division indicate that pass-through traffic represents approximately 8.6% of the total daily traffic within the City, resulting in a general benefit contribution not to exceed 8.6% of the total cost for providing major/arterial street lights, and 8.6% of the total cost for providing traffic signals.

Direct and Special Benefit

Three benefit zones have been established for LMD No. 84-1. The methods of apportionment, by benefit zone, are as follows:

Benefit Zone 1 consists of all parcels that have street lighting on the street fronting their lots or parcels. These streets include not only local streets, but also include collectors and major arterials. In some cases, the same light provides a dual benefit to the property owner, both as a collector and arterial street light. This local lighting is of benefit to abutting parcels as it provides increased property protection, personal safety, visibility, traffic safety, and generally enhances those areas fronting upon the illuminated street. City standards require street lights to be spaced at intervals, based on lumen intensity, so all properties receive similar coverage. This results in a special benefit received by each parcel in Benefit Zone 1.

Units were assigned to parcels with local lighting upon property frontage along the illuminated streets as follows:

Benefit Zone 1

Parcel Frontage	Benefit Unit
0-75'	1
76-150'	2
151-225'	3
226-300'	4
Over 300'	1 per 75'

Since a vast majority of the residential lots in the District have frontage of less than 75 feet, this dimension was selected as typical of a normal residential lot and was assigned one (1) benefit unit of assessment. Larger parcels and lots were assigned additional benefit units in 75-foot increments. There are condominiums and mobile home lots within the District which are individually owned. The frontage along the perimeter of these developments was divided by the number of units or lots within the respective developments and assessed accordingly to each unit or lot. Isolated parcels within Benefit Zone 1 which do not have streetlights upon their frontage were not assigned Benefit Zone 1 benefit units.

Benefit Zone 2 consists of the entire District, including the area encompassed by Benefit Zone 1. Improvements that benefit the District as a whole are the high intensity lighting of collector and arterial streets. These lights are much brighter than the local streetlights described in Benefit Zone 1 and provide for both traffic and pedestrian safety on those major streets and intersections that carry City-wide traffic engaged in commerce, shopping and recreational trips. The brighter lights create an image of a progressive, well-lit city to outsiders and direct enhancement of property values. An equitable measure of benefit common to the large tracts of South Corona and the residential/commercial areas is parcel size. The relationship between residential parcels and acreage has been established at five residential lots to one acre based on the general density of the District.

Using this measure, a normal residential lot was assigned one (1) benefit unit with larger parcels being assigned five (5) benefit units per acre as follows:

Benefit Zone 2

Parcel Area	Benefit Unit
0-12,000 SF	1
12,001-20,000 SF	2
20,001-28,000 SF	3
28,001-36,000 SF	4
36,001 SF – 1 Acre	5
Over 1 Acre	5 per acre

Benefit Zone 2 facilities include, but are not limited to, streetlights located on all or portions of Ontario Avenue, Sixth Street, Avenida Del Vista, Via Del Rio, Smith Street, River Road, Lincoln Avenue, Railroad Avenue, Main Street, Parkridge, Magnolia Avenue, Serfas Club Drive, Auto Center Drive, Hidden Valley Parkway (formerly Yuma Drive), Foothill Parkway, Promenade Avenue, McKinley Street, Green River Drive, Ridgeline Drive, California Avenue, Rimpau Avenue, Highgrove Street, and Fullerton Avenue.

Vehicular trip generation rates for the Riverside County region identify trip generations for varying land use types which includes agriculture and open space property, which generate significantly less trips per day than that produced by urbanized properties. Therefore, it has been determined that agricultural lands receive one-half of the benefit of Benefit Zone 2 lighting that is received by urbanized lands within the District. Therefore, one-half of the Benefit Zone 2 costs were transferred to Benefit Zone 1 and assessed according to the frontage criteria established for Benefit Zone 1 costs.

Benefit Zone 3 consists of the entire District. Traffic signals and traffic control devices benefit the entire District by allocating time among conflicting movement seeking use of the same physical space. These signals provide for both traffic and pedestrian safety on the major intersections that carry City-wide traffic. They provide an orderly traffic flow that assures safety and movement throughout the District and benefits the District as a whole.

Traffic generation values can be established based on a parcel's land use and area. Benefit Zone 3 benefit units are determined by multiplying a parcel's Benefit Zone 2 benefit units by a traffic generation factor for a certain land use as follows; excepting any developed single family residential parcel regardless of size which will be assessed a traffic generation factor of one.

Benefit Zone 3

Land Use	Traffic Factor
Developed Single-Family Residential Parcel	1
Developed Multi-Family Parcel	2
Developed Commercial Parcel	3

Vacant land, other than agricultural vacant land, was assessed half the traffic factor according to the respective projected land use.

In general, with traffic signals and traffic control devices not being located in agricultural areas, a traffic generation factor was not assigned to agricultural land.

Whereas, on May 5th, 2021, the City Council, under the Act, adopted its Resolution Initiating Proceedings for the Annual Levy of Assessments and Ordering the Preparation of an Engineer's Report for LMD No. 84-1;

Whereas, the Resolution of Initiation directed Spicer Consulting Group, LLC. to prepare and file a report presenting plans and specifications describing the general nature, location, and extent of improvements to be maintained; an estimate of the costs of the maintenance, operations, and servicing of the improvements for LMD No. 84-1 for the referenced Fiscal Year; a diagram for LMD No. 84-1 showing the area and properties to be assessed; and an assessment of the estimated costs of the maintenance, operations, and servicing of the improvements, assessing the net amount upon all assessable lots and/or parcels within LMD No.84-1 in proportion to the special benefit received;

Now Therefore, the assessments are made to cover the portion of the estimated costs of maintenance, operation and servicing of said improvements to be paid by the assessable real property within LMD No. 84-1 in proportion to the special benefit received.

Table 3-1
Assessments by Zone

			Per Benefit Unit (BU)		
Benefit Zone	**Actual Assessment[4]**	**Benefit Units**	**Max Assessment**	**Actual Assessment**	**% of Max**
1	$1,047,032	36,737.94	$28.50	$28.50	100%
2	$74,671	67,883.65	$1.10	$1.10	100%
3	$902,812	97,495.93	$9.26	$9.26	100%

For the specific assessment on each parcel, reference is made to the Assessment Roll on file with the City Clerk which is made a part of this report to the same extent as if attached hereto.

[4] Actual levy may differ due to rounding.

Executed this 7th day of July 2021.

FRANCISCO MARTINEZ JR
PROFESSIONAL CIVIL ENGINEER NO. 84640
ENGINEER OF WORK
CITY OF CORONA
STATE OF CALIFORNIA

I HEREBY CERTIFY that the enclosed Engineer's Report, together with the Assessment Roll and Assessment Diagram thereto attached was filed with me on the _____ day of _____, 2021, by adoption of Resolution No. 2021-___ by City Council.

CITY CLERK
CITY OF CORONA
STATE OF CALIFORNIA

I HEREBY CERTIFY that the enclosed Engineer's Report, together with the Assessment Roll and Assessment Diagrams there to attached, was approved and confirmed by the City Council of the City of Corona, California on the _____day of _____, 2021.

CITY CLERK
CITY OF CORONA
STATE OF CALIFORNIA

The actual assessment and the amount of the assessment for the Fiscal Year 2022 apportioned to each parcel as shown on the latest equalized roll at the County Assessor's office are referenced in Appendix A of this Report. The description of each lot or parcel is part of the records of the County Assessor of the County of Riverside and such records are, by reference, made part of this Report. If any APN identified therein is submitted for collection and identified by the County Auditor/Controller of the County of Riverside to be an invalid parcel number for any fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment, as described in this Report and approved by the City Council.

The District boundary coincides with the boundary of the parcels included within the District as of the time of the adoption of the Resolution of Intention and the initiation of these proceedings.

Reference is made to the County Assessor's Roll and Maps for a detailed description of the lines and dimensions of any lot or parcel. The lines and dimensions of each lot shall conform to those shown on the County Assessor's Maps for the Fiscal Year to which the Report applies.

An Assessment Diagram is attached hereto in Appendix B, showing the boundaries of LMD No. 84-1 and boundaries of any Benefit Zones established within the District as the same existed at the time of the adoption of the Resolution of Intention and the initiation of these proceedings.

Capital Improvement Projects

SPICER CONSULTING
GROUP

Capital Project

With the completion of the LED retrofit in Fiscal Year 2018, the District does not anticipate any major future capital improvement projects for the next several years. As funds allow and the need arises, induction lights will be changed out to LEDs. Street light cabinets will also be evaluated and replaced over the next several years.
