BACKGROUND & HISTORY:

The City has been performing street and City-owned parking lot sweeping services for more than three decades as a service to the community.

Street sweeping has become a Best Management Practice requirement of the National Pollutant Discharge Elimination System and Storm Water Pollution Prevention Plans established by the United States Environmental Protection Agency.

The City is required to meet the discharge (stormwater runoff) permit requirements as a co-permittee with the Riverside County Flood Control and Water Conservation District, which includes limiting the amount of dirt, trash, and debris that enters the storm drainage system from urban stormwater runoff, which is discharged into the Temescal Creek and the Santa Ana River.

The City is proactive in complying with this permit requirement by contracting for scheduled street and parking lot sweeping.

ANALYSIS:

On April 26, 2021, the City issued Notice Inviting Bids (NIB) 21-069RH to prospective firms through the City’s PlanetBids portal. The NIB was advertised pursuant to Corona Municipal Code (CMC) Section [3.08.110](#) non-public projects formal bidding procedure requirements. The City received three (3) bids by the submission date of May 24, 2021.

The scope of work consists of:

- Weekly street sweeping of 213.84 miles of commercial streets
- Biweekly street sweeping of 678.18 miles of residential streets
- Monthly street sweeping of 39.35 miles of alleys
- Monthly sweeping of the City-owned parking lots located in parks and City facilities.
