<p>7</p>	<p>Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.</p>	<p>Since 1993, Axon Enterprise, Inc. has been committed to delivering safe, secure solutions for law enforcement, militaries, and citizens. From our humble beginning as TASER International, Inc. to now, we have worked diligently to develop a network of TASER smart weapons, body cameras, and industry-leading cloud-based evidence management software to help accomplish a singular goal—to protect life. Over this time, we have partnered with more than 7,500 law enforcement agencies to deploy tailored solutions designed to preserve transparency and truth. With 10 offices based in Arizona, Washington, Australia, Canada, Finland, Germany, India, the Netherlands, the United Kingdom, and Vietnam, Axon's team of more than 1,000 employees continue to define smarter policing through the development of industry-leading technology solutions. We are Axon.</p> <p>Axon is a market-driven organization dedicated to solving real problems for law enforcement agencies. We create meaningful value through high-quality products, enhanced technology solutions and extraordinary service. We are proud of the values with which we conduct our business. We instill a culture of morality and good ethical conduct in all our business practices. We have and will continue to uphold the highest levels of business ethics and personal integrity in all types of transactions and interactions, both internally and in dealings with our customers, vendor, suppliers and other business relationships. To this end, our Code of Business Conduct and Ethics Code serves to (a) emphasize the Company's commitment to ethics and compliance with the law; (b) set forth basic standards of ethical and legal behavior; (c) provide reporting mechanisms for known or suspected ethical or legal violations; and (d) help prevent and detect wrongdoing.</p> <p>All employees are required to read and sign our Code of Business Conduct and Ethics policy, which is available on our website https://www.axon.com/legal. Additionally, our employees and business practices are guided by our core values, which are:</p> <p>BE OBSESSED: Walk with the customer as you transform their world. We never want to develop or sell something that you don't want or need. We're obsessed with creating products that solve real problems and add value. If it doesn't benefit you, then we rethink what we're doing.</p> <p>AIM FAR: Think big with a long-term view. We want to reinvent the world to be a safer, better place. We've failed spectacularly a few times, but that's what you get when you aim for the stars. That's our final destination.</p> <p>WIN RIGHT: Win with integrity. We are fiercely competitive and have an unquenchable thirst to win, but we don't think winning and doing the right thing are mutually exclusive. Our challenge is to make them synonymous, and never compromise our integrity.</p> <p>OWN IT: Commit, take action, and deliver. We empower individuals to step up and take initiative. Be an owner and see things through to completion. That's the only way we've been able to succeed as a company, and it's the only way we will continue to grow.</p> <p>JOIN FORCES: Act as one global team. Creating the future is a team sport. When a company scales globally in 40 different markets with multiple technology stacks ranging from wearables and cloud to electronic weapons, you need teamwork. We're one global team committed to an audacious vision.</p> <p>EXPECT CANDOR: Deliver with respect and assume positive intent. Candor gets critical issues elevated, puts truth on the table, and gets us to the right answer faster. How can we be the best version of ourselves and the best company we can be, if we can't offer and be given critical feedback?</p>
<p>8</p>	<p>Provide a detailed description of the products and services that you are offering in your proposal.</p>	<p>Axon is offering a number of products that will fit the needs of Sourcewell members. We have detailed our various offerings under the headers below.</p> <p>AXON EVIDENCE Axon Evidence is a robust end-to-end solution that not only allows agencies to store data, it also enables new workflows for managing and sharing that data securely - from anywhere. Officers and command staff can upload content from Axon and TASER devices or other systems easily, manage it simply with search and retrieval features, and then collaborate effortlessly with prosecutors and other partners by using powerful sharing features. When storage needs increase, the cloud-based system allows agencies to scale instantly and cost-effectively.</p> <p>Within Axon Evidence, access to information is governed by the agency-defined access control system built into the solution. Each Axon Evidence user is assigned a role. Roles determine a user's permissions, which control levels of access to features and functions. Additionally, Axon Evidence provides many security features to secure digital evidence including password complexity requirements, failed login limits, and enforced timeout settings. Multi-factor authentication (MFA) options are also</p>

configurable for user login and prior to administrative actions. Evidence data is hashed (SHA) to ensure a robust chain of custody. Original evidence data is never changed. All modifications are handled by creating new, derivative files.

Axon Evidence provides users with easy, straightforward methods of searching, reviewing, managing and sharing digital evidence. Axon Evidence uses category types to organize stored video, simplifying the search process for your agency users. All categories are set by your agency to reflect your policies and desired structure. This categorization also facilitates database management by automatically ensuring that only relevant evidence is retained in the system. Every event that is captured and uploaded to Axon Evidence can be assigned a category to determine how long it is retained in the system. Proper categorization is important to ensure that incidents remain in the system for the appropriate amount of time. Categories include policy settings for evidence retention and restricted access for especially sensitive evidence.

Additionally, numerous metadata tags can be applied to evidentiary assets. These metadata fields are included in the searching interface to help you locate the evidence you need quickly and efficiently. ID, title, notes and tags are free text, user-defined values. Custom metadata fields will also be available to narrow search results on the advanced search page.

Axon Evidence features a full redaction suite natively within the application allowing users to redact what can be seen and heard in video evidence files. Axon Evidence never alters the original video evidence file when you create a clip or a redaction. Authorized users will have access to automated redaction and skin blurring redaction. Redaction Studio tools include options for frame-by-frame manual redaction, Spray Paint redaction (manual redaction during playback), real-time object-tracking redaction, and audio file redaction. Editing tools include the ability to create markers and clips, update or add metadata (e.g., notes, title, ID) and create photos from video stills.

Access Lists control internal and external user access to files in Axon Evidence. Each piece of evidence has its own access list, so you can individually manage access as needed. You can set the sharing duration period and the access level to the file shared (e.g., share or download).

Axon Evidence is a turnkey digital evidence management solution, so it acts as a single repository for all your digital evidence. Axon-captured video and digital evidence files (such as crime scene photos, documents and third-party video) can all be managed from one place – Axon Evidence.

AXON BODY 3

The Axon Body 3 is Axon's next-generation body camera - improving upon the simplicity and functionality of its predecessor with improved camera and audio quality, faster offload and recharging, and improved device security and durability. The camera also unlocks significant improvements in officer safety and functionality through greater device intelligence and connectivity.

The Axon Body 3 utilizes a new image sensor and improved microphones to provide the highest quality evidence, especially in low-light environments. Enhanced device intelligence and Axon Signal wireless activation capability allows officers to focus on the situations at hand.

Axon Aware is Axon's new real-time situational awareness technology. The camera is connected to LTE - similar to a cell phone - and can livestream to Axon Evidence instantaneously so that authorized supervisors, incident commanders, real-time crime centers or other designated resources have better information from the field. This LTE capability also opens the door for a wide variety of potential future features, including critical evidence offloading from the field, "find my camera" locator functionality, and much more that will be added in future firmware releases. Other Axon Aware features include real-time alerts and notifications, including gunshot detection. Additional capabilities will be added over time, and Axon Aware itself will also eventually be incorporated into other Axon products.

Axon Aware features require a separate subscription, of which there are two tiers, Axon Aware and Axon Aware+. The specific capabilities within each tier will evolve over time, but the main difference as it relates to policy development is that the Axon Aware+ tier enables livestreaming from all Axon Body 3 cameras, while the Axon Aware tier does not.

How does Axon Aware work in a real-world situation? In the field, let's say an officer gets a call of a domestic disturbance and begins a recording. Back at the station, a supervisor opens the Aware tab in Axon Evidence; the live map shows the officer's GPS marker and other camera details. As the officer arrives on scene, he is confronted by the DV suspect and broadcasts a quick but incomplete radio call. The

supervisor activates livestreaming and sees the hostile suspect advancing on the officer. The officer is notified through feedback on the device that the video is being livestreamed. The supervisor radios backup to respond Code 3 as she also heads to your location. She broadcasts the description of the assailant to dispatch and other responders. Backup arrives in time to help take the suspect into custody without further incident.

The Axon Body 3 also includes new security features, which provide greater device security for data on the camera, in transit, or in the case that the camera is lost or stolen. The solution allows for faster offload and recharge in comparison to other products on the market.

Other features and benefits of the Axon Body 3 include:

- Improved Video: Provides up to 4x better video quality
- Multi-Microphone Audio: Provides ultra-clear audio recording
- Unmatched Durability: Built to withstand extreme weather
- Full-Shift Battery: Never worry about battery life in the field
- Pre-Event Buffer: Configurable up to 120 seconds with optional audio capture
- Advanced Detection & Wireless Activity: Greater device awareness allows for broader camera activation methods
- High Speed Offload & Charging: Offload evidence and charge quickly
- On- Device Encryption
- Advanced Telemetry: Embedded GPS and accelerometer
- Dock: Dock supports offload and charging of up to eight cameras
- Versatile Mounts: New mount keeps the camera secure without magnets or puncturing shirts

AXON BODY 2

The Axon Body 2 is a self-contained audio-visual body-worn camera unit with no external wires. Numerous mounting options are offered and accommodate uniforms, belts, outerwear including jackets, and tactical and SWAT vests without any alteration to equipment.

The Axon Body 2 was designed specifically for use in tactical policing situations to capture events as seen by the officer. Activation of event recording is simple and accessible, making it easy for officers to operate the device in high-stress situations. Recordings are initiated with a single event button located on the front of the device, so an officer can easily reach it with one hand.

The solution supports a Dock & Walk Workflow. At the end of a shift, officers insert their cameras into the Axon Dock. The dock charges the cameras and updates firmware, while securely uploading videos.

AXON FLEET

Axon Fleet integrates effortlessly with Axon body-worn cameras to optimize functionality and utilizes software driven features to minimize the costs and constraints of excessive hardware components. Axon Fleet 2 is more than just a dash camera; it's part of a powerful platform that connects mobile, cloud, and wearable technologies. The cameras feature wide-angle lenses and HD video to ensure top quality recording.

Axon Fleet includes front and back cameras with features like infrared and zoom. And it offers you things you don't always associate with in-car systems, like simple pricing, over-the-air updates so you never have to worry about manual work, and integrations with Axon's body cameras and evidence management system to save you time. The rotatable front camera's low-profile design and improved mounting maximizes the officer's field of view and provides clear, stable video. Its digital zoom makes license plates readable at up to 30 feet.

Axon solutions simplify your existing processes. As part of the Axon platform, Axon Fleet works seamlessly with Axon body cameras and Axon Evidence to capture the full story. Once uploaded to Axon Evidence, you'll get the full account of an incident by viewing multiple time-synchronized videos on one screen. Securely share and track digital evidence across public safety stakeholders with smart features such as redaction, digital verification, and audit logs.

Axon Fleet includes handsfree camera activation via Axon Signal technology with configurable triggers, including such as light bar activation, door, vehicle speed, acceleration, crash and weapon rack. Focus on the task at hand and spend less time managing technology.

Fleet 2 doesn't include a DVR, saving you precious space in your vehicle. Stream, tag, and replay any camera's videos, plus write notes and upload footage, right from your MDT with the Axon View XL application.

You won't need to spend time categorizing videos - with Auto-Tagging, all Fleet and Axon body camera videos will be tagged automatically using data from your CAD or RMS system.

Multicam playback allows videos that were recorded by different body-worn and in-car cameras (in the same location and time) to be played back together in Axon Evidence, allowing users to view an incident from multiple vantage points. Since each video can have its own audio feed, the audio selector in the center of the media player controls is used to select which audio track is used during playback.

Axon body-worn and in-car cameras work either as standalone devices or in conjunction with one another. The two systems integrate seamlessly, extending the

overall capabilities of the Axon Evidence ecosystem. This cross functionality allows users to categorize and label video on both Fleet and body cameras from the Axon View XL software application. When uploaded to Axon Evidence metadata added in the field is ingested with the video files.

AXON INTERVIEW

The needs of our law enforcement customers guide our work, as is clearly illustrated in the design of Axon Interview, our in-precinct evidence capture solution. We have found that the challenges faced by our customers center around three things: the quality of evidence captured, the ease of managing that evidence, and the security of data storage and backup.

There is no discounting the importance of quality when it comes to digital evidence capture. Axon and the interview room development team spent countless hours designing a solution to deliver technology that doesn't compromise on quality for the sake of cost or usability. Our cameras are offered in several overt and covert configurations to capture multiple perspectives, and each one will give you the detail and reliability required by your stakeholders for your digital evidence.

The technology infrastructure of the Axon Interview solution is Axon Evidence, a cloud-based digital evidence management software accompanied by built-in onsite redundancy for even more peace of mind. All you need to access a comprehensive evidence management toolkit is an internet browser. Axon Evidence offers powerful data searchability, integrated redaction, transcription services, automatic retention period assignment, unlimited categories, configurable user profiles, and many other advanced features. All activity is tracked by a full audit trail in the CJIS-compliant Axon Evidence platform.

Axon Evidence makes interview recordings more accessible to your agency users, which makes your users more productive. Your evidence can now be uploaded, viewed, clipped, redacted, and shared by any authorized user. You can also live stream from up to four cameras at the same time.

Security is the most important part of managing your evidence. Chain of custody considerations require that your selected technology solution work for you, not against you. The Axon Interview solution keeps your evidence data secure, from capture to courtroom.

Onsite data redundancy ensures that your cameras never miss a moment of critical evidence. Axon Interview leverages your agency's local network to record interviews, using two recording servers. Once the interview is done, the footage will automatically trigger offload to Axon Evidence. Within Axon Evidence, your evidence will be available for your management, retrieval, and sharing within our CJIS-compliant infrastructure.

ACCESSORIES

AXON BODY 3 DOCK

The Axon Body 3 Dock provides a network connection for Axon Body 3 cameras to Axon Evidence, so the cameras can upload evidence and download camera updates. While information is securely transferred to your organization's account, the dock also recharges the camera's battery.

The Axon Body 3 Dock only functions as an Ethernet adapter, an unmanaged network switch, and charger. This allows any Axon Body 3 camera to be docked in any Axon Body 3 Dock, and still connect to your Axon Evidence account to upload video.

There are two types of Axon Body 3 Docks; a 1-Bay and an 8-Bay version.

AXON BODY 2 DOCK

The Axon Body 2 Dock provides a network connection for Axon Body 2 cameras to Axon Evidence, so the cameras can upload evidence and download camera updates. While information is securely transferred to your organization's account, the dock also recharges the camera's battery. At the conclusion of an officer's shift, they will place their Axon camera into the Axon Dock.

- All communication between the dock and Axon Evidence will be conducted over 256-bit AES encryption.
- A SHA-2 cryptographic hash function is applied to each MP4 video captured; this functions as a digital fingerprint for each video captured.
- As the MP4 video file is uploaded, it is broken into small blocks of data. At the completion of each block uploading, a SHA-2 hash function is applied to ensure authenticity and that data has uploaded in its entirety.

- In the event of an internet service interruption, the upload will resume at the last successful block. This includes if an officer must remove their Axon camera from the Dock mid-upload.
- At the completion of the upload, the same method that was used to validate the blocks, a contiguous checksum of the entire file will be evaluated to ensure that the MP4 file has been uploaded successfully and identical to when it was recorded.
- The SHA-2 cryptographic hash function is applied to ensure authenticity and that the complete file has uploaded.
- Once files are verified, they are deleted from the Axon camera.

There are two types of Axon Body 2 Docks; a 1-Bay and a 6-Bay version. Each version comes with a dock core piece, which the bays connect with.

AXON FLEX 2 DOCK

The Axon Flex 2 Dock provides a network connection for Axon Flex 2 cameras to Axon Evidence, so the cameras can upload evidence and download camera updates. While information is securely transferred to your organization's account, the dock also recharges the camera's battery. At the conclusion of an officer's shift, they will place their Axon camera into the Axon Dock.

- All communication between the dock and Axon Evidence will be conducted over 256-bit AES encryption.
- A SHA-2 cryptographic hash function is applied to each MP4 video captured; this functions as a digital fingerprint for each video captured.
- As the MP4 video file is uploaded, it is broken into small blocks of data. At the completion of each block uploading, a SHA-2 hash function is applied to ensure authenticity and that data has uploaded in its entirety.
- In the event of an internet service interruption, the upload will resume at the last successful block. This includes if an officer must remove their Axon camera from the Dock mid-upload.
- At the completion of the upload, the same method that was used to validate the blocks, a contiguous checksum of the entire file will be evaluated to ensure that the MP4 file has been uploaded successfully and identical to when it was recorded.
- The SHA-2 cryptographic hash function is applied to ensure authenticity and that the complete file has uploaded.
- Once files are verified, they are deleted from the Axon camera.

There are two types of Axon Flex 2 Docks; a 1-Bay and a 6-Bay version. Each version comes with a dock core piece, which the bays connect with. The bays contain a slot both for the camera and for the battery.

AXON BODY CAMERA MOUNTS

Axon offers a variety of mounts to suit individual needs. Some mounts are optimized for security in tactical situations (Z-Bracket, Magnet, and Molle Mounts), while others provide more versatility (Shirt Pocket, Clip, and Velcro mounts). The following mounts are designed to be used with the Axon Body 3, the Axon Body 2, or the Axon Flex controller:

- Z-Bracket Mount: The Z-Bracket Mount inserts between the buttons of a shirt. This mount is available in both male and female uniform orientations.
- Magnetic Mount Options: We offer two powerful magnetic mounts to accommodate different uniform attire and give the wearer a broad choice of mounting locations. The Flexible Magnet Mount is intended for lighter-weight uniform shirts, and the Outerwear Magnet Mount is for coats and heavier garments.
- Molle Mount Options: Molle mounts attach to the Molle straps on tactical vests and can withstand >100lbs of retention force. The Single Molle Mount is lighter and more flexible than the Double Molle Mount, which provides more lateral stability.
- Wing Clip Mount: The Wing Clip Mount consists of two pieces that make use of clipping and slot-and-key features to grip the fabric and provide strong retention. The mount is non-magnetic, lightweight, and versatile in placement owing to a hole feature that allows mounting over buttons or zippers. Furthermore, the outer piece can be rotated to the appropriate orientation per surface markings, so that the mount can be worn over single or double layers of fabric. This mount is compatible with a number of type B and C uniforms.
- Shirt Pocket Mounts: We offer the 4" and 6" Shirt Pocket Mounts that attach easily to uniform shirt pockets of various sizes.
- Clip Mount: The Clip Mount is simple in design and easy to fasten. This mount permits numerous mounting locations for non-tactical use.
- Velcro Mount: The Velcro Mount attaches to uniforms and vests with Velcro patches. Note that the back of the mount must be sewn onto or otherwise affixed to the uniform.

The following mounts are designed to be used with the Axon Flex camera portion and offer flexibility:

- Oakley Eyewear Mount: The Flex 2 camera can be attached to Oakley Flak

Jacket® glasses with the Oakley Eyewear Mount. This mount positions the camera at eye-level, designed to capture the officer's direct point-of-view.

- Ball Cap Mount: The Flex 2 camera can be worn with officer headgear, including ball caps, using the magnetic Ball Cap Mount. One magnetic clip is placed on the inside of the cap while the rest of the assembly overlaps on the outside, held securely in place by magnetic force. The camera clips into the outer assembly and sits near the officer's eye-level.
- Lowrider Headband Mount: The Lowrider Headband Mount is a comfortable frame that wraps around the back of the head with a Flex 2 camera clip mounted on the front end. Like the Oakley Eyewear Mount, the headband places the camera at eye-level to capture an officer's true perspective of events.
- Collar Mount: The Collar Mount consists of a magnetic clip with an attached Flex 2 camera clip and a metal collar support bar designed to wrap underneath the collar (around the back of the neck) for stability. The magnetic clip attaches to the shirt collar to mount the camera above shoulder-level.
- Epaulette Mount: If an officer's uniform shirt has epaulettes, the Flex 2 camera can attach to the shirt with the Epaulette Mount. The mount can be positioned to place the camera above or below the epaulette to capture the desired perspective.
- Over Vest Mount: The Over Vest Mount attaches to vests worn in the field. In tactical situations, this mount provides the same level of stability and accessibility as the epaulette mount.
- Helmet Mount: The Helmet Mount attaches the camera to most smooth, hard surfaces, like helmets, using a suction mechanism. The mount can be placed anywhere on the gear that can achieve suction.
- SWAT Mount: SWAT officers know better than anyone that body-worn cameras can be knocked off in highly physical situations. That's why we've developed a mount that secures the full Axon Flex 2 system to a SWAT officer's helmet and arc rails and holds true through intense, highly active incidents. With the SWAT Mount, the Flex 2 camera and controller both attach to the SWAT helmet, consolidating the system on the helmet and avoiding any interference with other gear.

AXON SIGNAL

Axon Signal technology enables Axon cameras to sense nearby events and start recording.

The Axon Signal Vehicle Unit (ASV)—a device installed in the patrol vehicle—broadcasts a beacon to Axon cameras in range when specific events are reported. ASV is included as part of the Axon Fleet in-car solution but can be purchased by separately by agencies if they desire. The following vehicle triggers can be configured by the system to begin recording:

- Light bar/siren activation
- Door sensor
- Exceeding a specified speed
- Rapid acceleration
- Crash detection
- Removing a weapon from the vehicle rack

In addition to the ASV, we offer the following Axon Signal products:

- Axon Signal Performance Power Magazine (SPPM) – The SPPM is an accessory (battery) for TASER conducted energy weapons (CEWs). Using Axon Signal technology, the SPPM activates cameras when the CEW is armed, the trigger is pulled, or the arc is engaged. CEWs are not a part of the scope of this RFP, but as the SPPM integrates with the Axon video solutions, it is being included to ensure our offering meets all Member needs.
- Axon Signal Sidearm – This easy-to-install smart sensor accessory attaches to the outside of most sidearm holsters and activates if a sidearm is removed from the holster. The action of drawing your weapon will trigger surrounding cameras to start the recording process, thus eliminating manual manipulation. That way, your officers can be confident truth and transparency are being upheld through video and audio documentation.

The benefits of Axon Signal products include:

- It's easy – Record events without lifting a finger. This keeps officer focus on critical incidents.
- It tells a story – Collect key information about incidents, from the triggers that activate your camera to the video evidence captured on scene.
- It's reliable – Choose the triggers that activate your camera, so recording starts when your policy says it should.

Axon Signal technology integrates seamlessly into your routine, so you don't have to worry about manually recording, whether you're driving your vehicle, using a TASER CEW, or drawing your firearm.

Line Item	Question	Response *

<p>25</p>	<p>Sales force.</p>	<p>Axon directly employs approximately 161 employees in our Sales organization. Some sales representatives work from our main office in Scottsdale, AZ while others work throughout the United States and globally. This ensures that we have qualified Axon employees close to our customers in order to conduct site visits, demonstrations, or to check on customer satisfaction.</p> <p>We take the hiring process seriously, as Axon Sales Representatives play a pivotal role in knowing business needs and applying technological solutions to solve potential challenges. These representatives must have a "business mindset," that enables them to understand complex challenges and present solutions that might solve these. Axon's hiring process intends to identify candidates who can do this effectively. It's our intention to hire people who also derive great satisfaction in helping others solve challenges through technological adoption, implementation, and advancement.</p> <p>Candidates are first phone screened by highly qualified firms who seek top talent from related industries. They are then screened again by a senior member of the Axon team to vet their personal and professional qualifications. During this time, candidates demonstrate how they have successfully learned about past businesses and helped solve their challenges through complex technological solutions. It is expected that candidates can demonstrate success in doing so throughout multiple years of their professional career.</p> <p>The most successful candidates are then invited to Axon headquarters. Throughout the day, they meet five senior members of the Axon team to more deeply validate who they are personally and professionally – personal characteristics, business skill, cultural fit within public safety, organizational fit within Axon. The internal team then debriefs about the candidate's potential fit as a representative of the company, on law enforcement's behalf.</p> <p>If the internal team finds the candidate appropriate in this position, the candidate moves on to preparing and providing a plan for how they are going to work with a number of accounts. This includes an understanding of how they're going to research, engage, understand, and work with each potential agency. They present this to the hiring manager (a Director or Vice President at Axon). If appropriate, candidates move on to the final stage of the review and hiring process.</p> <p>During this final stage, candidates speak directly with the Vice President of the Axon Sales Team or with the Executive Vice President of Global Sales for the organization. During this time, the candidate, once again, reviews their personal and professional qualifications as well as their approach to working within the organization and with public safety agencies. At this time, a decision to extend an offer of employment is made.</p> <p>The multiple steps and many stakeholders in the hiring process are to ensure proper rigor in vetting those who work with the many agencies we have or would like to partner with through a business engagement. The Axon organization is a proud technological partner of many in public safety and looks forward to hiring many more qualified individuals to appropriately work with, understand, and solve challenges within, for, and alongside countless agencies for years to come.</p>
<p>26</p>	<p>Dealer network or other distribution methods.</p>	<p>Axon partners with distributors in limited situations. These distributors are not employees of Axon Enterprise, and therefore we do not know their company employment numbers.</p> <p>Within the United States, we work with a small number of distributors to sell our CEWs, which are not a part of the scope of this RFP. These distributors do not sell our Axon video solutions, which are included in the scope of this agreement</p> <p>In Canada, we partner exclusively with MD Charlton to sell and service CEWs, which are not included in the scope of this RFP. There is some overlap between sales and service function in this case, as MD Charlton assists Axon with processing repairs.</p>

27	Service force.	<p>CUSTOMER SUPPORT Axon has a full customer and technical support division available 24 hours a day, seven days a week. The Technical Support team is based in Scottsdale, Arizona with additional employees in our Melbourne, Australia and Daventry, UK offices.</p> <p>REPAIR (RMA) DEPARTMENT The Return Material Authorization (RMA) department is located at Axon Headquarters in Scottsdale, Arizona. The RMA department prioritizes returned products for analysis and/or repair on a first-in-first-out (FIFO) basis, based on the severity of the complaint (or unless otherwise requested by the agency). The general turn-around-time for a full resolution is less than 30 calendar days from receipt of the returned product.</p> <p>Axon provides agencies with the ability to manage RMA requests within Axon Evidence. Authorized users will be able to create, update, save, submit, and track device returns for their agency in one place. Axon Evidence Device Return Service is integrated with FedEx and return shipping labels are provided at no extra charge. RMAs may also be generated at https://returns.axon.com, although return shipping labels are not available via this method.</p> <p>Upon receipt of the item(s), the RMA department will conduct a failure analysis investigation to determine the root cause of the issue and repair the item if possible. It is at Axon's sole discretion to repair or replace a device as identified in the original manufacturer warranty and/or the extended warranty policy.</p> <p>CUSTOMER SUCCESS MANAGERS (CSM) Throughout the length of their contract, some customers will have a dedicated, in-country Customer Success Manger (CSM). This is determined on the size and location of the customer; Currently the CSM team is operating within the United States only. The team is being expanded, but we do not have an estimated time of implementation in Canada. The CSM will have comprehensive knowledge of a customers' solution and its components, including any applicable custom integrations. The CSM will be available to offer support and escalate any issues or concerns as needed.</p> <p>As a whole, the Axon Support organization directly employs approximately 96 individuals.</p>

Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	<p>Axon has a full customer service and support division; live phone support is available 24 hours a day, seven days a week. Online, email-based support and remote-location troubleshooting are included on an ongoing basis as part of your investment in the Axon ecosystem.</p> <p>Calls are first routed to the Tier 1 technical support team. Through troubleshooting, they can resolve most calls. If at any point an issue needs to be escalated to a higher technical tier, the call may be immediately transferred to a Tier 2 support specialist, or a phone number may be taken for a callback, depending on call volume and issue complexity.</p> <p>The following describes our levels of support available by tiers (based on the nature and criticality of the issue):</p> <p>TIER 1 TECHNICAL SUPPORT - GENERAL HOW-TO QUESTIONS</p> <ul style="list-style-type: none"> • Frequently asked questions (FAQs) • Product navigation • Feature clarification • Standard queries • Assistance with known solutions <p>TIER 2 TECHNICAL SUPPORT</p> <ul style="list-style-type: none"> • Advanced Product trouble shooting • Advanced Axon Evidence Configuration • Any Escalated issues from Tier 1 support <p>TIER 3 ENGINEERING SUPPORT</p> <ul style="list-style-type: none"> • Critical problem or recurring problems rendering the product inoperable or requiring workarounds, bug fixes, testing and/or simulation <p>The targeted response time for critical problems is one business day. This assesses customer satisfaction and ensures that cases are handled in a timely manner.</p>	*

32	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	At this time, Axon does not conduct any marketing efforts specifically related to cooperative contracting. Axon promotes the use of cooperative contracts to its salesforce by utilizing training, webinars, and other internal resources.
33	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	We use technology and digital data to understand our audiences – broken out by users we have identified as well as anonymous users. The goal we're trying to achieve is converting our paid users to owned users through multiple technologies, such as retargeting, remarketing, email, social media, referral sites, search, and directory sites. We do not sell any user data to 3rd parties. By acquiring this data, we are able to find patterns and "look-a-likes" to better predict user flows and marketing efficiency.
34	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	<p>Sourcewell can help promote membership to law enforcement agencies who may not realize they are members. Axon has seen in past interactions that many agencies do not know they are already members of a cooperative.</p> <p>If awarded a Sourcewell contract, Axon would take the following steps to integrate the contract into its sales process:</p> <ul style="list-style-type: none"> • Announce the award to Axon's US and Canadian sales teams • Add the contract information to Axon's Customer Relationship Management (CRM) tool, Salesforce.com, so that sales reps can easily see all pertinent data • Add information on the contract to upcoming new hire sales trainings
35	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	Our ecommerce site requires an authorized login and purchase eligibility to access. The platform is intended to make ordering faster, easier, and more efficient. We allow authorized customers to pay by credit card and Purchase Order (when authorized by both agency and Axon to purchase via Purchase Order/invoice). The site customizes product visibility and includes contracted pricing for each agency. The ecommerce site acts as another 'ingestion point' for orders. After the order is placed, it is processed as any other order would. As of today, the ecommerce site only supports the sale of hardware and warranties. We are looking to expand the Axon products we can support drastically within the next year and are also looking to support extended warranties and contracts. The ecommerce site is an added asset to our customers and can enable customers to order items quickly if the sales representative or customer success manager is traveling. The ecommerce team can assist on nearly anything (RMA, invoice questions, contract questions, product questions, tax exemption, etc.) and for all inquiries outside our skill sets, we can ensure your questions get directed to the proper resource quickly.

<p>36</p>	<p>Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell Members. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.</p>	<p>Axon can help Sourcewell members maximize their Axon investment with comprehensive implementation. The Axon Professional Services team consists of a group of highly skilled individuals with in-depth knowledge of all Axon products and Axon Evidence functionality. The full-service professional services package includes a Project Manager who will create a custom project plan to fit the member's needs. Each Professional Services package addresses the vital elements of an agency's solution, starting with system structure and configurations before moving to topics relating to device use and functionality. We have included all our Professional Services offerings in the scope of this Cooperative. Axon sales representatives can help individual members evaluate what plan is right for them during their purchase. Costs are detailed in our price sheets.</p> <p>There are other benefits with the Axon Professional Services offering, such as subject matter experts who consult on best practices for the set-up, configuration, policy and overall program performance for your deployment. These services are optional. However, an agency's program success is three times greater when Professional Services has rendered on-site support, compared to when agencies don't utilize the offering.</p> <p>Our Professional Services Managers focus entirely on on-site and off-site training. Our experienced team can train everyone from officers, administrators, armorers, supervisors, detectives and even prosecutors.</p> <p>During the initial phase of the implementation process, Axon's Professional Services team will assist with the following tasks:</p> <ul style="list-style-type: none"> • System Set Up and Configuration • Configure categories & custom roles • Troubleshoot IT issues <p>After An initial, limited number of key users, armorer(s) and system administrator(s) should be trained. The size of this contingent depends on agency size or size of the planned full deployment. These officers will serve a number of roles, including final confirmation of system functionality and performance. They will likely provide useful feedback on any localized issues that had not been previously identified. They will provide a demonstration and information platform for their co-worker/future user officers. They typically become a resource when newer users are activated and require training or assistance.</p> <p>Regarding Axon Evidence training, the agency administrator is the starting point for defining security settings, creating custom roles and setting permissions, adding users (User, Administrator, Armorer or any other custom roles), reassigning devices, creating categories and setting retention policies, and several of the other administrative features of the Axon Evidence services. Our team will provide step-by-step explanations and assistance for agency's configuration of security, roles & permissions, categories & retention, and other specific settings for Axon Evidence. Administrators should attend all the training sessions that are decided upon. We will then provide Axon instructor training with the goal of educating instructors who can support the agency's subsequent training needs.</p> <p>Although the cameras, in-car systems, and interview room solution themselves are simple in design and use, a proper introduction to hardware and workflow is essential. The Professional Services training offering provides different options for training, depending on the level of detail and time necessary for users.</p> <p>Axon believes in the philosophy of "Smart Small, Test, Assess, Correct, Go Big". Deploy the key users. Make sure the way you've configured your system integrates smoothly into your workflow. Assess readiness based on evaluation and feedback and make any necessary adjustments. Once you've taken these steps, you're ready to schedule the rest of your user training.</p> <p>During on-site training, our Professional Services team also will provide the member with training documentation, which can be used in future training sessions.</p>
<p>37</p>	<p>Describe any technological advances that your proposed products or services offer.</p>	<p>As a company that strives to advance the efforts of public safety through technology whenever possible, Axon builds each product to be advanced and cutting-edge in its capabilities. Details for each product are provided under the headers below.</p> <p>AXON EVIDENCE</p> <p>Axon Evidence's cloud-based infrastructure means that Sourcewell members do not need to devote personnel to on-premises equipment, maintenance or extensive infrastructure improvements over time. You'll remain on the cutting-edge of evidence management technology with minimal investments in staff and time.</p> <ul style="list-style-type: none"> • Instantly scale: Your computing power and storage scale automatically, growing with you as you need them. • Instantly share: Your evidence is easily and securely shared with stakeholders (prosecutors, partner agencies, etc.) through the internet, preserving resources which normally would be consumed by manual processes. • Instantly upgrade: Your system receives automatic monthly updates from Axon to deliver the latest features, functionality, and security advances with no effort from your agency. • Guarantee security: Your system maintains compliance with the world's most rigorous

security standards through ongoing reviews of and upgrades to Axon Evidence's intensive security protocols, which leverage resources from Axon and Microsoft.

- Prevent system failure: Your data is always available because of robust and automated disaster recovery coupled with multiple, geographically separate storage locations.
- Ensure accessibility: Your evidence is always accessible from any device with an internet connection and standard browser subject to IP restrictions dictated by the agency.
- Integrations: Axon Evidence supports integration with Active Directory and Single Sign-On (SSO) allowing users to log in with their agency credentials and uses your network to authenticate users.

Additionally, Axon Evidence is easy to use, with a simple but feature-rich interface and intuitive layout. The dynamic interface automatically adjusts to accommodate a user's role, so they only see what you want them to see, greatly simplifying the user experience.

Axon Evidence integrates with Axon Capture, our free mobile application. Axon Capture streamlines the evidence collection process by harnessing the power of the modern phone to capture digital evidence. Until today, officers have had two options: sacrifice security for convenience, or convenience for security. The application was built specifically for law enforcement to allow officers to capture digital evidence right from the field. The app eliminates the need to carry three separate devices for photo, video, and audio recording. Metadata including ID, titles, evidentiary categories and GPS coordinates can be added to any recordings and synced to your agency's Axon Evidence account right from the scene. Officers can upload files from smartphones in the field to their agency's Axon Evidence account over a data connection or Wi-Fi.

Axon Evidence features Axon Citizen, which is available to Pro-level users of the system. Axon Citizen for Officers facilitates quick, simple, and secure digital evidence collection from individual witnesses. Officers can issue invitations for Axon Citizen evidence submissions through the Axon Capture mobile application or Axon Evidence (via a text message or email). This invitation can include the incident ID, category, and a brief description of the incident. Invitations contain a single-use link through which a witness can upload evidence files for the issuing officer's review. This allows officers to collect information from the public in an efficient manner and associate it correctly with the corresponding GO numbers (applicable to Canadian members) to reduce the volume of unstructured data collected from the public.

Axon can also assist with integrating your CAD or RMS system with Axon Evidence. This allows the system to automatically categorize videos based on the correlated event metadata captured by the respective system. The solution is provider agnostic; categories are queried directly from the database, effectively bypassing the CAD or RMS front-end interface. This automated process does not require an officer to connect a body-worn camera to a computer or smartphone. Any system with an accessible back-end database (SQL DB, etc.) can be integrated with the Axon solution. Often, these reports are already pulled for crime statistics reporting. Auto-Tagging enables automatic tagging of Axon videos with the correct corresponding metadata from the CAD or RMS system. Automatic retention is accomplished through categorization mapping.

Multicam playback in Axon Evidence allows videos that were recorded by different body-worn and in-car cameras (in the same location and time) to be played back together, allowing users to view an incident from multiple vantage points.

Axon Evidence features a full redaction suite natively within the application allowing users with permission the ability to redact what can be seen and heard in video evidence files. Axon Evidence never alters the original video evidence file when you create a clip or a redaction. Note that video redaction is a feature available with Pro Axon Evidence licenses (not available with Basic licenses).

Axon Evidence offers manual redaction (including video and audio), automated redaction and skin blurring redaction. Additionally, a bulk redaction feature is also available to assist with completing FOIA requests.

Available with the Officer Safety Plan (OSP 7+ bundle), Redaction Assistant is a powerful add-on to the standard Axon Evidence Redaction Studio. Redaction Assistant speeds up the redaction process by automating redactions for common objects like faces, license plates, and video screens (e.g., MDT screens). As the results come through in real-time, you can review the redactions—or simply wait to view the results when you're done with other tasks, since Redaction Assistant will stay running even when your computer is off. Redaction Studio allows users to review and approve or discard redaction masks added by Redaction Assistant to ensure videos are edited properly.

Redaction Assistant is Axon's first fully AI-powered product, and our AI Ethics Board has been engaging with us throughout the research and product development process. As a productivity tool that will make law enforcement more efficient and transparent with the public, our experience with launching Redaction Assistant will guide the development of our future AI products.

AXON BODY 3

The Axon Body 3 is our latest, most advanced body-worn camera offering to date. The Axon Body 3 utilizes a new image sensor and improved microphones to provide the highest quality evidence, especially in low-light environments, with a 146.4° field of view. Enhanced device intelligence and Axon Signal wireless activation allows officers to focus on the situations at hand. New security features provide greater device security for data on the camera, whether in transit or in the case the camera is lost or stolen. The solution allows for faster offload and recharge in comparison to other products on the market, and even supports upload during recording.

An audio algorithm developed in partnership with Nokia dramatically improves the audio captured by the Axon Body 3 camera, compared to its predecessor. We use sophisticated on-board audio processing (Nokia Ozo-based) to conduct wind noise reduction, calculate automatic gain control, and produce a high-quality stereo audio recording. The Axon Body 3 also utilizes advanced low-light technology. A lux rating indicates low-light perception capability, or the level of light required to see an object. The camera has a lux rating of < 0.1 lux; the human eye has a lux rating of approximately 0.1 lux. Additionally, an algorithm designed to minimize blurring in fast-moving, low-light environments ensures high-quality videos.

Battery life has been improved with the Axon Body 3. When a fully depleted battery is recharged using the Axon Dock, the recharge time for 12+ hours of buffering mode is approximately five hours. It should be noted, however, that the battery is designed to last a full 12+ hour shift, and it is unlikely that the battery will fully deplete after one use. Charging a fully depleted battery for approximately three hours will provide an 80% charge. The battery is removable, replaceable, and recyclable.

The camera has four video quality settings with a minimum video resolution of 480p and a maximum video resolution of 1080h. The video resolution, encoding bit rate, frame rate, and video encoding format impact the size of files captured at each setting. The device has 64 GB of non-removable storage to house captured video files. Recording capacity and associated settings are:

- The 480p resolution setting captures video at a rate of 0.9 GB per 60 minutes of video. This setting supports storage of over 46 hours of video.
- The 720l resolution setting captures video at a rate of 1.2 GB per 60 minutes of video. This setting supports storage of approximately 38 hours of video.
- The 720h resolution setting captures video at a rate of 2.0 GB per 60 minutes of video. This setting supports storage of approximately 25 hours of video.
- The 1080h resolution setting captures video at a rate of 4.5 GB per 60 minutes of video. This supports storage of approximately 11 hours of video.

The Axon Body 3 camera integrates with real-time situational awareness technology (Axon Aware), allowing the camera to offload video remotely, live-stream video and audio, and send alerts in real time. The camera is connected to LTE - similar to a cell phone - and can livestream to Axon Evidence instantaneously so that authorized supervisors, incident commanders, real-time crime centers or other designated resources have better information from the field. This LTE capability also opens the door for a wide variety of potential future features, including critical evidence offloading from the field, "find my camera" locator functionality, and much more that will be added in future firmware releases. Other Axon Aware features include real-time alerts and notifications, including gunshot detection.

Imagine a scenario where an officer radios dispatch to inform them that they are struggling with a suspect. With Axon Aware, those not on the scene can view the live footage from the officer's body camera, to gain situational awareness (which is useful for sharing with officers providing backup). If the suspect returns to their vehicle and speeds away, the remote viewer can access previously recorded footage and capture an image of the suspect's vehicle or license plate. This image can then be sent to other officers in the area for BOLO alerts.

The Axon Body 3 camera has an embedded GPS chip that sources location data from the device (similar to a cell phone). Additionally, the cameras can log geolocation data by pairing via Bluetooth with a GPS-capable smart device. Axon View, Axon's free mobile application, allows officers to pair their cameras to their smart devices (e.g., iPhones or Android smartphones) in the field. A paired smart device determines its real-world geographic location and securely transmits the geolocation information to the Axon camera. The camera then embeds the information automatically as metadata associated with the video file.

AXON BODY 2

The Axon Body 2 camera's self-contained design requires no external wires that might interfere with an officer's activities. Multiple mounting options require no alteration to uniforms and allow officers to adjust the camera's position. The device's durability, full-shift battery life, configurable pre-event buffer, and intuitive controls provide officers an effective and reliable evidence capture tool in the field.

The Axon Body 2 camera features an industry-leading continuous recording time of 12 hours at 480p and 720p, and 10 hours at 1080p. The cameras are optimized for every power

consideration to achieve the battery life necessary to support this invaluable capability. GPS data can be captured and stored with each video file by pairing via Bluetooth with a GPS-capable smart device. Axon View, Axon's free mobile application, allows officers to pair their cameras to their smart devices (e.g., iPhones or Android smartphones) in the field. A paired smart device determines its real-world geographic location and securely transmits the geolocation information to the Axon camera. The camera then embeds the information automatically as metadata associated with the video file. When uploaded to Axon Evidence, the system analyzes and retrieves geolocation information from the video files. A mapping function within Axon Evidence then displays in the interface the location of the camera at the time of video capture

AXON FLEX 2

The Axon Flex 2 camera captures events from the officer's perspective. Connected by a single cable to a controller, the camera components do not interfere with an officer's duties. The Axon Flex 2 system offers a wide variety of mounts; the camera can be worn at or near eye-level, and the controller is worn on the torso or beltline for easy access to controls. The device's durability, full-shift battery life, configurable pre-event buffer, and intuitive controls provide an effective, reliable evidence capture tool.

The Axon Flex 2 camera features an industry-leading continuous recording time of 12 hours at 480p and 720p, and 10 hours at 1080p. The cameras are optimized for every power consideration to achieve the battery life necessary to support this invaluable capability. GPS data can be captured and stored with each video file by pairing via Bluetooth with a GPS-capable smart device. Axon View, Axon's free mobile application, allows officers to pair their cameras to their smart devices (e.g., iPhones or Android smartphones) in the field. A paired smart device determines its real-world geographic location and securely transmits the geolocation information to the Axon camera. The camera then embeds the information automatically as metadata associated with the video file. When uploaded to Axon Evidence, the system analyzes and retrieves geolocation information from the video files. A mapping function within Axon Evidence then displays in the interface the location of the camera at the time of video capture

AXON FLEET

Axon solutions simplify your existing processes. As part of the Axon platform, Axon Fleet works seamlessly with Axon body cameras and Axon Evidence to capture the full story. Once uploaded to Axon Evidence, you'll get the full account of an incident by viewing multiple time-synchronized videos on one screen. Securely share and track digital evidence across public safety stakeholders with smart features such as redaction, digital verification, and audit logs.

Axon Fleet includes front and back cameras with features like infrared and zoom. And it offers you things you don't always associate with in-car systems, like simple pricing, over-the-air updates so you never have to worry about manual work, and integrations with Axon's body cameras and evidence management system to save you time. The rotatable front camera's low-profile design and improved mounting maximizes the officer's field of view and provides clear, stable video. Its digital zoom makes license plates readable at up to 30 feet.

Axon Fleet includes handsfree camera activation via Axon Signal technology with configurable triggers, including such as light bar activation, door, vehicle speed, acceleration, crash and weapon rack. Focus on the task at hand and spend less time managing technology.

Fleet 2 doesn't include a DVR, saving you precious space in your vehicle. Stream, tag, and replay any camera's videos, plus write notes and upload footage, right from your MDT with the Axon View XL application.

You won't need to spend time categorizing videos - with Auto-Tagging, all Fleet and Axon body camera videos will be tagged automatically using data from your CAD or RMS system.

Axon body-worn and in-car cameras work either as standalone devices or in conjunction with one another. The two systems integrate seamlessly, extending the overall capabilities of the Axon Evidence ecosystem. This cross functionality allows users to categorize and label video on both Fleet and body cameras from the Axon View XL software application. When uploaded to Axon Evidence metadata added in the field is ingested with the video files.

AXON INTERVIEW

Axon Interview is a state-of-the-art audiovisual recording solution designed for the critical context of the interview room. The Axon Interview solution is revolutionizing interview room technology to give agencies the best of both worlds by providing a local interview room solution that seamlessly integrates with Axon Evidence, Axon's cloud-based, turnkey digital evidence management platform.

The Axon Interview room solution is equipped with one camera and one microphone per room (if desired members can select a two camera per room solution), one touch panel per room, two application servers for redundant recording and all the software required to run the application.

Axon Interview runs on your agency's local network to record interviews. When video

captured is so critical, your agency cannot trust a straight to cloud platform where a slight loss of connectivity could cause a critical failure. That is why Axon Interview is installed on two recording servers, which both independently and simultaneously grab their own video feed and microphone feed from the source. If one server fails, the second server independently captures everything.

Interviews can be streamed from anywhere on your network, and a 24/7 buffering option allows agencies to capture events even when recording is disengaged. Axon Interview is accessed through intuitive touch screen software that allows agencies to configure their policies directly into the solution. Officers login through the touch panel, enter agency-defined metadata, and start the recording.

Once the interview is complete, the officer can end recording through the touch panel, this will automatically trigger an offload to Axon Evidence. The video will be available for review once it finishes uploading to Axon Evidence. All the powerful categorization, search, and editing functions available in Axon Evidence are now available for your interview room footage.

Instead of managing your own infrastructure and the unpredictable costs of scaling and managing proprietary storage arrays, Axon Evidence offers continual industry best practices and services allowing instantaneous and cost-effective scalability.

Axon Interview is an important expansion of the Axon Platform, adding seamless connectivity to the Axon community of connected customers. Axon Interview was purpose-built with the sole commitment of protecting the truth by capturing the interview every time and with the best video quality possible.

With Axon's solution, finding that key piece of dialogue takes moments, not hours. Users can bookmark, annotate, and comment on footage in real time. Custom metadata categories allow agencies to organize evidence in a way that works for them. Complete chain of custody is maintained and audio and video masking protects attorney-client privileges and ensures defensible evidence. Managing interview footage is simple and smart with Axon Interview.

OTHER INNOVATIONS

Available for both Android and iOS devices, the Axon View mobile application allows officers to playback videos, add tags, and assign a title, ID and categories to a video, while still in the field. Axon View automatically maps video with GPS data and allows real-time tagging of metadata from an officer's smartphone. Before the officer sets foot in the office, the video is assigned and automatically filed under the appropriate retention schedule. Once uploaded to Axon Evidence, the video evidence can be accessed quickly with a simple keyword search.

Axon Docks are multi-purpose hubs for your Axon body-worn cameras. Axon Docks upload captured videos to Axon Evidence while they charge your cameras and automatically install device firmware updates.

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *
43	Do your warranties cover all products, parts, and labor?	Axon warrants that its law enforcement hardware products which are manufactured by Axon are free from defects in workmanship and materials for a period of one (1) year from the date of receipt. Axon-manufactured accessories are covered under a limited ninety-day warranty from the date of receipt. Non-Axon manufactured accessories are covered under the manufacturer's warranty. There are extended warranties available as defined in the Axon Master Services and Purchasing Agreement (MSPA). NON-AXON MANUFACTURED PRODUCTS For some solutions we are authorized resellers of hardware (Cradlepoint routers for Axon Fleet, Axis cameras for Axon Interview, etc.). Products that we are authorized to resell abide by the manufacturer's warranty. Further details can be provided upon request.
44	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	Restrictions are outlined in our warranty, which has been included in the uploaded attachments.
45	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Our warranties do not cover the expense of technicians' travel time and mileage to perform warranty repairs.
46	Are there any geographic regions of the United States (and Canada, if applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell Members in these regions be provided service for warranty repair?	Axon will be available 24 hours/7 days per week by phone for emergency technical support for any system outage, and if mutually agreed upon by both parties, we can provide onsite support for local issues. If a site visit is deemed necessary due to an issue (i.e. access point failures or accidental cut wires) and not an Axon or Axon Evidence issue there may be a charge assessed to the agency.
47	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Axon will troubleshoot these devices to the best of our ability. If we are unable to resolve the issue and the devices require warranty service, this will be performed by the manufacturer.
48	What are your proposed exchange and return programs and policies?	Axon does not allow exchanges or returns. Please see our MSPA for full details.
49	Describe any service contract options for the items included in your proposal.	Please refer to the included MSPA.

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *
50	What are your payment terms (e.g., net 10, net 30)?	Payment terms are Net 30.
51	Do you provide leasing or financing options, especially those options that schools and governmental entities may need to use in order to make certain acquisitions?	Axon does not offer leasing or financing options. Alternatively, Axon offers a provision in its MSPA which allows for cancellation by the agency if sufficient funds are not appropriated.
52	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcewell Members' purchase orders.	Axon will process orders Axon will accept from Sourcewell members directly, as our distributor network in the United States and Canada does not sell our video products. Our Order Entry team enters orders into our CRM, Salesforce. Reports will be maintained and extracted from Salesforce for quarterly reporting to Sourcewell.
53	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell Members for using this process?	Axon can process via P-card if necessary but prefers ACH payments whenever possible.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
54	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Axon is proposing a Schedule Discount for Sourcewell Members. The discount increases as the order quantity increases. Please see question #55 and the document in the pricing materials section for full details.	*
55	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	<p>Axon is proposing the following discount schedule based on order quantity. This discount schedule applies to Axon manufactured items. This does not apply to items which Axon resells as part of its offerings. 57	Propose a method of facilitating “sourced” products or related services, which may be referred to as “open market” items or “nonstandard options”. For example, you may supply such items “at cost” or “at cost plus a percentage,” or you may supply a quote for each such request.	Axon sells at the sourced party’s MSRP. Discounts may be applied in certain situations on sourced items, on a case-by-case basis.	*
58	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	<p>Axon has included all available installation and training options in our pricing. Our sales representatives can discuss options with each Member during the ordering process. We encourage agencies to take advantage of our experienced Professional Services team for installation and training, but it is not mandatory. We offer several options at different price points for agencies at various budgets.</p> <p>If the Member chooses to purchase the Axon router for the Axon Fleet in-car solution, NetCloud and Cradlecare must also be purchased. PRIME NetCloud enables zero-touch deployment and remote management of Multi-WAN branch and in-vehicle routers and IoT gateways. NetCloud Engine enables virtual cloud networking that leverages cloud, Software-Defined Networking (SDN), and Network Function Virtualization (NFV) technologies. Cradlecare includes:</p> <ul style="list-style-type: none"> • Coverage for all products and services • 12X5 support via email, phone and chat • 24X7 qualified phone support • Advanced Exchange: next day business replacement • Service level targets • Extended warranty for routers for the term of the Cradlecare license • Assigned Enterprise Support Engineer (for deployments of 50 routers or more) • Enterprise engineering resources for network design and best practices implementation • Priority consideration of future feature requests and beta trials 	*

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
63	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcwell. This process includes ensuring that Sourcwell Members obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcwell.	Axon utilizes Salesforce.com as its CRM tool and Microsoft Dynamics AX as its enterprise resource-planning tool. When a sales representative provides a customer a quote utilizing the cooperative, the sales representative will select the cooperative contract within Salesforce.com. At the end of the quarter, our Sales Operations team runs a report in Salesforce.com to see all deals that closed the previous quarter for each cooperative that requires reporting. Because a sale could be closed in Salesforce but not actually shipped or invoiced for, we then run that information in Microsoft AX. Microsoft AX allows us to see if the ship date occurred within the reporting quarter and the amount that we invoiced to the customer. Once we have all pertinent data, we put it into an Excel spreadsheet to guide us in reporting the cooperative sales data.
64	Identify a proposed administrative fee that you will pay to Sourcwell for facilitating, managing, and promoting the Sourcwell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Axon will pay 2% on the initial shipment or 1% on a multi-year sale.

Table 14: Industry Specific Questions

65	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Axon will track the following internal metrics to measure success with the contract: <ul style="list-style-type: none"> • The number of agencies who utilize the cooperative • The dollar amount of sales associated with the cooperative • The Length of time takes to update the contract after new products/services are announced by Axon
66	Describe, in detail, the video and recording features as it applies to your products. Examples may include activation, buffering, range, resolution, file transfer, etc.	Axon's solutions include our three current models of body cameras, our in-car camera system, and our interview room solution. Their video and recording features are laid out under the headers below. AXON BODY 3 The Axon Body 3 is a camera system incorporating an audio and video recording device. This camera is designed for use in tough environmental conditions encountered in law enforcement, corrections, military, and security activities. The Axon Body 3 camera is designed to record events for secure storage, retrieval, and analysis to the Axon Evidence service. The recorded events are transferred to your storage solution using the Axon Body 3 Dock. Additionally, the Axon View application enables playback of footage on a smart device for review prior to storing the data. The Axon Body 3 utilizes a new image sensor and improved microphones to provide the highest quality evidence, especially in low-light environments. Enhanced device

intelligence and Axon Signal wireless activation capability allows officers to focus on the situations at hand. The camera can also be activated by a simple double-tap on the large, easily accessible button on the front of the device.

The pre-event buffer captures up to two minutes of video (depending on agency settings) immediately preceding event recording. The pre-event buffer period is configurable in 30-second increments, from 0-120 seconds at 480p and 720p resolutions, and from 0-90 seconds at 1080p. By default, the pre-event buffer is 30 seconds. Audio recording can be disabled during buffered video recording to accommodate agency evidence collection policies. Audio recording is disabled for pre-event buffering by default.

The camera has four video quality settings with a minimum video resolution of 480p and a maximum video resolution of 1080h. The video resolution, encoding bit rate, frame rate, and video encoding format impact the size of files captured at each setting. The device has 64 GB of non-removable storage to house captured video files. The 480p resolution setting captures video at a rate of 0.9 GB per 60 minutes of video. This setting supports storage of over 46 hours of video. The 720i resolution setting captures video at a rate of 1.2 GB per 60 minutes of video. This setting supports storage of approximately 38 hours of video. The 720h resolution setting captures video at a rate of 2.0 GB per 60 minutes of video. This setting supports storage of approximately 25 hours of video. The 1080h resolution setting captures video at a rate of 4.5 GB per 60 minutes of video. This supports storage of approximately 11 hours of video.

The Axon Body 3 is our first camera to integrate with Axon Aware. Axon Aware is our new real-time situational awareness technology. The camera is connected to LTE - similar to a cell phone - and can livestream to Axon Evidence instantaneously so that authorized supervisors, incident commanders, real-time crime centers or other designated resources have better information from the field. This LTE capability also opens the door for a wide variety of potential future features, including critical evidence offloading from the field, "find my camera" locator functionality, and much more that will be added in future firmware releases. Other Axon Aware features include real-time alerts and notifications, including gunshot detection. Additional capabilities will be added over time, and Axon Aware itself will also eventually be incorporated into other Axon products.

Axon Aware features require a separate subscription, of which there are two tiers, Axon Aware and Axon Aware+. The specific capabilities within each tier will evolve over time, but the main difference as it relates to policy development is that the Axon Aware+ tier enables livestreaming from all Axon Body 3 cameras, while the Axon Aware tier does not.

How does Axon Aware work in a real-world situation? In the field, let's say an officer gets a call of a domestic disturbance and begins a recording. Back at the station, a supervisor opens the Aware tab in Axon Evidence; the live map shows the officer's GPS marker and other camera details. As the officer arrives on scene, he is confronted by the DV suspect and broadcasts a quick but incomplete radio call. The supervisor activates livestreaming and sees the hostile suspect advancing on the officer. The officer is notified through feedback on the device that the video is being livestreamed. The supervisor radios backup to respond Code 3 as she also heads to your location. She broadcasts the description of the assailant to dispatch and other responders. Backup arrives in time to help take the suspect into custody without further incident.

The Axon Body 3 also includes a Camera Display, which shows information on camera status and activity. Different information is shown depending on if the Axon Body 3 camera is in the field or in an Axon Dock. If Axon Aware is not enabled, some icons may not be active or displayed. The Status Bar (upper portion of the display) shows the battery capacity, camera pairing information, light status, Stealth mode status, and low battery warnings. The Activity Area (main portion of the display) gives information on camera readiness, recording status, Axon Signal broadcasts, Axon Aware Live Streaming notifications, gunshot detection warnings, and Mute Mode information. At night and in low-light situations, users can use the Select button to backlight the Camera Display. The backlight display can be activated by double-pressing the Select button on the Axon Body 3. This will trigger the Camera Display to light up and remain backlit for two seconds.

The Axon Body 3 also includes new security features, which provide greater device security for data on the camera, in transit, or in the case that the camera is lost or stolen. The solution allows for faster offload and recharge in comparison to other products on the market.

Other features and benefits of the Axon Body 3 include:

- Improved Video: Provides up to 4x better video quality
- Multi-Microphone Audio: Provides ultra-clear audio recording

- Unmatched Durability: Built to withstand extreme weather
- Full-Shift Battery: Never worry about battery life in the field
- Pre-Event Buffer: Configurable up to 120 seconds with optional audio capture
- Advanced Detection & Wireless Activity: Greater device awareness allows for broader camera activation methods
- High Speed Offload & Charging: Offload evidence and charge quickly
- On- Device Encryption
- Advanced Telemetry: Embedded GPS and accelerometer
- Dock: Dock supports offload and charging of up to eight cameras
- Versatile Mounts: New mount keeps the camera secure without magnets or puncturing shirts

AXON BODY 2

The Axon Body 2 was designed specifically for use in tactical policing situations to capture events as seen by the officer. Activation of event recording is simple and accessible, making it easy for officers to operate the device in high-stress situations. Recordings are initiated with a single event button located on the front of the device, so an officer can easily reach it with one hand. The Axon Body 2 can also be activated wirelessly through Axon Signal technology.

The pre-event buffer captures up to two minutes of video (depending on agency settings) immediately preceding event recording. The pre-event buffer period is configurable in 30-second increments, from 0-120 seconds at 480p and 720p resolutions, and from 0-90 seconds at 1080p. By default, the pre-event buffer is 30 seconds. For additional flexibility, a 10-second pre-event buffering option is also available. Audio recording can be disabled during buffered video recording to accommodate agency evidence collection policies. Audio recording is disabled for pre-event buffering by default.

The camera has four video quality settings with a minimum video resolution of 480p and a maximum video resolution of 1080h. The video resolution, encoding bit rate, frame rate, and video encoding format impact the size of files captured at each setting. The device has 64 GB of non-removable storage to house captured video files. The 480p resolution setting captures video at a rate of 0.9 GB per 60 minutes of video. This setting supports storage of over 46 hours of video. The 720i resolution setting captures video at a rate of 1.2 GB per 60 minutes of video. This setting supports storage of approximately 38 hours of video. The 720h resolution setting captures video at a rate of 2.0 GB per 60 minutes of video. This setting supports storage of approximately 25 hours of video. The 1080h resolution setting captures video at a rate of 4.5 GB per 60 minutes of video. This supports storage of approximately 11 hours of video.

The solution supports a Dock & Walk Workflow. At the end of a shift, officers insert their cameras into the Axon Dock. The dock charges the cameras and updates firmware, while securely uploading videos. Videos can also be uploaded via the Evidence Sync desktop client.

AXON FLEET

Axon Fleet integrates effortlessly with Axon body-worn cameras to optimize functionality and utilizes software driven features to minimize the costs and constraints of excessive hardware components. Axon Fleet 2 is more than just a dash camera; it's part of a powerful platform that connects mobile, cloud, and wearable technologies. The cameras feature wide-angle lenses and HD video to ensure top quality recording.

Axon Fleet includes front and back cameras with features like infrared and zoom. And it offers you things you don't always associate with in-car systems, like simple pricing, over-the-air updates so you never have to worry about manual work, and integrations with Axon's body cameras and evidence management system to save you time. The rotatable front camera's low-profile design and improved mounting maximizes the officer's field of view and provides clear, stable video. Its digital zoom makes license plates readable at up to 30 feet.

As part of the Axon platform, Axon Fleet works seamlessly with Axon body cameras and Axon Evidence to capture the full story. Once uploaded to Axon Evidence, multicam playback allows videos that were recorded by different body-worn and in-car cameras (in the same location and time) to be played back together on the same screen, allowing users to view an incident from multiple vantage points. Integration with Axon Evidence means you can securely share and track digital evidence across public safety stakeholders with smart features such as redaction, digital verification, and audit logs.

The cameras have four video quality settings (Low SD, High SD, Low HD, and High HD) with a minimum video resolution of 480p and a maximum video resolution of 1080p. It utilizes a 16:9 aspect ratio at 1080p and 720p, and a 4:3 aspect ratio at 480p. The video resolution, encoding bit rate, frame rate, and video encoding format impact the size of files captured at each setting. The device has 64 GB of non-removable storage. The Low SD setting captures video at a 480p video resolution at a rate of 0.8 GB per 60 minutes of video. This setting supports storage of over 70 hours of video.

The Axon Fleet system supports three different methods of camera activation. Two require manual intervention by the officer, while the third does not. First, officers can use the View XL MDT application to see the current status of each camera and tap the screen to begin a recording. The camera status will then change to "Recording" on the screen. The recording can be ended using this method as well. Secondly, the officer can press the large Event button on the front of each device to manually begin a recording. The camera status will then change to "Recording" on the MDT screen. The recording can be ended using this method as well. Finally, Axon Fleet includes handsfree camera activation via Axon Signal technology with configurable triggers, including such as light bar activation, door, vehicle speed, acceleration, crash and weapon rack. This allows officers to focus on the task at hand and spend less time managing technology. Recordings started via Axon Signal activation must be ended manually via the front button or by using View XL.

The length of the pre-event buffer is configurable from 0-120 seconds (in 30 second increments) at 480p and 720p, and from 0-90 seconds at 1080p. The camera also features configurable on/off audio capture to record the evidence your agency needs. The duration of the pre-event buffer is 30 seconds by default. Cameras can also be configured to record sound as well as video during buffering (sound is not recorded by default during buffering).

Axon body-worn and in-car cameras work either as standalone devices or in conjunction with one another. The two systems integrate seamlessly, extending the overall capabilities of the Axon Evidence ecosystem. This cross functionality allows users to categorize and label video on both Fleet and body cameras from the Axon View XL software application. When uploaded to Axon Evidence metadata added in the field is ingested with the video files.

There are two offload methods available to upload Axon Fleet in-car video to Axon Evidence. Axon Sales Engineers will work with member agencies to evaluate these methods to ensure that the right option for each agency is chosen. Both options allow the cameras to remain in the vehicle via wireless connectivity. Regardless of offload method chosen, the MDT/MDC running Axon View XL must be able to connect to the Internet.

The Axon Fleet system supports wireless offload via LTE/4G networks using an in-car broadband connection. The configuration also reduces the contention on agency Wi-Fi infrastructure, as Axon Evidence is a cloud-hosted service. This offload method is best supported by an unlimited data and unlimited bandwidth plan (without which, video upload will likely be throttled).

Video is offloaded through an available cellular carrier network and the vehicle must have a compatible router capable of simultaneous AP/Client Mode. Axon does not provision, activate or manage carrier SIMs. The MDT/MDC running Axon View XL must be able to connect to the Internet.

Wi-Fi offload is the second method available to agencies. This is an alternative to LTE uploads for customers whose LTE data plan throttles uploads or customers in areas lacking adequate LTE coverage.

A Wireless Offload Server (WOS) is required to facilitate offload via Wi-Fi. The WOS is network appliance that enables multiple concurrent video offloads from the Axon Fleet system leveraging the Axon router's Wi-Fi as a wireless wide area network (WWAN) function through compatible Wi-Fi access points.

When a vehicle is within range of a Wi-Fi access point, the Axon View XL application recognizes the WOS and begins to offload videos from the Axon View XL upload queue to that server. The video offload is done in segments, but, as with LTE

		<p>offloads, the video file is retained on the Axon Fleet camera until successfully transferred.</p> <p>AXON INTERVIEW Axon Interview incorporates high-definition cameras and microphones to help capture the critical events that occur in the interview room. The Axon Interview interface consists of an intuitive and user-friendly touch screen software. The application saves you time and allows you to tag footage with metadata before transferring it to Axon Evidence. Axon Interview uses two recording servers, with both independently capturing their own video feed and microphone feed from the source. If one server fails, the second server captures everything. This redundancy means that you don't have to worry about losing a 15-hour confession because a server crashed.</p> <p>The Axon Interview software is installed on a touch panel and offers an intelligent interface for managing and monitoring interviews. The touch panels will be mounted in front of each interview room and will communicate with the redundant recorders throughout the network. This eliminates the need for additional hardware and pieces of equipment to be installed; streamlining this process saves time and effort.</p> <p>A key feature of the Axon Interview system is the continuous 24/7 recording buffer. Based on configuration, the buffer can capture weeks of continuous audio and video recordings to local storage, protecting agencies from losing important footage if an interviewer forgets to start recording. Agencies also have the ability to fully disable the recording buffer should it be required by local jurisdictional requirements. Please note, by disabling the continuous buffer, any interview footage outside of an active recording session will be lost and the Pre- and Post-Event recording buffer option is also disabled.</p> <p>During recording, tools will allow the user to verify both the video and audio are recording. Other on-screen tools include bookmarks (to easily find key moments from a long interrogation), audio and video masking to protect privacy and an option to lock the screen.</p> <p>The hardware required for Axon Interview includes the following components.</p> <ul style="list-style-type: none"> • Axis IP Cameras – The solution can support up to two cameras per room; both covert and overt cameras are available. Cameras record at a maximum speed of 50/60 frames per second. • Louroe Microphones - The microphones will be plugged into the cameras and receive their power from there. • Evo Touch Panels - Touch panels will be mounted in front of each interview room and will communicate with the redundant recorders throughout the network. The interview will be started and stopped from the touch panel. • Cisco or HP POE Switches - The cameras will be plugged into a POE switch, receiving their power and communicating with the recording software. 24 port and 8 port POE switches are available. • Orion Redundant Recording Servers - Axon Interview is installed on two recording servers, which both independently and simultaneously grab their own video feed and microphone feed from the source. In the event one server fails, the second server independently captures everything, ensuring you won't lose any footage. The servers can support 12 to 15 cameras per physical location. <p>Axon Interview uses a secure mechanism to offload the interview footage from the local server to the customer's Axon Evidence tenant. All communication between Axon Interview and Axon Evidence is conducted over TLS 1.2 with 256-bit encryption to safeguard data during transfer.</p> <p>Axon Evidence makes interview recordings more accessible to your agency users, which makes your users more productive. Your evidence can now be uploaded, viewed, clipped, redacted, and shared by any authorized user. You can also live stream from up to four cameras at the same time. Thanks to Axon Evidence, all your digital data is now found in one place. For example, you can pair an Axon body-worn camera arrestly captures everything with Axon Interview footage of the suspect being brought in for questioning. From capture to courtroom, Interview is part of the Axon platform that lets you track the history of a case in a secure, CJIS-compliant platform.</p> <p>Overall, the solution is highly configurable. Our Axon Sales Engineering team will work with each Member to ensure that the solution we sell is configured to their individual needs.</p>
67	Describe, in detail, the device features specific to your product offering. Examples may include weight, size, weather compatibility, display or monitoring options, connectivity, battery life, etc.	<p>Axon's solutions include our three current models of body cameras, our in-car camera system, and our interview room solution. Their device features are laid out under the headers below. Axon has included further information regarding our offerings in the Additional Documents upload portal.</p> <p>AXON BODY 3</p>

The total weight of the Axon Body 3 is 6.9 oz., inclusive of all integrated fastenings for the standard RapidLock mount. The camera measures 1.3" (d) x 1.6" (W) x 3.8" (H). The Axon Body 3 camera is designed to work with a variety of Axon mounts. The various mounts can be used with a wide variety of uniforms and hold the camera to your shirt, patrol vest, jacket, or belt.

In general, the Axon mounting system consists of the attachment piece called the key, that is built on to the back of the camera, and the attachment receiver called the lock, built in to the mount. To lock a camera in place, users insert the key of the camera into the lock of the mount and turn it 90 degrees counterclockwise (when you are looking straight at the mount). To release the camera from the mount, turn the camera 90 degrees clockwise. Mounting options include: Flexible magnet mount, single molle mount, double molle mount, anchor mount, women's z-bracket mount, men's z-bracket mount, large pocket mount, small pocket mount, Velcro mount, belt clip mount, and wing clip mount.

Note: As with any Radio Frequency or electronic device, Axon recommends that you avoid placing your Axon Body 3 camera directly next to your radio to prevent inadvertent radio activation.

The Axon Body 3 camera display is located on the top of the device. The display area is 1.66" (W) x 0.76" (H), with a viewable area of 1.00" (W) x 0.42" (W). The Camera Display shows information on camera status and activity. Different information is shown depending on if the Axon Body 3 camera is in the field or in an Axon Dock. If Axon Aware is not enabled, some icons may not be active or displayed. The Status Bar (upper portion of the display) shows the battery capacity, camera pairing information, light status, Stealth mode status, and low battery warnings. The Activity Area (main portion of the display) gives information on camera readiness, recording status, Axon Signal broadcasts, Axon Aware Live Streaming notifications, gunshot detection warnings, and Mute Mode information. At night and in low-light situations, users can use the Select button to backlight the Camera Display. The backlight display can be activated by double-pressing the Select button on the Axon Body 3. This will trigger the Camera Display to light up and remain backlit for two seconds.

The Axon Body 3 is our first camera to integrate with Axon Aware. Axon Aware is our new real-time situational awareness technology. The camera is connected to LTE - similar to a cell phone - and can livestream to Axon Evidence instantaneously so that authorized supervisors, incident commanders, real-time crime centers or other designated resources have better information from the field. This LTE capability also opens the door for a wide variety of potential future features, including critical evidence offloading from the field, "find my camera" locator functionality, and much more that will be added in future firmware releases. Other Axon Aware features include real-time alerts and notifications, including gunshot detection. Additional capabilities will be added over time, and Axon Aware itself will also eventually be incorporated into other Axon products.

The Axon Body 3 is extremely rugged, securely sealed, water resistant, and shock resistant. The Body 3 camera is a self-contained unit with no fragile moving parts on the exterior. The device is designed for durability and undergoes rigorous testing so users can rely on longer-lasting cameras with fewer failures and a lower overall total cost of ownership.

The Axon Body 2 has an internal, rechargeable, lithium-ion polymer battery with a 3440 mAh capacity. The battery is removeable, replaceable, and recyclable. Under normal usage, the Axon Body 3 camera can provide more than 12 hours of battery life; 11 hours while in Buffering mode, 1 hour while in Recording mode. Additionally, the usage of an Axon Body 3's advanced functions (e.g., livestreaming) will result in greater battery consumption and reduce overall battery life.

When a fully depleted battery is recharged using the Axon Dock, the recharge time for 12+ hours of buffering mode is approximately five (5) hours. It should be noted, however, that the battery is designed to last a full 12+ hour shift, and it is unlikely that the battery will fully deplete after one use. Charging a fully depleted battery for approximately three (3) hours will provide an 80% charge.

The Axon Body 3 has an IEC 60529 IP67 ingress protection (IP) rating. This IP rating means the device is dust-tight and highly resistant to water ingress when submerged at a depth of up to 1 meter for 30 minutes. Sensitive internal components are dependably protected against solid and liquid intrusions.

The Axon Body 3 is tested to and passes MIL-STD-810G Test Methods for vibration, salt fog, and blowing dust resistance. The device operates normally in up to 95% humidity (non-condensing).

The Axon Body 3 is impact certified from a height of 6 feet. The most common

damage to body-worn camera devices results from a drop; the Axon camera's ruggedized high-impact polymer protects against damage from this common occurrence, reducing repair and replacement costs as well as downtime. Further, Axon's numerous mounts are strong enough to hold the camera in place during strenuous activities such as running or fighting.

Axon body-worn cameras have an operating temperature range of -4°F to 122°F [-20°C to 50°C]. The cameras' ability to withstand extreme temperatures keeps crucial evidence safe and means officers can rely on their cameras' functionality in almost any environment throughout the year.

Axon camera's high-temperature tolerance proves valuable on particularly warm days when storing a device in a vehicle or when responding to incidents involving excessive heat, such as a residential or car fire.

Axon on-officer cameras should not be stored in environments where the temperature is likely to exceed 95°F (35°C) (such as under direct sunlight, near heaters, or in a vehicle in extremely hot weather) or exposed to temperatures below -4°F (-20°C).

AXON BODY 2

The total weight of the Axon Body 2 is 5.0 oz. (142 grams), inclusive of all integrated fastenings for the standard RapidLock mount. The camera measures 0.94" (D1) x 1.01" (D2) x 2.76" (W) x 3.42" (H). The Axon Body 2 camera is designed to work with a variety of Axon mounts. The various mounts can be used with a wide variety of uniforms and hold the camera to your shirt, patrol vest, jacket, or belt.

In general, the Axon mounting system consists of the attachment piece called the key, that is built on to the back of the camera, and the attachment receiver called the lock, built in to the mount. To lock a camera in place, users insert the key of the camera into the lock of the mount and turn it 90 degrees counterclockwise (when you are looking straight at the mount). To release the camera from the mount, turn the camera 90 degrees clockwise. Mounting options include: Flexible magnet mount, single molle mount, double molle mount, anchor mount, women's z-bracket mount, men's z-bracket mount, large pocket mount, small pocket mount, Velcro mount, belt clip mount, and wing clip mount.

Note: As with any Radio Frequency or electronic device, Axon recommends that you avoid placing your Axon Body 2 camera directly next to your radio to prevent inadvertent radio activation.

The Axon Body 2 has an internal, rechargeable, lithium-ion polymer battery with a 3000 mAh capacity. The battery is removeable, replaceable, and recyclable. Once powered on, Axon cameras have two operating modes. The default mode, or Buffering mode, provides pre-event buffering to capture activities that occur before you activate the Event (recording) mode. When the device is turned on and in Buffering mode, a fully charged battery will last 12+ hours. In Event mode, the battery life varies depending on the recording resolution. Axon cameras have four video quality settings (Low SD, High SD, Low HD, High HD) spanning 480p, 720p and 1080p video resolutions. Axon camera batteries will provide 12+ hours of power when recording time at a resolution of 480p or 720p, and 10+ hours of power when recording at 1080p.

The Axon Body 2 does not have a display screen. However, officers can determine the approximate remaining battery life of the Axon Body 2 by pressing the Battery Status button. The button is located beneath the camera's Event button on the front of the device. The Battery LED ring displays the battery's remaining capacity when the device is in use and during charging. In addition, an officer can find the exact battery percentage remaining on the camera through the Axon View application on a paired smart device. The Axon View application also allows officers to watch videos, add metadata, view remaining recording capacity, and more—all from the field.

The Axon Body 2 is extremely rugged, securely sealed, water resistant, and shock resistant. The camera is a self-contained unit with no fragile moving parts or electronics (like LCD screens) on the exterior. The device is designed for durability and undergoes rigorous testing so users can rely on longer-lasting cameras with fewer failures and a lower overall total cost of ownership.

The Axon Body 2 has an IEC 60529 IP67 ingress protection (IP) rating. This IP rating means the device is dust-tight and highly resistant to water ingress when submerged at a depth of up to 1 meter for 30 minutes. Sensitive internal components are dependably protected against solid and liquid intrusions.

The Axon Body 2 is tested to and passes MIL-STD-810G Test Methods for vibration, salt fog, and blowing dust resistance. The device operates normally in up to 95% humidity (non-condensing).

The Axon Body 2 is impact certified from a height of 6 feet. The most common damage to body-worn camera devices results from a drop; the Axon camera's ruggedized high-impact polymer protects against damage from this common occurrence, reducing repair and replacement costs as well as downtime. Further, Axon's numerous mounts are strong enough to hold the camera in place during strenuous activities such as running or fighting.

Long-term storage should be in a climate-controlled environment, less than one month at the highest temperature. Axon body-worn cameras have a charging temperature range of 41 °F to 95 °F [5 °C to 35 °C].

AXON FLEX 2

The Axon Flex 2 camera is 2.9 in (L) x .75 in (H) x .74 in (W) and weighs 0.88 oz. The Axon Flex 2 controller is 3.0 in (H) x 2.45 in (W) x 1.14 in (D) and weighs 4.4 oz.

Axon Flex 2 camera mounts attach to officer uniforms, accessories, and protective gear. The selection of mounts facilitates several point-of-view perspectives.

The following mounts are designed to be used with the Axon Flex camera portion:

- Oakley Eyewear Mount: The Flex 2 camera can be attached to Oakley Flak Jacket® glasses with the Oakley Eyewear Mount. This mount positions the camera at eye-level, designed to capture the officer's direct point-of-view.
- Ball Cap Mount: The Flex 2 camera can be worn with officer headgear, including ball caps, using the magnetic Ball Cap Mount. One magnetic clip is placed on the inside of the cap while the rest of the assembly overlaps on the outside, held securely in place by magnetic force. The camera clips into the outer assembly and sits near the officer's eye-level.
- Lowrider Headband Mount: The Lowrider Headband Mount is a comfortable frame that wraps around the back of the head with a Flex 2 camera clip mounted on the front end. Like the Oakley Eyewear Mount, the headband places the camera at eye-level to capture an officer's true perspective of events.
- Collar Mount: The Collar Mount consists of a magnetic clip with an attached Flex 2 camera clip and a metal collar support bar designed to wrap underneath the collar (around the back of the neck) for stability. The magnetic clip attaches to the shirt collar to mount the camera above shoulder-level.
- Epaulette Mount: If an officer's uniform shirt has epaulettes, the Flex 2 camera can attach to the shirt with the Epaulette Mount. The mount can be positioned to place the camera above or below the epaulette to capture the desired perspective.
- Over Vest Mount: The Over Vest Mount attaches to vests worn in the field. In tactical situations, this mount provides the same level of stability and accessibility as the epaulette mount.
- Helmet Mount: The Helmet Mount attaches the camera to most smooth, hard surfaces, like helmets, using a suction mechanism. The mount can be placed anywhere on the gear that can achieve suction.
- SWAT Mount: SWAT officers know better than anyone that body-worn cameras can be knocked off in highly physical situations. That's why we've developed a mount that secures the full Axon Flex 2 system to a SWAT officer's helmet and holds true through intense, highly active incidents. With the SWAT Mount, the Flex 2 camera and controller both attach to the SWAT helmet, consolidating the system on the helmet and avoiding any interference with other gear.

Axon offers a variety of controller mounts to suit individual needs. Some mounts are optimized for security in tactical situations (Z-Bracket, Magnet, and Molle Mounts), while others provide more versatility (Shirt Pocket, Clip, and Velcro mounts). The following mounts are designed to be used with the Axon Flex controller:

- Z-Bracket Mount: The Z-Bracket Mount inserts between the buttons of a shirt. This mount is available in both male and female uniform orientations.
- Magnetic Mount Options: We offer two powerful magnetic mounts to accommodate different uniform attire and give the wearer a broad choice of mounting locations. The Flexible Magnet Mount is intended for lighter-weight uniform shirts, and the Outerwear Magnet Mount is for coats and heavier garments.
- Molle Mount Options: Molle mounts attach to the Molle straps on tactical vests and can withstand >100lbs of retention force. The Single Molle Mount is lighter and more flexible than the Double Molle Mount, which provides more lateral stability.
- Wing Clip Mount: The Wing Clip Mount consists of two pieces that make use of

clipping and slot-and-key features to grip the fabric and provide strong retention. The mount is non-magnetic, lightweight, and versatile in placement owing to a hole feature that allows mounting over buttons or zippers. Furthermore, the outer piece can be rotated to the appropriate orientation per surface markings, so that the mount can be worn over single or double layers of fabric. This mount is compatible with a number of type B and C uniforms.

- **Shirt Pocket Mounts:** We offer the 4" and 6" Shirt Pocket Mounts that attach easily to uniform shirt pockets of various sizes.
- **Clip Mount:** The Clip Mount is simple in design and easy to fasten. This mount permits numerous mounting locations for non-tactical use.
- **Velcro Mount:** The Velcro Mount attaches to uniforms and vests with Velcro patches. Note that the back of the mount must be sewn onto or otherwise affixed to the uniform.

The front-facing Fleet camera has an IEC 60529 IP53 ingress protection (IP) rating (dust, spray). The rear-facing Fleet camera has an IEC 60529 IP54 (dust, spray). Additionally, Axon Fleet cameras are physically hardened to the US Military Standard MIL-STD-810G and are suitable for policing and tactical operations.

All Axon Fleet hardware will operate normally in up to 90% humidity (non-condensing). Spray and humidity testing are performed in house by Axon; dust testing is performed by a third-party.

The Axon Fleet system has passed rigorous shock and vibration testing to simulate an in-car environment in various road and environmental conditions. The system is designed as a rugged solution built to withstand the extreme and dynamic conditions inside of a vehicle. The cameras can withstand a 6-foot drop.

All Axon Fleet cameras and mounts are tested to IACP crash test specifications, including a static pull test with a force corresponding to 50 times their own weight, in at least three different angles to simulate frontal, side, and rear collisions.

The Axon Fleet power unit (battery) essentially acts as both an uninterruptible power source and a standby power supply. The Axon Fleet system uses the vehicle's electrical system as a power source. If the vehicle's ignition is shut off, the Axon Fleet power unit supplies power to the camera to allow you to keep recording. With a fully charged power unit, the camera can record over 4 hours without the engine running. The battery will begin recharging when the engine is turned back on. It may take over 3 hours for a depleted battery to fully recharge.

The Cradlepoint router serves as the communication platform inside the vehicle, routing cellular, Wi-Fi, GPS and Metadata for the Axon Fleet system. Please note Axon does not provision, activate, manage or manage carrier SIM cards for routers and does not manage cellular carrier data plans.

The router kit includes the current Cradlepoint router, ethernet cables, GPIO cabling and power cabling. The following hardware must be purchased to use the router.

5-IN-1 ANTENNA

The MULTIMAX FV antenna (manufactured by Airgain) is a full outdoor antenna designed specifically to provide high performance connectivity for Fleet and Public Safety vehicles and assets connecting to almost any vehicular router or modem. This antenna offers two high gain cellular/LTE/MIMO antennas which support LTE Band 14 for FirstNet, two high gain dual band Wi-Fi antennas, and a GNSS antenna inside a single robust and compact housing.

AXON INTERVIEW ROOM

The Axon Interview solution is highly configurable. Our Axon Sales Engineering team will work with each Member to ensure that the solution we sell is configured to their individual needs.

The Axon Interview solution can support both overt and covert cameras. The overt cameras most commonly utilized has dimensions of 4.0" x 5.875" and a weight of 1.2 lbs. The covert camera most commonly utilized has dimensions of 1.75" x 0.82" and a weight of 0.75 lbs. The most commonly utilized microphone has dimensions of 2.75" x 4.5" and a weight of 8 oz.

Touch panels will be mounted in front of each interview room and communicate with the redundant recorders throughout the network. The cameras will plug into and draw power from a POE switch to communicate with the recording software. The microphones will plug into and draw power from the cameras. The interview is started and stopped from the touch panel or from a designated PC.

The recording server is capable of storing over 720 hours of video as this is meant as an initial recording point only. At the end of the recording, the video file will automatically begin offloading to the cloud, when the video has been fully offloaded (and authenticated with a cryptographic hash function) the file will automatically purge from the server making room for additional interviews.

Axon Interview uses a secure mechanism to offload the interview footage from the local server to the customer's Axon Evidence tenant. All communication between Axon Interview and Axon Evidence is conducted over TLS 1.2 with 256-bit encryption to safeguard data during transfer.

68	Describe the training, set-up and installation process.	<p>Preliminary technical assessment and support will be provided by the Axon Pre-Sales Engineer assigned to the Member. This individual is a subject matter expert in embedded systems and networking and knows how to configure our products to best support your desired workflows. The Sales Engineer will also coordinate any additional resource required for your project.</p> <p>Post evaluation by a Sales Engineer, Axon can help Members to maximize their Axon investment with comprehensive implementation. The Axon Professional Services team consists of a group of highly skilled individuals with in-depth knowledge of all Axon products and Axon Evidence functionality. The full-service professional services package includes a Project Manager who will create a custom project plan to fit the member's needs. Each Professional Services package addresses the vital elements of an agency's solution, starting with system structure and configurations before moving to topics relating to device use and functionality. We have included all our Professional Services offerings in the scope of this Cooperative. Axon sales representatives can help individual members evaluate what plan is right for them during their purchase. Costs are included in our price sheets.</p> <p>There are other benefits with the Axon Professional Services offering, such as subject matter experts who consult on best practices for the set-up, configuration, policy and overall program performance for your deployment. These services are optional. However, an agency's program success is three times greater when Professional Services has rendered on-site support, compared to when agencies don't utilize the offering.</p> <p>Our Professional Services Managers focus entirely on on-site and off-site training. Our experienced team can train everyone from officers, administrators, armorers, supervisors, detectives and even prosecutors.</p> <p>During the initial phase of the implementation process, Axon's Professional Services team will assist with the following tasks:</p> <ul style="list-style-type: none"> • System Set Up and Configuration • Configure categories & custom roles • Troubleshoot IT issues <p>After An initial, limited number of key users, armorer(s) and system administrator(s) should be trained. The size of this contingent depends on agency size or size of the planned full deployment. These officers will serve a number of roles, including final confirmation of system functionality and performance. They will likely provide useful feedback on any localized issues that had not been previously identified. They will provide a demonstration and information platform for their co-worker/future user officers. They typically become a resource when newer users are activated and require training or assistance.</p> <p>Regarding Axon Evidence training, the agency administrator is the starting point for defining security settings, creating custom roles and setting permissions, adding users (User, Administrator, Armorer or any other custom roles), reassigning devices, creating categories and setting retention policies, and several of the other administrative features of the Axon Evidence services. Our team will provide step-by-step explanations and assistance for agency's configuration of security, roles & permissions, categories & retention, and other specific settings for Axon Evidence. Administrators should attend all the training sessions that are decided upon. We will then provide Axon instructor training with the goal of educating instructors who can support the agency's subsequent training needs.</p> <p>Although the cameras, in-car systems, and interview room solution themselves are simple in design and use, a proper introduction to hardware and workflow is essential. The Professional Services training offering provides different options for training, depending on the level of detail and time necessary for users.</p> <p>Axon believes in the philosophy of "Smart Small, Test, Assess, Correct, Go Big". Deploy the key users. Make sure the way you've configured your system integrates smoothly into your workflow. Assess readiness based on evaluation and feedback and make any necessary adjustments. <p>69</p>	<p>Describe the data storage, analysis, and management features and functionality as it relates to your products.</p>	<p>Each offered solution ingests its footage into Axon Evidence, our DEMs system. Axon Evidence is a robust end-to-end solution that not only allows agencies to store data, it also enables new workflows for managing and sharing that data securely - from anywhere. Officers and command staff can upload content from Axon and TASER devices or other systems easily, manage it simply with search and retrieval features, and then collaborate effortlessly with prosecutors and other partners by using powerful sharing features. When storage needs increase, the cloud-based system allows agencies to scale instantly and cost-effectively.</p> <p>Within Axon Evidence, access to information is governed by the agency-defined access control system built into the solution. Each Axon Evidence user is assigned a role. Roles determine a user's permissions, which control levels of access to features and functions. Additionally, Axon Evidence provides many security features to secure digital evidence including password complexity requirements, failed login limits, and enforced timeout settings. Multi-factor authentication (MFA) options are also configurable for user login and prior to administrative actions. Evidence data is hashed (SHA) to ensure a robust chain of custody. Original evidence data is never changed. All modifications are handled by creating new, derivative files.</p> <p>Axon Evidence provides users with easy, straightforward methods of searching, reviewing, managing and sharing digital evidence. Axon Evidence uses category types to organized stored video, simplifying the search process for your agency users. All categories are set by your agency to reflect your policies and desired structure. This categorization also facilitates database management by automatically ensuring that only relevant evidence is retained in the system. Every event that is captured and uploaded to Axon Evidence can be assigned a category to determine how long it is retained in the system. Proper categorization is important to ensure that incidents remain in the system for the appropriate amount of time. Categories include policy settings for evidence retention and restricted access for especially sensitive evidence.</p> <p>Additionally, numerous metadata tags can be applied to evidentiary assets. These metadata fields are included in the searching interface to help you locate the evidence you need quickly and efficiently. ID, title, notes and tags are free text, user-defined values. Custom metadata fields will also be available to narrow search results on the advanced search page.</p> <p>Axon Evidence features a full redaction suite natively within the application allowing users to redact what can be seen and heard in video evidence files. Axon Evidence never alters the original video evidence file when you create a clip or a redaction. Authorized users will have access to automated redaction and skin blurring redaction. Redaction Studio tools include options for frame-by-frame manual redaction, Spray Paint redaction (manual redaction during playback), real-time object-tracking redaction, and audio file redaction. Editing tools include the ability to create markers and clips, update or add metadata (e.g., notes, title, ID) and create photos from video stills.</p> <p>Access Lists control internal and external user access to files in Axon Evidence. Each piece of evidence has its own access list, so you can individually manage access as needed. You can set the sharing duration period and the access level to the file shared (e.g., share or download).</p> <p>Axon Evidence has eight native system reports that include various sets of file metadata for evaluation and analysis. These reports generate as Microsoft Excel worksheets that allow data grouping, sorting, and additional manipulation through the pivot table function. Advanced reporting and data analysis is possible through the Axon Evidence Partner API, which can pull data into third-party business intelligence tools.</p> <p>Axon Evidence is a turnkey digital evidence management solution, so it acts as a single repository for all your digital evidence. Axon-captured video and digital evidence files (such as crime scene photos, documents and third-party video) can all be managed from one place – Axon Evidence.</p>
<p>70</p>	<p>Describe the availability of mobile applications and mobile access for the solutions included in your proposal?</p>	<p>Axon Evidence can be accessed using a compatible browser installed on a tablet or smartphone. Axon Evidence is written in HTML5 to allow mobile devices to display the site and can be accessed with the following web browsers:</p> <ul style="list-style-type: none"> • Microsoft Internet Explorer • Google Chrome • Mozilla Firefox • Apple Safari • Microsoft Edge <p>Axon also offers several mobile applications, which are outlined under the headers below.</p> <p>AXON VIEW</p> <p>Using Axon View, a free mobile application, officers can add metadata by tagging evidence with a title, event ID, and category, prior to uploading the file to Axon Evidence. When offload is initiated, the videos stored on the camera upload to Axon</p>

Evidence with the tag information applied from the Axon View application.

Officers can also view videos stored on the camera using the Axon View app, an officer can pair the Axon camera with a smart device via a Bluetooth and Wi-Fi connection and review videos stored on the camera. Data is not stored on the smart device and cannot be deleted, altered or edited.

Officers can tag videos with the following metadata.

- ID – Case ID of incident
- Title – Titles default to the device type, date and time of the video capture “Axon Body 2 Video 2012-10-13 1447”. This field can be updated by the user at the time of capture to display a more specific title (i.e. suspect name or address of incident).
- Category – Allows searching for any category type or to specify any category added by the Agency (i.e. traffic violation or felony arrest). Users can add multiple categories to a given piece of evidence. Axon View pulls the pre-defined categories and retention criteria from the agency's Axon Evidence account. This limits the category assigned to a video or bulk group of videos to one category selection.
- Location - GPS tagging will also be recorded as metadata as long as the application is permitted to access location information from the smart device paired to the camera.

AXON CAPTURE

Axon Capture streamlines the evidence collection process by harnessing the power of the modern phone to capture digital evidence. It allows officers to capture photos, videos, and audio recordings using the technology already in their pocket, with the security and organization to protect truth.

Until today, officers have had two options: sacrifice security for convenience, or convenience for security. The application was built specifically for law enforcement to allow officers to capture digital evidence right from the field. *

The app eliminates the need to carry three separate devices for photo, video, and audio recording. Metadata including ID, titles, evidentiary categories and GPS coordinates can be added to any recordings and synced to your agency's Axon Evidence account right from the scene. Officers can upload files from smartphones in the field to their agency's Axon Evidence account over a data connection or Wi-Fi.

AXON DEVICE MANAGER

We're always looking for ways to increase efficiency across the Axon platform. That's why we developed the Axon Device Manager mobile application to streamline Axon device management tasks. The app allows authorized users to manage device assignments, statuses, and firmware updates for certain Axon devices from their smartphones.

Authorized users log in to the app under their agencies' Axon Evidence instance using their Axon Evidence credentials. The connectivity between the app and Axon Evidence ensures device assignments and updates completed via Axon Device Manager are properly reflected in Axon Evidence.

The Axon Device Manager app assists agencies deploying large numbers of devices by enabling armorers or administrators to complete device management tasks for one or multiple Axon devices in seconds. Axon Device Manager transforms device management processes by starting with the devices themselves, instead of an inventory search and armory or storage room visit.

The Axon Device Manager app is available for download in the App Store for iPhones and the Google Play Store for Android smartphones. The app requires an NFC-compatible smartphone and certain OS versions to operate. Axon Device Manager is currently available through the Google Play Store for Android Devices Version 5.0 and up and through iTunes for iOS 11.0 or later. Compatible with iPhone, iPad, and iPod touch.

Axon Device Manager currently supports the following devices which are included in the scope of the RFP:

- Axon Body 2 camera
 - Axon Flex 2 camera
 - Axon Signal Sidearm device
 - Axon Signal Unit
- Firmware upgrades only
Android only

The application will be compatible with all future Axon devices.

71	Describe your upgrade policies for hardware and software products.	<p>SOFTWARE</p> <p>Axon releases Axon Evidence software upgrades on both a scheduled and nonscheduled basis as required. Axon will release a software update to Axon Evidence during a period of low traffic usage. Software upgrades are “pushed” to Axon Evidence and are immediately available to you as soon as you log on, eliminating the need to perform manual updates. Axon applies these upgrades remotely, so you don’t have to worry about properly integrating or updating your systems. Routine maintenance is scheduled on the fourth Tuesday of each month at 21:00 – 22:00 PST.</p> <p>The latest product features, enhancements and software updates, upgrades, patches and fixes and firmware updates are included as part of your investment in Axon Evidence in the price of software licenses.</p> <p>Patches contain fixes to known issues reported by internal resources or by users at police agencies. There are no additional costs for any software patch or fix deployed. Patch deployment involves minimal or no downtime for the customer’s solution.</p> <p>Updates to firmware supporting Axon cameras and Axon Docks are “pushed” from the internet to the local devices through the Axon Docks (or Evidence Sync) without the need for agency interaction. Firmware updates are released on an as needed basis on average, every 2-3 months.</p> <p>Axon periodically distributes updates for Axon View XL software and Axon Fleet camera firmware. When connected to Axon Evidence, Axon View XL will automatically check for and apply any updated configuration settings every 10 minutes, ensuring the most up-to-date settings are applied to the application and your Axon Fleet cameras.</p> <p>When updates are available, the system automatically downloads the update and displays an Update button showing the update is ready to install. Axon recommends installing updates at the beginning of a shift, as it might take a couple minutes to complete the installation, and the application will close during the update and will automatically reboot once the update is completed.</p> <p>A detailed email is sent to system administrators when new releases, updates or upgrades are made to Axon Evidence, Evidence Sync or Axon hardware.</p> <p>The Release Notes page in Axon Evidence displays links to the release notes containing a summary of features and enhancements for the current and previous releases.</p> <p>The User Guides page displays links to guides that provide detailed information on Axon Evidence features. Release notes and user guides are in PDF format.</p> <p>As updates and features are released, your Customer Success Manager or the Customer Support team will troubleshoot all changes to ensure a successful experience for customers.</p> <p>HARDWARE</p> <p>If a Member agency purchases a Technology Assurance Plan (TAP) package, that makes them eligible for a hardware upgrade during their contract (specific timelines depend on the product and contract details). Axon’s dedicated Customer Support division tracks the TAP timelines for all subscribed agencies. When an agency is entitled to a hardware refresh under the TAP program, Axon will determine which hardware the agency is eligible to receive and contact the agency to coordinate the refreshment.</p> <p>Axon will request that the agency sign a Certificate of Destruction (COD) or initiate a Return Material Authorization (RMA) process on the agency’s behalf for the equipment Axon will replace, depending on the generation/model of the equipment. Then, Axon will ship the new hardware to the agency at no cost.</p> <p>Axon is committed to proactively serving its customers. However, an agency may contact Axon Customer Support at any time to inquire about the initiation or progress of a TAP hardware refresh.</p>

72	Describe the methods adopted to demonstrate that the offered equipment, products, and services comply with applicable federal, state and local laws and policies on data collection, use, management, and retention.	<p>As part of Axon's ISO 27001 certified information security management system (ISMS), our Information Security team performs risk and compliance assessments to identify applicable regulations and statutes. Upon discovering changes, Axon is committed to adhering to them within commercially reasonable timeframes.</p> <p>Axon Evidence is congruent with the guiding principles outlined in the Canadian Community Safety Information Management Strategy (CCSIMS) as developed by the Information and Communications Technology Committee of the CACP. Not only does Axon Evidence streamline efficiency, it allows agencies to integrate their existing solutions or manage third-party data and digital evidence on one interoperable platform. With the features built into Axon's solutions, police services can connect with partner agencies and the Crown, while still maintaining independent Axon Evidence accounts and instances, which allows for easier sharing of information with all the stakeholders involved.</p> <p>Our proposed solution supports the use of data exchanges which conform with standards defined in the National Information Exchange Model (NIEM).</p> <p>The requirement shall be met by the core proposed platform. This capability exists or is being used in-production elsewhere and can be demonstrated.</p> <p>All Axon Evidence APIs utilize JavaScript Object Notation (JSON) per modern standards and for improved performance.</p> <p>Regarding adherence to local laws and policies on data collection, use, management, and retention, it is up to the specific agency to ensure that they follow applicable laws. Axon Evidence allows members to customize the system to fit within local legal parameters.</p>

Proposers Assurance of Comp

PROPOSER ASSURANCE OF COMPLIANCE

PROPOSER'S AFFIDAVIT

The undersigned, authorized representative of the entity submitting the foregoing proposal (the "Proposer"), swears that the following statements are true to the best of his or her knowledge.

1. The Proposer is submitting its proposal under its true and correct name, the Proposer has been properly originated and legally exists in good standing in its state of residence, the Proposer possesses, or will possess before delivering any products and related services, all applicable licenses necessary for such delivery to Sourcewell member agencies. The undersigned affirms that he or she is authorized to act on behalf of, and to legally bind the Proposer to the terms in this Contract.
2. The Proposer, or any person representing the Proposer, has not directly or indirectly entered into any agreement or arrangement with any other vendor or supplier, any official or employee of Sourcewell, or any person, firm, or corporation under contract with Sourcewell, in an effort to influence the pricing, terms, or conditions relating to this RFP in any way that adversely affects the free and open competition for a Contract award under this RFP.
3. The contents of the Proposer's proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or agent of the Proposer and will not be communicated to any such persons prior to the official opening of the proposals.
4. The Proposer has examined and understands the terms, conditions, scope, contract opportunity, specifications request, and other documents in this solicitation and affirms that any and all exceptions have been noted and included with the Proposer's Proposal.
5. The Proposer will, if awarded a Contract, provide to Sourcewell Members the /products and services in accordance with the terms, conditions, and scope of this RFP, with the Proposer-offered specifications, and with the other documents in this solicitation.
6. The Proposer agrees to deliver products and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.
7. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.
8. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statute §13.591, Subd. 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals generally become public data. Minnesota Statute §13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.

The Proposer understands that it is the Proposer's duty to protect information that it considers nonpublic, and it agrees to defend and indemnify Sourcewell for reasonable measures that Sourcewell takes to uphold such a data designation.

By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal. This signature will not be denied such legal effect, validity, or enforceability solely because an electronic signature or electronic record was used in its formation. - Matt Morstad, VP, Sales Operations, Axon Enterprise, Inc.

The Proposer declares that there is an actual or potential Conflict of Interest relating to the preparation of its submission, and/or the Proposer foresees an actual or potential Conflict of Interest in performing the contractual obligations contemplated in the bid.

Master Services and Purchasing Agreement

This Master Services and Purchasing Agreement ("**Agreement**") is between Axon Enterprise, Inc., a Delaware corporation ("**Axon**"), and the agency on the Quote ("**Agency**"). This Agreement is effective as of the later of the (a) last signature date on this Agreement or (b) signature date on the quote ("**Effective Date**"). Axon and Agency are each a "**Party**" and collectively "**Parties**". This Agreement governs Agency's purchase and use of the Axon Devices and Services detailed in the Quote Appendix ("**Quote**"). The Parties therefore agree as follows:

1 **Term.** This Agreement begins on the Effective Date and continues until terminated pursuant to this Agreement ("**Term**"). Agency may renew this Agreement for an additional 5 years upon execution of a new quote. New devices and services may require additional terms. Axon will not authorize services until Axon receives a signed Quote or accepts a purchase order, whichever is first.

2 **Definitions.**

"**Axon Cloud Services**" means Axon's web services for Axon Evidence, Axon Records, Axon Dispatch, and interactions between Evidence.com and Axon Devices or Axon client software. Axon Cloud Service excludes third-party applications, hardware warranties, and my.evidence.com.

"**Axon Devices**" means all hardware provided by Axon under this Agreement.

"**Quote**" means an offer to sell and is only valid for devices and services on the quote at the specified prices. Any terms within Agency's purchase order in response to a Quote will be void. Orders are subject to prior credit approval. Changes in the deployment estimated ship date may change charges in the Quote. Shipping dates are estimates only. Axon is not responsible for typographical errors in any offer by Axon, and Axon reserves the right to cancel any orders resulting from such errors.

"**Services**" means all services provided by Axon under this Agreement, including software, Axon Cloud Services, and professional services.

3 **Payment.** Axon invoices upon shipment. Payment is due net 30 days from the invoice date. Payment obligations are non-cancelable. Agency will pay invoices without setoff, deduction, or withholding. If Axon sends a past due account to collections, Agency is responsible for collection and attorneys' fees.

4 **Taxes.** Agency is responsible for sales and other taxes associated with the order unless Agency provides Axon a valid tax exemption certificate.

5 **Shipping.** Axon may make partial shipments and ship Devices from multiple locations. All shipments are FOB shipping point via common carrier. Title and risk of loss pass to Agency upon Axon's delivery to the common carrier. Agency is responsible for any shipping charges in the Quote.

6 **Returns.** All sales are final. Axon does not allow refunds or exchanges, except warranty returns or as provided by state or federal law.

7 **Warranty.**

7.1 Hardware Limited Warranty. Axon warrants that Axon-manufactured Devices are free from defects in workmanship and materials for 1 year from the date of Agency's receipt, except Signal Sidearm, which Axon warrants for 30 months from the date of Agency's receipt. Axon warrants its Axon-manufactured accessories for 90-days from the date of Agency's receipt. Used conducted energy weapon ("**CEW**") cartridges are deemed to have operated properly. Extended warranties run

Master Services and Purchasing Agreement

from the expiration of the 1-year hardware warranty through the extended warranty term. Non-Axon manufactured Devices are not covered by Axon's warranty. Agency should contact the manufacturer for support of non-Axon manufactured Devices.

- 7.2 Claims.** If Axon receives a valid warranty claim for an Axon manufactured Device during the warranty term, Axon's sole responsibility is to repair or replace the Device with the same or like Device, at Axon's option. A replacement Device will be new or like new. Axon will warrant the replacement Device for the longer of (a) the remaining warranty of the original Device or (b) 90-days from the date of repair or replacement.

If Agency exchanges a device or part, the replacement item becomes Agency's property, and the replaced item becomes Axon's property. Before delivering a Device for service, Agency must upload Device data to Axon Evidence or download it and retain a copy. Axon is not responsible for any loss of software, data, or other information contained in storage media or any part of the Device sent to Axon for service.

- 7.3 Spare Devices.** Axon may provide Agency a predetermined number of spare Devices as detailed in the Quote ("**Spare Devices**"). Spare Devices will replace broken or non-functioning units. If Agency utilizes a Spare Device, Agency must return to Axon, through Axon's warranty return process, any broken or non-functioning units. Axon will repair or replace the unit with a replacement Device. Upon termination, Axon will invoice Agency the MSRP then in effect for all Spare Devices provided. If Agency returns the Spare Devices to Axon within 30 days of the invoice date, Axon will issue a credit and apply it against the invoice.

- 7.4 Limitations.** Axon's warranty excludes damage related to: (a) failure to follow Device use instructions; (b) Devices used with equipment not manufactured or recommended by Axon; (c) abuse, misuse, or intentional damage to Device; (d) force majeure; (e) Devices repaired or modified by persons other than Axon without Axon's written permission; or (f) Devices with a defaced or removed serial number.

7.4.1 To the extent permitted by law, the above warranties and remedies are exclusive. Axon disclaims all other warranties, remedies, and conditions, whether oral, written, statutory, or implied. If statutory or implied warranties cannot be lawfully disclaimed, then such warranties are limited to the duration of the warranty described above and by the provisions in this Agreement.

7.4.2 Axon's cumulative liability to any Party for any loss or damage resulting from any claim, demand, or action arising out of or relating to any Axon Device or Service will not exceed the purchase price paid to Axon for the Device, or if for Services, the amount paid for such Services over the 12 months preceding the claim. Neither Party will be liable for direct, special, indirect, incidental, punitive or consequential damages, however caused, whether for breach of warranty or contract, negligence, strict liability, tort or any other legal theory.

- 8 Statement of Work.** Certain Axon Devices and Services, including Axon Interview Room, and Axon Fleet, may require a Statement of Work that details Axon's Service deliverables ("**SOW**"). In the event Axon provides an SOW to Agency, Axon is only responsible to perform Services described in the SOW. Additional services are out of scope. The Parties must document scope changes in a written and signed change order. Changes may require an equitable adjustment in fees or schedule. The SOW is incorporated into this

Master Services and Purchasing Agreement

Agreement by reference.

- 9** **Device Warnings.** See www.axon.com/legal for the most current Axon device warnings.
- 10** **Design Changes.** Axon may make design changes to any Axon Device or Service without notifying Agency or making the same change to Devices and Services previously purchased by Agency.
- 11** **Insurance.** Axon will maintain General Liability, Workers' Compensation, and Automobile Liability insurance. Upon request, Axon will supply certificates of insurance.
- 12** **Indemnification.** Axon will indemnify Agency's officers, directors, and employees ("**Agency Indemnitees**") against all claims, demands, losses, and reasonable expenses arising out of a third-party claim against an Agency Indemnitee resulting from any negligent act, error or omission, or willful misconduct by Axon under this Agreement, except to the extent of Agency's negligence or willful misconduct, or claims under workers compensation.
- 13** **IP Rights.** Axon owns and reserves all right, title, and interest in Axon devices and services and suggestions to Axon, including all related intellectual property rights. Agency will not cause any Axon proprietary rights to be violated.
- 14** **IP Indemnification.** Axon will indemnify Agency Indemnitees against all claims, losses, and reasonable expenses from any third-party claim alleging that the use of Axon Devices or Services infringes or misappropriates the third-party's intellectual property rights. Agency must promptly provide Axon with written notice of such claim, tender to Axon the defense or settlement of such claim at Axon's expense and cooperate fully with Axon in the defense or settlement of such claim. Axon's IP indemnification obligations do not apply to claims based on (a) modification of Axon Devices or Services by Agency or a third-party not approved by Axon; (b) use of Axon Devices and Services in combination with hardware or services not approved by Axon; (c) use of Axon Devices and Services other than as permitted in this Agreement; or (d) use of Axon software that is not the most current release provided by Axon.
- 15** **Agency Responsibilities.** Agency is responsible for (a) Agency's use of Axon Devices; (b) breach of this Agreement or violation of applicable law by Agency or an Agency end user; and (c) a dispute between Agency and a third-party over Agency's use of Axon Devices.
- 16** **Termination.**
- 16.1 For Breach.** A Party may terminate this Agreement for cause if it provides 30 days written notice of the breach to the other Party, and the breach remains uncured at the end of 30 days. If Agency terminates this Agreement due to Axon's uncured breach, Axon will refund prepaid amounts on a prorated basis based on the effective date of termination.
- 16.2 By Agency.** If sufficient funds are not appropriated or otherwise legally available to pay the fees, Agency may terminate this Agreement. Agency will deliver notice of termination under this section as soon as reasonably practicable.
- 16.3 Effect of Termination.** Upon termination of this Agreement, Agency rights immediately terminate. Agency remains responsible for all fees incurred before the effective date of termination. If Agency purchases Devices for less than the manufacturer's suggested retail price ("**MSRP**") and this Agreement terminates before the end of the Term, Axon will invoice Agency the difference between

Master Services and Purchasing Agreement

the MSRP for Devices received and amounts paid towards those Devices. If terminating for non-appropriation, Agency may return Devices to Axon within 30 days of termination. MSRP is the standalone price of the individual Device at the time of sale. For bundled Devices, MSRP is the standalone price of all individual components.

- 17 Confidentiality. "Confidential Information"** means nonpublic information designated as confidential or, given the nature of the information or circumstances surrounding disclosure, should reasonably be understood to be confidential. Each Party will take reasonable measures to avoid disclosure, dissemination, or unauthorized use of the other Party's Confidential Information. Unless required by law, neither Party will disclose the other Party's Confidential Information during the Term and for 5-years thereafter. Axon pricing is Confidential Information and competition sensitive. - 18.3 Third-Party Beneficiaries.** There are no third-party beneficiaries under this Agreement.
- 18.4 Non-Discrimination.** Neither Party nor its employees will discriminate against any person based on: race; religion; creed; color; sex; gender identity and expression; pregnancy; childbirth; breastfeeding; medical conditions related to pregnancy, childbirth, or breastfeeding; sexual orientation; marital status; age; national origin; ancestry; genetic information; disability; veteran status; or any class protected by local, state, or federal law.

This Agreement is binding upon the Parties respective successors and assigns.
- 18.7 Waiver.** No waiver or delay by either Party in exercising any right under this Agreement constitutes a waiver of that right.

If Axon ships the Device in the second half of the month, the start date is the 15th of the following month. For phased deployments, the start date begins on shipment of phase one. For purchases solely of Axon Evidence subscriptions, the start date is the Effective Date. The Axon Evidence subscription term ends upon completion of the Axon Evidence subscription stated in the Quote ("**Axon Evidence Subscription Term**").

3 **Access.** Upon Axon granting Agency a subscription to Axon Cloud Services, Agency may access and use Axon Cloud Services to store and manage Agency Content. Agency may not exceed more end users than the Quote specifies. Axon Air requires an Axon Evidence subscription for each drone operator. For Axon Evidence Lite, Agency may access and use Axon Evidence only to store and manage TASER CEW and TASER CAM data ("**TASER Data**"). Agency may not upload non-TASER Data to Axon Evidence Lite.

4 **Agency Owns Agency Content.** Agency controls and owns all right, title, and interest in Agency Content. Except as outlined herein, Axon obtains no interest in Agency Content, and Agency Content are not business records of Axon. Agency is solely responsible for uploading, sharing, managing, and deleting Agency Content. Axon will have limited access to Agency Content solely for providing and supporting Axon Cloud Services to Agency and Agency end users.

5 **Security.** Axon will implement commercially reasonable and appropriate measures to secure Agency Content against accidental or unlawful loss, access or disclosure. Axon will maintain a comprehensive information security program to protect Axon Cloud Services and Agency Content including logical, physical access, vulnerability, risk, and configuration management; incident monitoring and response; encryption of uploaded digital evidence; security education; and data protection. Axon agrees to the Federal Bureau of Investigation Criminal Justice Information Services Security Addendum.

6 **Agency Responsibilities.** Agency is responsible for (a) ensuring Agency owns Agency Content; (b) ensuring no Agency Content or Agency end user's use of Agency Content or Axon Cloud Services violates this Agreement or applicable laws; and (c) maintaining necessary computer equipment and

Master Services and Purchasing Agreement

Internet connections for use of Axon Cloud Services. If Agency becomes aware of any violation of this Agreement by an end user, Agency will immediately terminate that end user's access to Axon Cloud Services.

Agency will also maintain the security of end user names and passwords and security and access by end users to Agency Content. Agency is responsible for ensuring the configuration and utilization of Axon Cloud Services meet applicable Agency regulation and standards. Agency may not sell, transfer, or sublicense access to any other entity or person. Agency shall contact Axon immediately if an unauthorized party may be using Agency's account or Agency Content, or if account information is lost or stolen.

7 **Privacy.** Axon will not disclose Agency Content or information about Agency except as compelled by a court or administrative body or required by law or regulation. If Axon receives a disclosure request for Agency Content, Axon will give Agency notice, unless legally prohibited from doing so, to allow Agency to file an objection with the court or administrative body. Agency agrees to allow Axon access to certain information from Agency to (a) perform troubleshooting services upon request or as part of regular diagnostic screening; (b) enforce this Agreement or policies governing the use of Axon Evidence; or (c) perform analytic and diagnostic evaluations of the systems.

8 **Storage.** For Axon Evidence Unlimited, Agency may store unlimited data in Agency's Axon Evidence account only if data originates from Axon Capture or an Axon body-worn camera. For Axon Air Evidence subscriptions, Agency may store unlimited data in Agency's Axon Evidence account only if data originates from an Axon Air device. For Axon Interview Room Unlimited, Agency may store unlimited data in Agency's Axon Evidence account only if data originates from Axon Interview Room hardware. For Axon Fleet Unlimited, Agency may store unlimited data in Agency's Axon Evidence account only if data originates from Axon Fleet hardware.

Axon may charge Agency additional fees for exceeding purchased storage amounts. Axon may place Agency Content that Agency has not viewed or accessed for 6 months into archival storage. Agency Content in archival storage will not have immediate availability and may take up to 24 hours to access.

9 **Location of Storage.** Axon may transfer Agency Content to third-party subcontractors for storage. Axon will determine the locations of data centers for storage of Agency Content. For United States agencies, Axon will ensure all Agency Content stored in Axon Cloud Services remains within the United States. Ownership of Agency Content remains with Agency.

10 **Suspension.** Axon may temporarily suspend Agency's or any end user's right to access or use any portion or all of Axon Cloud Services immediately upon notice, if Agency or end user's use of or registration for Axon Cloud Services may (a) pose a security risk to Axon Cloud Services or any third-party; (b) adversely impact Axon Cloud Services, the systems, or content of any other customer; (c) subject Axon, Axon's affiliates, or any third-party to liability; or (d) be fraudulent.

- 12** **Axon Cloud Services Restrictions.** Agency and Agency end users (including employees, contractors, agents, officers, volunteers, and directors), may not, or may not attempt to:
- 12.1.** copy, modify, tamper with, repair, or create derivative works of any part of Axon Cloud Services;

 - 12.7.** use Axon Cloud Services to store or transmit infringing, libelous, or other unlawful or tortious material; to store or transmit material in violation of third-party privacy rights; or to store or transmit malicious code.
- 13** **After Termination.** Axon will not delete Agency Content for 90-days following termination. There will be no functionality of Axon Cloud Services during these 90-days other than the ability to retrieve Agency Content. Agency will not incur additional fees if Agency downloads Agency Content from Axon Cloud Services during this time. Axon has no obligation to maintain or provide Agency Content after these 90-days and will thereafter, unless legally prohibited, delete all Agency Content. Upon request, Axon will provide written proof that Axon successfully deleted and fully removed all Agency Content from Axon Cloud Services.
- 14** **Post-Termination Assistance.** Axon will provide Agency with the same post-termination data retrieval assistance that Axon generally makes available to all customers. Requests for Axon to provide additional assistance in downloading or transferring Agency Content, including requests for Axon's data egress service, will result in additional fees and Axon will not warrant or guarantee data integrity or readability in the external system.
- 15** **U.S. Government Rights.** If Agency is a U.S. Federal department or using Axon Cloud Services on behalf of a U.S. Federal department, Axon Cloud Services is provided as a "commercial item," "commercial computer software," "commercial computer software documentation," and "technical data", as defined in the Federal Acquisition Regulation and Defense Federal Acquisition Regulation Supplement. If Agency is using Axon Cloud Services on behalf of the U.S. Government and these terms fail to meet the U.S. Government's needs or are inconsistent in any respect with federal law, Agency will immediately discontinue use of Axon Cloud Services.

Some offerings in the OSP 7 bundles may not be generally available at the time of Agency’s OSP 7 purchase. Axon will not provide a refund, credit, or additional discount beyond what is in the Quote due to a delay of availability or Agency’s election not to utilize any portion of an OSP 7 bundle.

Axon Records is the software-as-a-service product that is generally available at the time Agency purchases an OSP 7 bundle. During the Term, you will be entitled to receive Axon’s Update and Upgrade releases on an if-and-when available basis.

An “Update” is a generally available release of Axon Records that Axon makes available from time to time. An Upgrade includes (i) new versions of Axon Records that enhance features and functionality, as solely determined by Axon; and/or (ii) new versions of Axon Records that provide additional features or perform additional functions. Upgrades exclude new products that Axon introduces and markets as distinct products or applications.

If Axon ships in the second half of the month, OSP 7 starts the 15th of the following month. For phased deployments, each phase has its own start and end date based on the phase’s first shipment per the above. OSP 7 runs for 5 years from the OSP 7 start date (“**OSP 7 Term**”).

If Agency purchases 5 years of Axon Evidence Unlimited, an OSP, or TAP as a standalone and makes all payments, Axon will provide Agency a BWC Upgrade 2.5 and 5 years after TAP starts. If Agency purchased TAP as a standalone, Axon will provide a BWC Upgrade that is the same or like Device, at Axon's option. Axon may ship the second BWC and Dock Upgrade 60 days before the end of the Term without prior confirmation from Agency.
- 9** **Upgrade Change.** If Agency wants to change Device models for the offered BWC or Dock Upgrade, Agency must pay the price difference between the MSRP for the offered BWC or Dock Upgrade and the MSRP for the model desired. If the model Agency desires has an MSRP less than the MSRP of the offered BWC Upgrade or Dock Upgrade, Axon will not provide a refund. The MSRP is the MSRP in effect at the time of the upgrade.
- 10** **Return of Original Device.** If Axon provides a warranty replacement 6 months before the date of a BWC Upgrade or Dock Upgrade, the replacement is the upgrade. Within 30 days of receiving a BWC or Dock Upgrade, Agency must return the original Devices to Axon or destroy the Devices and provide a certificate of destruction to Axon including serial numbers for the destroyed Devices. If Agency does not return or destroy the Devices, Axon will deactivate the serial numbers for the Devices received by Agency.

Axon Auto-Tagging Appendix

- 1 **Scope.** Axon Auto-Tagging consists of the development of a module to allow Axon Evidence to interact with Agency's Computer-Aided Dispatch ("**CAD**") or Records Management Systems ("**RMS**"). This allows end users to auto-populate Axon video meta-data with a case ID, category, and location-based on data maintained in Agency's CAD or RMS. Agency must purchase Axon Auto-Tagging for every Axon Evidence user in Agency, even if the user does not have an Axon body camera.

- 2 **Support.** For thirty days after completing Auto-Tagging Services, Axon will provide up to 5 hours of remote support at no additional charge. Axon will provide free support due to a change in Axon Evidence, so long as long as Agency maintains an Axon Evidence and Auto-Tagging subscription. Axon will not provide support if a change is required because Agency changes its CAD or RMS.

- 3 **Changes.** Axon is only responsible to perform the Services in this Appendix. Any additional Services are out of scope. The Parties must document scope changes in a written and signed change order. Changes may require an equitable adjustment in fees or schedule.

- 4 **Agency Responsibilities.** Axon's performance of Auto-Tagging Services requires Agency to:
 - 4.1. Make available relevant systems, including Agency's current CAD or RMS, for assessment by Axon (including remote access if possible);
 - 4.2. Make required modifications, upgrades or alterations to Agency's hardware, facilities, systems and networks related to Axon's performance of Auto-Tagging Services;
 - 4.3. Provide access to the premises where Axon is performing Auto-Tagging Services, subject to Agency safety and security restrictions, and allow Axon to enter and exit the premises with laptops and materials needed to perform Auto-Tagging Services;
 - 4.4. Provide all infrastructure and software information (TCP/IP addresses, node names, network configuration) necessary for Axon to provide Auto-Tagging Services;
 - 4.5. Promptly install and implement any software updates provided by Axon;
 - 4.6. Ensure that all appropriate data backups are performed;
 - 4.7. Provide assistance, participation, and approvals in testing Auto-Tagging Services;
 - 4.8. Provide Axon with remote access to Agency's Axon Evidence account when required;
 - 4.9. Notify Axon of any network or machine maintenance that may impact the performance of the module at Agency; and
 - 4.10. Ensure reasonable availability of knowledgeable staff and personnel to provide timely, accurate, complete, and up-to-date documentation and information to Axon.

- 5 **Access to Systems.** Agency authorizes Axon to access Agency's relevant computers, network systems, and CAD or RMS solely for performing Auto-Tagging Services. Axon will work diligently to identify as soon as reasonably practicable resources and information Axon expects to use and will provide an initial list to Agency. Agency is responsible for and assumes the risk of any problems, delays, losses, claims, or expenses resulting from the content, accuracy, completeness, and consistency of all data, materials, and information supplied by Agency.

Master Services and Purchasing Agreement

Axon Fleet Appendix

- 1 **Agency Responsibilities.** Agency must ensure its infrastructure and vehicles adhere to the minimum requirements to operate Axon Fleet as established by Axon during the on-site assessment at Agency and in any technical qualifying questions. If Agency's representations are inaccurate, the Quote is subject to change.
- 2 **CradlePoint.** If Agency purchases CradlePoint Enterprise Cloud Manager, Agency will comply with CradlePoint's end user license agreement. The term of the CradlePoint license may differ from the Axon Evidence Subscription. CradlePoint installation is outside the scope of this Agreement. If Agency requires CradlePoint support, Agency will contact CradlePoint directly.
- 3 **Third-party Installer.** If Agency (a) installs Axon Fleet and related hardware without "train the trainer" Services from Axon; (b) does not follow instructions provided by Axon during train the trainer; or (c) uses a third-party to install the hardware (collectively, "**Third-party Installer**"), Axon will not be responsible for Third-party Installer's failure to follow instructions relating to installation and use of Axon Fleet. Axon will not be liable for the failure of Axon Fleet hardware to operate per Axon's specifications or damage to Axon Fleet hardware due to a Third-party Installer. Axon may charge Agency if Axon is required to (a) replace hardware damaged by Third-party Installer; (b) provide extensive remote support; or (c) send Axon personnel to Agency to replace hardware damaged by Third-party Installer.
- 4 **Wireless Offload Software.**
 - 4.1. **License Grant.** Axon grants Agency a non-exclusive, royalty-free, worldwide, perpetual license to use Wireless Offload Software ("**WOS**"). "Use" means storing, loading, installing, or executing WOS solely for data communication with Axon Devices for the number of licenses purchased. The WOS term begins upon the start of the Axon Evidence Subscription.
 - 4.2. **Restrictions.** Agency may not: (a) modify, alter, tamper with, repair, or create derivative works of WOS; (b) reverse engineer, disassemble, or decompile WOS, apply any process to derive the source code of WOS, or allow others to do so; (c) access or use WOS to avoid incurring fees or exceeding usage limits; (d) copy WOS in whole or part; (e) use trade secret information contained in WOS; (f) resell, rent, loan or sublicense WOS; (g) access WOS to build a competitive device or service or copy any features, functions or graphics of WOS; or (h) remove, alter or obscure any confidentiality or proprietary rights notices (including copyright and trademark notices) of Axon or Axon's licensors on or within WOS.
 - 4.3. **Updates.** If Agency purchases WOS maintenance, Axon will make updates and error corrections to WOS ("**WOS Updates**") available electronically via the Internet or media as determined by Axon. Agency is responsible for establishing and maintaining adequate Internet access to receive WOS Updates and maintaining computer equipment necessary for use of WOS. The Quote will detail the maintenance term.
 - 4.4. **WOS Support.** Upon request by Axon, Agency will provide Axon with access to Agency's store and forward servers solely for troubleshooting and maintenance.
- 5 **Wireless Microphone.** The Axon Fleet Wireless Microphone subscription is a 5-year term. If this Agreement terminates for any reason before the end of the 5 years, Agency must pay the remaining MSRP for the Wireless Microphone, or if terminating for non-appropriations, return the Wireless

Microphone to Axon.

- 6** **Fleet 2 Unlimited.** Both Fleet 2 Unlimited and Fleet 2 Unlimited 60 require a 5-year term. Both offerings provide a 4-year extended warranty on Axon Fleet camera hardware.
- 7** **Fleet 2 Unlimited Upgrade.** For Axon Fleet 2 Unlimited, 5-years after the start of the Axon Evidence Subscription associated with Agency's Axon Fleet Purchase, Axon will provide Agency a new front and new rear Axon Fleet camera that is the same or like Device, at Axon's sole option ("**Axon Fleet Upgrade**"). Axon Fleet 2 Unlimited 60 is not eligible to receive an Axon Fleet Upgrade.

After Agency makes the fifth Axon Fleet Unlimited payment, Agency may elect to receive the Axon Fleet Upgrade anytime in the fifth year of the Axon Evidence Subscription associated with Agency's Axon Fleet Purchase. If Agency would like to change models for the Axon Fleet Upgrade, Agency must pay the difference between the MSRP for the offered Axon Fleet Upgrade and the MSRP for the model desired. The MSRP is the MSRP in effect at the time of the upgrade. Agency is responsible for the removal of previously installed hardware and installation of the Axon Fleet Upgrade.

Within 30 days of receiving the Axon Fleet Upgrade, Agency must return the original Devices to Axon or destroy the Devices and provide a certificate of destruction to Axon, including serial numbers of the destroyed Devices. If Agency does not destroy or return the Devices to Axon, Axon will deactivate the serial numbers for the Devices received by Agency.

Agency may not exceed more end users than the Quote specifies. Axon Air requires an Axon Evidence subscription for each drone operator. Agency will not see this option with Axon Cloud Services unless Axon has enabled Wi-Fi Positioning for Agency's Axon Cloud Services tenant. When Wi-Fi Positioning is enabled by both Axon and Agency, Non-Content and Personal Data will be sent to Skyhook Holdings, Inc. ("**Skyhook**") to facilitate the Wi-Fi Positioning functionality. Master Services and Purchasing Agreement

This Master Services and Purchasing Agreement ("**Agreement**") is between Axon Enterprise, Inc., a Delaware corporation ("**Axon**"), and the agency on the Quote ("**Agency**"). This Agreement is effective as of the later of the (a) last signature date on this Agreement or (b) signature date on the Quote ("**Effective Date**"). Axon and Agency are each a "**Party**" and collectively "**Parties**". This Agreement governs Agency's purchase and use of the Axon Devices and Services detailed in the Quote Appendix ("**Quote**"). It is the intent of the Parties that this Agreement act as a master agreement governing all subsequent purchases by Agency for the same Axon products and services in the Quote, and all such subsequent quotes accepted by Agency shall be also incorporated into this Agreement by reference as a Quote. The Parties therefore agree as follows:

1 **Definitions.**

"**Axon Cloud Services**" means Axon's web services for Axon Evidence, Axon Records, Axon Dispatch, and interactions between Evidence.com and Axon Devices or Axon client software. Axon Cloud Service excludes third-party applications, hardware warranties, and my.evidence.com.

"**Axon Devices**" means all hardware provided by Axon under this Agreement.

"**Quote**" means an offer to sell and is only valid for devices and services on the quote at the specified prices. Any terms within Agency's purchase order in response to a Quote will be void. Orders are subject to prior credit approval. Changes in the deployment estimated ship date may change charges in the Quote. Shipping dates are estimates only. Axon is not responsible for typographical errors in any offer by Axon, and Axon reserves the right to cancel any orders resulting from such errors.

"**Services**" means all services provided by Axon under this Agreement, including software, Axon Cloud Services, and professional services.

2 **Term.** This Agreement begins on the Effective Date and continues until all subscriptions hereunder have expired or have been terminated ("**Term**").

All subscriptions including Axon Evidence, Axon Fleet, Officer Safety Plans, Technology Assurance Plans, and TASER 7 plans begin after shipment of the applicable Axon Device. If Axon ships the Device in the first half of the month, the start date is the 1st of the following month. If Axon ships the Device in the second half of the month, the start date is the 15th of the following month. For purchases solely of Axon Evidence subscriptions, the start date is the Effective Date. Each subscription term ends upon completion of the subscription stated in the Quote ("**Subscription Term**").

Upon completion of the Subscription Term, the Subscription Term will automatically renew for an additional 5 years ("**Renewal Term**"). For purchase of TASER 7 as a standalone, Axon may increase pricing to its then-current list pricing for any Renewal Term. For all other purchases, Axon may increase pricing on all line items in the Quote up to 3% at the beginning of each year of the Renewal Term. New devices and services may require additional terms. Axon will not authorize services until Axon receives a signed Quote or accepts a purchase order, whichever is first.

3 **Payment.** Axon invoices upon shipment. Payment is due net 30 days from the invoice date. Payment obligations are non-cancelable. Agency will pay invoices without setoff, deduction, or withholding. If Axon sends a past due account to collections, Agency is responsible for collection and attorneys' fees.

4 **Taxes.** Agency is responsible for sales and other taxes associated with the order unless Agency provides Axon a valid tax exemption certificate.

Master Services and Purchasing Agreement

5 Shipping. Axon may make partial shipments and ship Devices from multiple locations. All shipments are FOB shipping point via common carrier. Title and risk of loss pass to Agency upon Axon's delivery to the common carrier. Agency is responsible for any shipping charges in the Quote.

6 Returns. All sales are final. Axon does not allow refunds or exchanges, except warranty returns or as provided by state or federal law.

7 Warranty.

7.1 Hardware Limited Warranty. Axon warrants that Axon-manufactured Devices are free from defects in workmanship and materials for 1 year from the date of Agency's receipt, except Signal Sidearm, which Axon warrants for 30 months from the date of Agency's receipt. Axon warrants its Axon-manufactured accessories for 90-days from the date of Agency's receipt. Used conducted energy weapon ("**CEW**") cartridges are deemed to have operated properly. Extended warranties run from the expiration of the 1-year hardware warranty through the extended warranty term. Non-Axon manufactured Devices are not covered by Axon's warranty. Agency should contact the manufacturer for support of non-Axon manufactured Devices.

7.2 Claims. If Axon receives a valid warranty claim for an Axon manufactured Device during the warranty term, Axon's sole responsibility is to repair or replace the Device with the same or like Device, at Axon's option. A replacement Device will be new or like new. Axon will warrant the replacement Device for the longer of (a) the remaining warranty of the original Device or (b) 90-days from the date of repair or replacement.

If Agency exchanges a device or part, the replacement item becomes Agency's property, and the replaced item becomes Axon's property. Before delivering a Device for service, Agency must upload Device data to Axon Evidence or download it and retain a copy. Axon is not responsible for any loss of software, data, or other information contained in storage media or any part of the Device sent to Axon for service.

7.3 Spare Devices. Axon may provide Agency a predetermined number of spare Devices as detailed in the Quote ("**Spare Devices**"). Spare Devices will replace broken or non-functioning units. If Agency utilizes a Spare Device, Agency must return to Axon, through Axon's warranty return process, any broken or non-functioning units. Axon will repair or replace the unit with a replacement Device. Upon termination, Axon will invoice Agency the MSRP then in effect for all Spare Devices provided. If Agency returns the Spare Devices to Axon within 30 days of the invoice date, Axon will issue a credit and apply it against the invoice.

7.4 Limitations. Axon's warranty excludes damage related to: (a) failure to follow Device use instructions; (b) Devices used with equipment not manufactured or recommended by Axon; (c) abuse, misuse, or intentional damage to Device; (d) force majeure; (e) Devices repaired or modified by persons other than Axon without Axon's written permission; or (f) Devices with a defaced or removed serial number.

7.4.1 To the extent permitted by law, the above warranties and remedies are exclusive. Axon disclaims all other warranties, remedies, and conditions, whether oral, written, statutory, or implied. If statutory or implied warranties cannot be lawfully disclaimed, then such warranties are limited to the duration of the warranty described above and by the provisions in this Agreement.

7.4.2 Axon's cumulative liability to any Party for any loss or damage resulting from any claim, demand, or action arising out of or relating to any Axon Device or Service will

not exceed the purchase price paid to Axon for the Device, or if for Services, the amount paid for such Services over the 12 months preceding the claim. Neither Party will be liable for direct, special, indirect, incidental, punitive or consequential damages, however caused, whether for breach of warranty or contract, negligence, strict liability, tort or any other legal theory.

- 8 **Statement of Work.** Certain Axon Devices and Services, including Axon Interview Room, Axon Channel Services, and Axon Fleet, may require a Statement of Work that details Axon's Service deliverables ("**SOW**"). In the event Axon provides an SOW to Agency, Axon is only responsible to perform Services described in the SOW. Additional services are out of scope. The Parties must document scope changes in a written and signed change order. Changes may require an equitable adjustment in fees or schedule. The SOW is incorporated into this Agreement by reference.
- 9 **Device Warnings.** See www.axon.com/legal for the most current Axon device warnings.
- 10 **Design Changes.** Axon may make design changes to any Axon Device or Service without notifying Agency or making the same change to Devices and Services previously purchased by Agency.
- 11 **Bundled Offerings.** Some offerings in bundled offerings may not be generally available at the time of Agency's purchase. Axon will not provide a refund, credit, or additional discount beyond what is in the Quote due to a delay of availability or Agency's election not to utilize any portion of an Axon bundle.
- 12 **Insurance.** Axon will maintain General Liability, Workers' Compensation, and Automobile Liability insurance. Upon request, Axon will supply certificates of insurance.
- 13 **Indemnification.** Axon will indemnify Agency's officers, directors, and employees ("**Agency Indemnitees**") against all claims, demands, losses, and reasonable expenses arising out of a third-party claim against an Agency Indemnitee resulting from any negligent act, error or omission, or willful misconduct by Axon under this Agreement, except to the extent of Agency's negligence or willful misconduct, or claims under workers compensation.
- 14 **IP Rights.** Axon owns and reserves all right, title, and interest in Axon devices and services and suggestions to Axon, including all related intellectual property rights. Agency will not cause any Axon proprietary rights to be violated.
- 15 **IP Indemnification.** Axon will indemnify Agency Indemnitees against all claims, losses, and reasonable expenses from any third-party claim alleging that the use of Axon Devices or Services infringes or misappropriates the third-party's intellectual property rights. Agency must promptly provide Axon with written notice of such claim, tender to Axon the defense or settlement of such claim at Axon's expense and cooperate fully with Axon in the defense or settlement of such claim. Axon's IP indemnification obligations do not apply to claims based on (a) modification of Axon Devices or Services by Agency or a third-party not approved by Axon; (b) use of Axon Devices and Services in combination with hardware or services not approved by Axon; (c) use of Axon Devices and Services other than as permitted in this Agreement; or (d) use of Axon software that is not the most current release provided by Axon.
- 16 **Agency Responsibilities.** Agency is responsible for (a) Agency's use of Axon Devices; (b) breach of this Agreement or violation of applicable law by Agency or an Agency end user; and (c) a dispute between Agency and a third-party over Agency's use of Axon Devices.

**17 Termination.**

17.1 For Breach. A Party may terminate this Agreement for cause if it provides 30 days written notice of the breach to the other Party, and the breach remains uncured at the end of 30 days. If Agency terminates this Agreement due to Axon's uncured breach, Axon will refund prepaid amounts on a prorated basis based on the effective date of termination.

17.2 By Agency. If sufficient funds are not appropriated or otherwise legally available to pay the fees, Agency may terminate this Agreement. Agency will deliver notice of termination under this section as soon as reasonably practicable.

17.3 Effect of Termination. Upon termination of this Agreement, Agency rights immediately terminate. Agency remains responsible for all fees incurred before the effective date of termination. If Agency purchases Devices for less than the manufacturer's suggested retail price ("**MSRP**") and this Agreement terminates before the end of the Term, Axon will invoice Agency the difference between the MSRP for Devices received and amounts paid towards those Devices. Only if terminating for non-appropriation, Agency may return Devices to Axon within 30 days of termination. MSRP is the standalone price of the individual Device at the time of sale. For bundled Devices, MSRP is the standalone price of all individual components.

18 Confidentiality. "Confidential Information" means nonpublic information designated as confidential or, given the nature of the information or circumstances surrounding disclosure, should reasonably be understood to be confidential. Each Party will take reasonable measures to avoid disclosure, dissemination, or unauthorized use of the other Party's Confidential Information. Unless required by law, neither Party will disclose the other Party's Confidential Information during the Term and for 5-years thereafter. Axon pricing is Confidential Information and competition sensitive. If Agency is required by law to disclose Axon pricing, to the extent allowed by law, Agency will provide notice to Axon before disclosure. Axon may publicly announce information related to this Agreement.

19 General.

19.1 Force Majeure. Neither Party will be liable for any delay or failure to perform due to a cause beyond a Party's reasonable control.

19.2 Independent Contractors. The Parties are independent contractors. Neither Party has the authority to bind the other. This Agreement does not create a partnership, franchise, joint venture, agency, fiduciary, or employment relationship between the Parties.

19.3 Third-Party Beneficiaries. There are no third-party beneficiaries under this Agreement.

19.4 Non-Discrimination. Neither Party nor its employees will discriminate against any person based on race; religion; creed; color; sex; gender identity and expression; pregnancy; childbirth; breastfeeding; medical conditions related to pregnancy, childbirth, or breastfeeding; sexual orientation; marital status; age; national origin; ancestry; genetic information; disability; veteran status; or any class protected by local, state, or federal law.

19.5 Export Compliance. Each Party will comply with all import and export control laws and regulations.

Agency will not see this option with Axon Cloud Services unless Axon has enabled Wi-Fi Positioning for Agency's Axon Cloud Services tenant. When Wi-Fi Positioning is enabled by both Axon and Agency, Non-Content and Personal Data will be sent to Skyhook Holdings, Inc. ("**Skyhook**") to facilitate the Wi-Fi Positioning functionality. Agency Content in archival storage will not have immediate availability and may take up to 24 hours to access.
- 9** **Location of Storage.** Axon may transfer Agency Content to third-party subcontractors for storage. Axon will determine the locations of data centers for storage of Agency Content. An "**Upgrade**" includes (i) new versions of Axon Records that enhance features and functionality, as solely determined by Axon; and/or (ii) new versions of Axon Records that provide additional features or perform additional functions. Upgrades exclude new products that Axon introduces and markets as distinct products or applications.

New or additional Axon products and applications, as well as any Axon professional services needed to configure Axon Records, are not included. If Agency purchases Axon Records as part of a bundled offering, the Axon Record subscription begins on the later of the (1) start date of that bundled offering, or (2) date Axon provisions Axon Records to Agency.

13 **Axon Cloud Services Restrictions.** Agency and Agency end users (including employees, contractors, agents, officers, volunteers, and directors), may not, or may not attempt to:

- 13.1** copy, modify, tamper with, repair, or create derivative works of any part of Axon Cloud Services;

Axon Cloud Services Terms of Use Appendix

1 **Definitions.**

“Agency Content” is data uploaded into, ingested by, or created in Axon Cloud Services within Agency’s tenant, including media or multimedia uploaded into Axon Cloud Services by Agency. Agency Content includes Evidence but excludes Non-Content Data.

“Evidence” is media or multimedia uploaded into Axon Evidence as 'evidence' by an Agency. Evidence is a subset of Agency Content.

“Non-Content Data” is data, configuration, and usage information about Agency’s Axon Cloud Services tenant, Axon Devices and client software, and users that is transmitted or generated when using Axon Devices. Non-Content Data includes data about users captured during account management and customer support activities. Non-Content Data does not include Agency Content.

“Personal Data” means any information relating to an identified or identifiable natural person. An identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

2 **Access.** Upon Axon granting Agency a subscription to Axon Cloud Services, Agency may access and use Axon Cloud Services to store and manage Agency Content. Agency may not exceed more end users than the Quote specifies. Axon Air requires an Axon Evidence subscription for each drone operator. For Axon Evidence Lite, Agency may access and use Axon Evidence only to store and manage TASER CEW and TASER CAM data (**“TASER Data”**). Agency may not upload non-TASER Data to Axon Evidence Lite.

3 **Agency Owns Agency Content.** Agency controls and owns all right, title, and interest in Agency Content. Except as outlined herein, Axon obtains no interest in Agency Content, and Agency Content is not Axon’s business records. Agency is solely responsible for uploading, sharing, managing, and deleting Agency Content. Axon will only have access to Agency Content for the limited purposes set forth herein. Agency agrees to allow Axon access to Agency Content to (a) perform troubleshooting, maintenance, or diagnostic screenings; and (b) enforce this Agreement or policies governing use of the Axon products.

4 **Security.** Axon will implement commercially reasonable and appropriate measures to secure Agency Content against accidental or unlawful loss, access or disclosure. Axon will maintain a comprehensive information security program to protect Axon Cloud Services and Agency Content including logical, physical access, vulnerability, risk, and configuration management; incident monitoring and response; encryption of uploaded digital evidence; security education; and data protection. Axon agrees to the Federal Bureau of Investigation Criminal Justice Information Services Security Addendum.

5 **Agency Responsibilities.** Agency is responsible for (a) ensuring Agency owns Agency Content; (b) ensuring no Agency Content or Agency end user’s use of Agency Content or Axon Cloud Services violates this Agreement or applicable laws; and (c) maintaining necessary computer equipment and Internet connections for use of Axon Cloud Services. If Agency becomes aware of any violation of this Agreement by an end user, Agency will immediately terminate that end user’s access to Axon Cloud Services.

Agency will also maintain the security of end user names and passwords and security and access by end users to Agency Content. Agency is responsible for ensuring the configuration and utilization of Axon Cloud Services meet applicable Agency regulation and standards. Agency may not sell, transfer, or sublicense access to any other entity or person. Agency shall contact Axon immediately

- 6** **Privacy.** Agency's use of Axon Cloud Services is subject to the Axon Cloud Services Privacy Policy, a current version of which is available at <https://www.axon.com/legal/cloud-services-privacy-policy>. Agency agrees to allow Axon access to Non-Content Data from Agency to (a) perform troubleshooting, maintenance, or diagnostic screenings; (b) provide, develop, improve, and support current and future Axon products and related services; and (c) enforce this Agreement or policies governing the use of Axon products.
- 7** **Axon Body 3 Wi-Fi Positioning.** Axon Body 3 cameras offer a feature to enhance location services where GPS/GNSS signals may not be available, for instance, within buildings or underground. Agency administrators can manage their choice to use this service within the administrative features of Axon Cloud Services. If Agency chooses to use this service, Axon must also enable the usage of the feature for Agency's Axon Cloud Services tenant. Agency will not see this option with Axon Cloud Services unless Axon has enabled Wi-Fi Positioning for Agency's Axon Cloud Services tenant. When Wi-Fi Positioning is enabled by both Axon and Agency, Non-Content and Personal Data will be sent to Skyhook Holdings, Inc. ("**Skyhook**") to facilitate the Wi-Fi Positioning functionality. Data controlled by Skyhook is outside the scope of the Axon Cloud Services Privacy Policy and is subject to the Skyhook Services Privacy Policy.
- 8** **Storage.** For Axon Unlimited Device Storage subscriptions, Agency may store unlimited data in Agency's Axon Evidence account only if data originates from Axon Capture or the applicable Axon Device. Axon may charge Agency additional fees for exceeding purchased storage amounts. Axon may place Agency Content that Agency has not viewed or accessed for 6 months into archival storage. Agency Content in archival storage will not have immediate availability and may take up to 24 hours to access.
- 9** **Location of Storage.** Axon may transfer Agency Content to third-party subcontractors for storage. Axon will determine the locations of data centers for storage of Agency Content. For United States agencies, Axon will ensure all Agency Content stored in Axon Cloud Services remains within the United States. Ownership of Agency Content remains with Agency.
- 10** **Suspension.** Axon may temporarily suspend Agency's or any end user's right to access or use any portion or all of Axon Cloud Services immediately upon notice, if Agency or end user's use of or registration for Axon Cloud Services may (a) pose a security risk to Axon Cloud Services or any third-party; (b) adversely impact Axon Cloud Services, the systems, or content of any other customer; (c) subject Axon, Axon's affiliates, or any third-party to liability; or (d) be fraudulent.
- Agency remains responsible for all fees incurred through suspension. Axon will not delete Agency Content because of suspension, except as specified in this Agreement.
- 11** **Axon Cloud Services Warranty.** Axon disclaims any warranties or responsibility for data corruption or errors before Agency uploads data to Axon Cloud Services.
- 12** **Axon Records.** Axon Records is the software-as-a-service product that is generally available at the time Agency purchases an OSP 7 bundle. During Agency's Axon Records Subscription Term, Agency will be entitled to receive Axon's Update and Upgrade releases on an if-and-when available basis.

Subscription as documented in the Quote, or if purchased as part of an OSP 7 bundle, upon competition of the OSP 7 Term (“**Axon Records Subscription**”)

An “**Update**” is a generally available release of Axon Records that Axon makes available from time to time. An “**Upgrade**” includes (i) new versions of Axon Records that enhance features and functionality, as solely determined by Axon; and/or (ii) new versions of Axon Records that provide additional features or perform additional functions. Upgrades exclude new products that Axon introduces and markets as distinct products or applications.

New or additional Axon products and applications, as well as any Axon professional services needed to configure Axon Records, are not included. If Agency purchases Axon Records as part of a bundled offering, the Axon Record subscription begins on the later of the (1) start date of that bundled offering, or (2) date Axon provisions Axon Records to Agency.

- 13** **Axon Cloud Services Restrictions.** Agency and Agency end users (including employees, contractors, agents, officers, volunteers, and directors), may not, or may not attempt to:
- 13.1** copy, modify, tamper with, repair, or create derivative works of any part of Axon Cloud Services;
 - 13.2** reverse engineer, disassemble, or decompile Axon Cloud Services or apply any process to derive any source code included in Axon Cloud Services, or allow others to do the same;
 - 13.3** access or use Axon Cloud Services with the intent to gain unauthorized access, avoid incurring fees or exceeding usage limits or quotas;
 - 13.4** use trade secret information contained in Axon Cloud Services, except as expressly permitted in this Agreement;
 - 13.5** access Axon Cloud Services to build a competitive device or service or copy any features, functions, or graphics of Axon Cloud Services;
 - 13.6** remove, alter, or obscure any confidentiality or proprietary rights notices (including copyright and trademark notices) of Axon’s or Axon’s licensors on or within Axon Cloud Services; or
 - 13.7** use Axon Cloud Services to store or transmit infringing, libelous, or other unlawful or tortious material; to store or transmit material in violation of third-party privacy rights; or to store or transmit malicious code.
- 14** **After Termination.** Axon will not delete Agency Content for 90-days following termination. There will be no functionality of Axon Cloud Services during these 90-days other than the ability to retrieve Agency Content. Agency will not incur additional fees if Agency downloads Agency Content from Axon Cloud Services during this time. Axon has no obligation to maintain or provide Agency Content after these 90-days and will thereafter, unless legally prohibited, delete all Agency Content. Upon request, Axon will provide written proof that Axon successfully deleted and fully removed all Agency Content from Axon Cloud Services.
- 15** **Post-Termination Assistance.** Axon will provide Agency with the same post-termination data retrieval assistance that Axon generally makes available to all customers. Requests for Axon to provide additional assistance in downloading or transferring Agency Content, including requests for Axon’s data egress service, will result in additional fees and Axon will not warrant or guarantee data integrity or readability in the external system.
- 16** **U.S. Government Rights.** If Agency is a U.S. Federal department or using Axon Cloud Services on behalf of a U.S. Federal department, Axon Cloud Services is provided as a “commercial item,” “commercial computer software,” “commercial computer software documentation,” and “technical data”, as defined in the Federal Acquisition Regulation and Defense Federal Acquisition Regulation Supplement. If Agency is using Axon Cloud Services on behalf of the U.S. Government and these terms fail to meet the U.S. Government’s needs or are inconsistent in any respect with federal law, Agency will immediately discontinue use of Axon Cloud Services.

- 17 **Survival.** Upon any termination of this Agreement, the following sections in this Appendix will survive: Agency Owns Agency Content, Storage, Axon Cloud Services Warranty, and Axon Cloud Services Restrictions.

Axon Customer Experience Improvement Program Appendix

- 1 **Axon Customer Experience Improvement Program (ACEIP)**. The ACEIP is designed to accelerate Axon's development of technology, such as building and supporting automated features, to ultimately increase safety within communities and drive efficiency in public safety. To this end, subject to the limitations on Axon as described below, Axon, where allowed by law, may make limited use of Agency Content from all of its customers, to provide, develop, improve, and support current and future Axon products (collectively, "**ACEIP Purposes**"). However, at all times, Axon will comply with its obligations pursuant to the Axon Cloud Services Terms of Use Appendix to maintain a comprehensive data security program (including compliance with the CJIS Security Policy for Criminal Justice Information), privacy program, and data governance policy, including high industry standards of de-identifying Personal Data, to enforce its security and privacy obligations for the ACEIP. ACEIP has 2 tiers of participation, Tier 1 and Tier 2. By default, Agency will be a participant in ACEIP Tier 1. If Agency does not want to participate in ACEIP Tier 1, Agency can revoke its consent at any time. If Agency wants to participate in Tier 2, as detailed below, Agency can check the ACEIP Tier 2 box below. If Agency does not want to participate in ACEIP Tier 2, Agency should leave box unchecked. At any time, Agency may revoke its consent to ACEIP Tier 1, Tier 2, or both Tiers.

1.1 **ACEIP Tier 1.**

- 1.1.1. When Axon uses Agency Content for the ACEIP Purposes, Axon will extract from Agency Content and may store separately copies of certain segments or elements of the Agency Content (collectively, "**ACEIP Content**"). When extracting ACEIP Content, Axon will use commercially reasonable efforts to aggregate, transform or de-identify Agency Content so that the extracted ACEIP Content is no longer reasonably capable of being associated with, or could reasonably be linked directly or indirectly to a particular individual ("**Privacy Preserving Technique(s)**"). For illustrative purposes, some examples are described in footnote 1¹. For clarity, ACEIP Content will still be linked indirectly, with an attribution, to the Agency from which it was extracted. This attribution will be stored separately from the data itself, but is necessary for and will be solely used to enable Axon to identify and delete all ACEIP Content upon Agency request. Once de-identified, ACEIP Content may then be further modified, analyzed, and used to create derivative works. At any time, Agency may revoke the consent granted herein to Axon to access and use Agency Content for ACEIP Purposes. Within 30 days of receiving the Agency's request, Axon will no longer access or use Agency Content for ACEIP Purposes and will delete any and all ACEIP Content. Axon will also delete any derivative works which may reasonably be capable of being associated with, or could reasonably be linked directly or indirectly to Agency. In addition, if Axon uses Agency Content for the ACEIP Purposes, upon request, Axon will make available to Agency a list of the specific type of Agency Content being used to generate ACEIP Content, the purpose of such use, and the retention, privacy preserving extraction technique, and relevant data protection practices

¹ For example; (a) when extracting specific text to improve automated transcription capabilities, text that could be used to directly identify a particular individual would not be extracted, and extracted text would be disassociated from identifying metadata of any speakers, and the extracted text would be split into individual words and aggregated with other data sources (including publicly available data) to remove any reasonable ability to link any specific text directly or indirectly back to a particular individual; (b) when extracting license plate data to improve Automated License Plate Recognition (ALPR) capabilities, individual license plate characters would be extracted and disassociated from each other so a complete plate could not be reconstituted, and all association to other elements of the source video, such as the vehicle, location, time, and the surrounding environment would also be removed; (c) when extracting audio of potential acoustic events (such as glass breaking or gun shots), very short segments (<1 second) of audio that only contains the likely acoustic events would be extracted and all human utterances would be removed.

applicable to the Agency Content or ACEIP Content (“Use Case”). From time to time, Axon may develop and deploy new Use Cases. At least 30 days prior to authorizing the deployment of any new Use Case, Axon will provide Agency notice (by updating the list of Use Case at <https://www.axon.com/aceip> and providing Agency with a mechanism to obtain notice of that update or another commercially reasonable method to Agency designated contact) (“**New Use Case**”).

1.1.2. Expiration of ACEIP Tier 1. Agency consent granted herein, will expire upon termination of the Agreement. In accordance with section 1.1.1, within 30 days of receiving the Agency’s request, Axon will no longer access or use Agency Content for ACEIP Purposes and will delete ACEIP Content. Axon will also delete any derivative works which may reasonably be capable of being associated with, or could reasonably be linked directly or indirectly to Agency.

1.2 ACEIP Tier 2. In addition to ACEIP Tier 1, if Agency wants to help further improve Axon’s services, Agency may choose to participate in Tier 2 of the ACEIP. ACEIP Tier 2, grants Axon certain additional rights to use Agency Content, in addition to those set forth in Tier 1 above, without the guaranteed deployment of a Privacy Preserving Technique to enable product development, improvement, and support that cannot be accomplished with aggregated, transformed or de-identified data.

Check this box if Agency wants to help further improve Axon’s services by participating in ACEIP Tier 2 in addition to Tier 1. By checking this box, Agency hereby agrees to the Axon Customer Experience Improvement Program Tier 2 Terms of Service, available at <https://www.axon.com/sales-terms-and-conditions> and incorporated herein by reference.

TASER 7 Appendix

This TASER 7 Appendix applies to Agency's TASER 7, OSP 7, or OSP 7 Plus purchase from Axon.

- 1 **Duty Cartridge Replenishment Plan.** If the Quote includes "Duty Cartridge Replenishment Plan", Agency must purchase the plan for each CEW user. A CEW user includes officers that use a CEW in the line of duty and those that only use a CEW for training. Agency may not resell cartridges received. Axon will only replace cartridges used in the line of duty.
- 2 **Training.** If the Quote includes a training voucher, Agency must use the voucher within 1 year of issuance, or the voucher will be void. Axon will issue Agency a voucher annually beginning on the start of the TASER Subscription Term. The voucher has no cash value. Agency cannot exchange it for another device or service. Unless stated in the Quote, the voucher does not include travel expenses and will be Agency's responsibility. If the Quote includes Axon Online Training or Virtual Reality Content Empathy Development for Autism/Schizophrenia (collectively, "Training Content"), Agency may access Training Content. Axon will deliver all Training Content electronically.
- 3 **Extended Warranty.** If the Quote includes an extended warranty, the extended warranty coverage period warranty will be for a 5-year term, which includes the hardware manufacturer's warranty plus the 4-year extended term.
- 4 **Trade-in.** If the Quote contains a discount on CEW-related line items, including items related to OSP, then that discount may only be applied as a trade-in credit, and Agency must return used hardware and accessories associated with the discount ("Trade-In Units") to Axon. Agency must ship batteries via ground shipping. Axon will pay shipping costs of the return. If Axon does not receive Trade-In Units within the timeframe below, Axon will invoice Agency the value of the trade-in credit. Agency may not destroy Trade-In Units and receive a trade-in credit.

Agency Size	Days to Return from Start Date of TASER 7 Subscription
Less than 100 officers	30 days
100 to 499 officers	90 days
500+ officers	180 days

- 5 **TASER 7 Subscription Term.** The TASER 7 Subscription Term for a standalone TASER 7 purchase begins on shipment of the TASER 7 hardware. The TASER 7 Subscription Term for OSP 7 begins on the OSP 7 Start date.
- 6 **Access Rights.** Upon Axon granting Agency a TASER 7 Axon Evidence subscription, Agency may access and use Axon Evidence for the storage and management of data from TASER 7 CEW devices during the TASER 7 Subscription Term. Agency may not upload any non-TASER 7 data or any other files to Axon Evidence. Agency may not exceed the number of end users than the Quote specifies.
- 7 **Privacy.** Axon will not disclose Agency Content or any information about Agency except as compelled by a court or administrative body or required by any law or regulation. Axon will give notice if any disclosure request is received for Agency Content, so Agency may file an objection with the court or administrative body.
- 8 **Termination.** If payment for TASER 7 is more than 30 days past due, Axon may terminate Agency's TASER 7 plan by notifying Agency. Upon termination for any reason, then as of the date of termination:

Master Services and Purchasing Agreement

- 8.1** TASER 7 extended warranties and access to Training Content will terminate. No refunds will be given.
- 8.2** Axon will invoice Agency the remaining MSRP for TASER 7 products received before termination. If terminating for non-appropriations, Axon will not invoice Agency if Agency returns the CEW, rechargeable battery, holster, dock, core, training suits, and unused cartridges to Axon within 30 days of the date of termination.
- 8.3** Agency will be responsible for payment of any missed payments due to the termination before being allowed to purchase any future TASER 7 plan.

Axon Auto-Tagging Appendix

- 1 **Scope.** Axon Auto-Tagging consists of the development of a module to allow Axon Evidence to interact with Agency's Computer-Aided Dispatch ("CAD") or Records Management Systems ("RMS"). This allows end users to auto-populate Axon video meta-data with a case ID, category, and location-based on data maintained in Agency's CAD or RMS.
- 2 **Support.** For thirty days after completing Auto-Tagging Services, Axon will provide up to 5 hours of remote support at no additional charge. Axon will provide free support due to a change in Axon Evidence, so long as long as Agency maintains an Axon Evidence and Auto-Tagging subscription. Axon will not provide support if a change is required because Agency changes its CAD or RMS.
- 3 **Changes.** Axon is only responsible to perform the Services in this Appendix. Any additional Services are out of scope. The Parties must document scope changes in a written and signed change order. Changes may require an equitable adjustment in fees or schedule.
- 4 **Agency Responsibilities.** Axon's performance of Auto-Tagging Services requires Agency to:
 - 4.1 Make available relevant systems, including Agency's current CAD or RMS, for assessment by Axon (including remote access if possible);
 - 4.2 Make required modifications, upgrades or alterations to Agency's hardware, facilities, systems and networks related to Axon's performance of Auto-Tagging Services;
 - 4.3 Provide access to the premises where Axon is performing Auto-Tagging Services, subject to Agency safety and security restrictions, and allow Axon to enter and exit the premises with laptops and materials needed to perform Auto-Tagging Services;
 - 4.4 Provide all infrastructure and software information (TCP/IP addresses, node names, network configuration) necessary for Axon to provide Auto-Tagging Services;
 - 4.5 Promptly install and implement any software updates provided by Axon;
 - 4.6 Ensure that all appropriate data backups are performed;
 - 4.7 Provide assistance, participation, and approvals in testing Auto-Tagging Services;
 - 4.8 Provide Axon with remote access to Agency's Axon Evidence account when required;
 - 4.9 Notify Axon of any network or machine maintenance that may impact the performance of the module at Agency; and
 - 4.10 Ensure reasonable availability of knowledgeable staff and personnel to provide timely, accurate, complete, and up-to-date documentation and information to Axon.
- 5 **Access to Systems.** Agency authorizes Axon to access Agency's relevant computers, network systems, and CAD or RMS solely for performing Auto-Tagging Services. Axon will work diligently to identify as soon as reasonably practicable resources and information Axon expects to use and will provide an initial list to Agency. Agency is responsible for and assumes the risk of any problems, delays, losses, claims, or expenses resulting from the content, accuracy, completeness, and consistency of all data, materials, and information supplied by Agency.

- 1 **Agency Responsibilities.** Agency must ensure its infrastructure and vehicles adhere to the minimum requirements to operate Axon Fleet 2 or Axon Fleet 3 (collectively, "Axon Fleet") as established by Axon during the qualifier call and on-site assessment at Agency and in any technical qualifying questions. If Agency's representations are inaccurate, the Quote is subject to change.
- 2 **Cradlepoint.** If Agency purchases Cradlepoint Enterprise Cloud Manager, Agency will comply with Cradlepoint's end user license agreement. The term of the Cradlepoint license may differ from the Axon Evidence Subscription. If Agency requires Cradlepoint support, Agency will contact Cradlepoint directly.
- 3 **Third-party Installer.** Axon will not be liable for the failure of Axon Fleet hardware to operate per specifications if such failure results from installation not performed by, or as directed by Axon.
- 4 **Wireless Offload Server.**
 - 4.1 **License Grant.** Axon grants Agency a non-exclusive, royalty-free, worldwide, perpetual license to use Wireless Offload Server ("**WOS**"). The WOS term begins upon the start of the Axon Evidence Subscription.
 - 4.2 **Restrictions.** Agency may not: (a) modify, alter, tamper with, repair, or create derivative works of WOS; (b) reverse engineer, disassemble, or decompile WOS, apply any process to derive the source code of WOS, or allow others to do so; (c) access or use WOS to avoid incurring fees or exceeding usage limits; (d) copy WOS in whole or part; (e) use trade secret information contained in WOS; (f) resell, rent, loan or sublicense WOS; (g) access WOS to build a competitive device or service or copy any features, functions or graphics of WOS; or (h) remove, alter or obscure any confidentiality or proprietary rights notices (including copyright and trademark notices) of Axon or Axon's licensors on or within WOS.
 - 4.3 **Updates.** If Agency purchases WOS maintenance, Axon will make updates and error corrections to WOS ("**WOS Updates**") available electronically via the Internet or media as determined by Axon. Agency is responsible for establishing and maintaining adequate Internet access to receive WOS Updates and maintaining computer equipment necessary for use of WOS. The Quote will detail the maintenance term.
 - 4.4 **WOS Support.** Upon request by Axon, Agency will provide Axon with access to Agency's store and forward servers solely for troubleshooting and maintenance.
- 5 **Axon Vehicle Software.**
 - 5.1 **License Grant.** Axon grants Agency a non-exclusive, royalty-free, worldwide, perpetual license to use ViewXL or Dashboard (collectively, "Axon Vehicle Software.") remove, alter or obscure any confidentiality or proprietary rights notices (including copyright and trademark notices) of Axon or Axon's licensors on or within Axon Vehicle Software.

- 6** **Axon Fleet Upgrade.** If Agency has no outstanding payment obligations and has purchased the "Fleet Technology Assurance Plan" (Fleet TAP), Axon will provide Agency with the same or like model of Fleet hardware ("Fleet Upgrade") as schedule on the Quote.

If Agency would like to change models for the Axon Fleet Upgrade, Agency must pay the difference between the MSRP for the offered Axon Fleet Upgrade and the MSRP for the model desired. The MSRP is the MSRP in effect at the time of the upgrade. Agency is responsible for the removal of previously installed hardware and installation of the Axon Fleet Upgrade.

Within 30 days of receiving the Axon Fleet Upgrade, Agency must return the original Axon Devices to Axon or destroy the Axon Devices and provide a certificate of destruction to Axon, including serial numbers of the destroyed Axon Devices. If Agency does not destroy or return the Axon Devices to Axon, Axon will deactivate the serial numbers for the Axon Devices received by Agency.

- 7** **Privacy.** Axon will not disclose Agency Content or any information about Agency except as compelled by a court or administrative body or required by any law or regulation. Axon will give notice if any disclosure request is received for Agency Content, so Agency may file an objection with the court or administrative body.

- 8** **Axon Fleet Termination.** Axon may terminate Agency's Fleet subscription for non-payment. Upon any termination:

- 8.1** Axon Fleet subscription coverage terminates, and no refunds will be given.
- 8.2** Axon will not and has no obligation to provide the Axon Fleet Upgrade.
- 8.3** Agency will be responsible for payment of any missed payments due to the termination before being allowed to purchase any future Fleet TAP.

Axon Respond Appendix

This Axon Respond Appendix applies to both Axon Respond and Axon Respond Plus.

- 1 Axon Respond Subscription Term.** If Agency purchases Axon Respond as part of a bundled offering, the Axon Respond subscription begins on the later of the (1) start date of that bundled offering, or (2) date Axon provisions Axon Respond to Agency.

If Agency purchases Axon Respond as a standalone, the Axon Respond subscription begins the later of the (1) date Axon provisions Axon Respond to Agency, or (2) first day of the month following the Effective Date.

The Axon Respond subscription term will end upon the completion of the Axon Evidence Subscription associated with Axon Respond.

- 2 Scope of Axon Respond.** The scope of Axon Respond is to assist Agency with real-time situational awareness during critical incidents to improve officer safety, effectiveness, and awareness. In the event Agency uses Axon Respond outside this scope, Axon may initiate good-faith discussions with Agency on upgrading Agency's Axon Respond to better meet Agency's needs.

- 3 Axon Body 3 LTE Requirements.** Axon Respond is only available and usable with an LTE enabled body-worn camera. Axon is not liable if Agency utilizes the LTE device outside of the coverage area or if the LTE carrier is unavailable. LTE coverage is only available in the United States, including any U.S. territories. Axon may utilize a carrier of Axon's choice to provide LTE service. Axon may change LTE carriers during the Term without Agency's consent.

- 4 Axon Fleet 3 LTE Requirements.** Axon Respond is only available and usable with a Fleet 3 system configured with LTE modem and service. Agency is responsible for providing LTE service for the modem. Coverage and availability of LTE service is subject to Agency's LTE carrier.

- 5 Axon Respond Service Limitations.** Agency acknowledges that LTE service is made available only within the operating range of the networks. Service may be temporarily refused, interrupted, or limited because of: (a) facilities limitations; (b) transmission limitations caused by atmospheric, terrain, other natural or artificial conditions adversely affecting transmission, weak batteries, system overcapacity, movement outside a service area or gaps in coverage in a service area and other causes reasonably outside of the carrier's control such as intentional or negligent acts of third parties that damage or impair the network or disrupt service; or (c) equipment modifications, upgrades, relocations, repairs, and other similar activities necessary for the proper or improved operation of service.

With regard to Axon Body 3, Partner networks are made available as-is and the carrier makes no warranties or representations as to the availability or quality of roaming service provided by carrier partners, and the carrier will not be liable in any capacity for any errors, outages, or failures of carrier partner networks. Agency expressly understands and agrees that it has no contractual relationship whatsoever with the underlying wireless service provider or its affiliates or contractors and Agency is not a third-party beneficiary of any agreement between Axon and the underlying carrier.

- 6 Termination.** Upon termination of this Agreement, or if Agency stops paying for Axon Respond or bundles that include Axon Respond, Axon will end Aware services, including any Axon-provided LTE service.

- 1) **Subscription Term.** If Agency purchases Axon Auto-Transcribe as part of a bundle or Axon Cloud Services subscription, the subscription begins on the later of the (1) start date of the bundle or Axon Cloud Services license term, or (2) date Axon provisions Axon Auto-Transcribe to Agency. If Agency purchases Axon Auto-Transcribe minutes as a standalone, the subscription begins on the date Axon provisions Axon Auto-Transcribe to Agency.

Axon Auto-Transcribe minutes expire one year after being provisioned to Agency by Axon.

If Agency cancels Auto-Transcribe services, any amounts owed by the Parties will be based on the amount of time passed under the annual subscription, rather than on the number of minutes used, regardless of usage.

- 2) **Auto-Transcribe A-La-Carte Minutes.** Upon Axon granting Agency a set number of minutes, Agency may utilize Axon Auto-Transcribe, subject to the number of minutes allowed on the Quote. Agency will not have the ability to roll over unused minutes to future Auto-Transcribe terms. Axon may charge Agency additional fees for exceeding the number of purchased minutes.
- 3) **Axon Auto-Transcribe On-Demand.** Upon Axon granting Agency an On-Demand subscription to Axon Auto-Transcribe, Agency may utilize Axon Auto-Transcribe with no limit on the number of minutes. The Footage will be available for Customer's designated administrator, listed on the Order Form, and any Authorized End Users to access via the Web Interface for thirty (30) days. Authorized End Users will be required to sign up for an account, and select a password and username ("**User ID**"). Flock will also provide Customer with the Documentation to be used in accessing and using the Flock Services. Customer shall be responsible for all acts and omissions of Authorized End Users, and any act or omission by an Authorized End User which, if undertaken by Customer, would constitute a breach of this Agreement, shall be deemed a breach of this Agreement by Customer. Customer shall undertake reasonable efforts to make all Authorized End Users aware of the provisions of this Agreement as applicable to such Authorized End User's use of the Services, and shall cause Authorized End Users to comply with such provisions. Flock may use the services of one or more third parties to deliver any part of the Flock Services, including without limitation using a third party to host the Web Interface which makes the Flock Services available to Customer and Authorized End Users. Flock will pass through any warranties that Flock receives from its then-current third-party service provider to the extent that such warranties can be provided to Customer. Except in the event of Flock's willful misconduct or negligence, such warranties as provided by such third-parties are Customer's sole and exclusive remedy and Flock's sole and exclusive liability with regard to such third-party services, including without limitation, hosting the web interface. Customer agrees to comply with any acceptable use policies and other terms of any third party service provider that are provided or otherwise made available to Customer from time to time.

2.2 Embedded Software License. Subject to all terms of this Agreement, Flock grants Customer a limited, non-exclusive, non-transferable, non-sublicensable (except to the Authorized End Users), revocable right to use the Embedded Software as installed on the Hardware by Flock; in each case, solely as necessary for Customer to use the Flock Services.

2.3 Documentation License. Subject to the terms of this Agreement, Flock hereby grants to Customer a non-exclusive, non-transferable right and license to use the Documentation during the Service Term for Customer's internal purposes in connection with its use of the Flock Services as contemplated herein.

2.4 Usage Restrictions. The purpose for usage of the Hardware, Documentation, Services, support, and Flock IP is solely to facilitate gathering evidence that could be used in a lawful criminal investigation by the appropriate government agency and not for tracking activities that the system is not designed to capture ("**Permitted Purpose**"). Customer will not, and will not permit any Authorized End Users to, (i) copy or duplicate any of the Flock IP; (ii) decompile, disassemble, reverse engineer or otherwise attempt to obtain or perceive the source code from which any software component of any of the Flock IP is compiled or

Master Services and Purchasing Agreement

interpreted, or apply any other process or procedure to derive the source code of any software included in the Flock IP, or attempt to do any of the foregoing, and Customer acknowledges that nothing in this Agreement will be construed to grant Customer any right to obtain or use such source code; (iii) modify, alter, tamper with or repair any of the Flock IP, or create any derivative product from any of the foregoing, or attempt to do any of the foregoing, except with the prior written consent of Flock; (iv) interfere or attempt to interfere in any manner with the functionality or proper working of any of the Flock IP; (v) remove, obscure, or alter any notice of any intellectual property or proprietary right appearing on or contained within any of the Flock Services or Flock IP; (vi) use the Flock Services, support, Hardware, Documentation or the Flock IP for anything other than the Permitted Purpose; or (vii) assign, sublicense, sell, resell, lease, rent or otherwise transfer or convey, or pledge as security or otherwise encumber, Customer's rights under Sections 2.1, 2.2, or 2.3.

As between the Parties, subject to the rights granted in this Agreement, Flock and its licensors retain all right, title and interest in and to the Flock IP and its components, and Customer acknowledges that it neither owns nor acquires any additional rights in and to the foregoing not expressly granted by this Agreement. Customer further acknowledges that Flock retains the right to use the foregoing for any purpose in Flock's sole discretion. There are no implied rights.

2.6 Suspension. Notwithstanding anything to the contrary in this Agreement, Flock may temporarily suspend Customer's and any Authorized End User's access to any portion or all of the Flock IP if (i) Flock reasonably determines that (a) there is a threat or attack on any of the Flock IP; (b) Customer's or any Authorized End User's use of the Flock Service disrupts or poses a security risk to the Flock Service or any other customer or vendor of Flock; (c) Customer or any Authorized End User is/are using the Flock IP for fraudulent or illegal activities; (d) Flock's provision of the Flock Services to Customer or any Authorized End User is prohibited by applicable law; (e) any vendor of Flock has suspended or terminated Flock's access to or use of any third party services or products required to enable Customer to access the Flock; or (f) Customer has violated any term of this provision, including, but not limited to, utilizing the Services for anything other than the Permitted Purpose, and has failed to cure such violation within thirty days following written notice of such violation from Flock (each such suspension, in accordance with this Section 2.6, a "**Service Suspension**"). Flock will make commercially reasonable efforts, circumstances permitting, to provide written notice of any Service Suspension to Customer (including notices sent to Flock's registered email address) and to provide updates regarding resumption of access to the Flock IP following any Service Suspension. Flock will use commercially reasonable efforts to resume providing access to the Flock Service as soon as reasonably possible after the event giving rise to the Service Suspension is cured. Flock will extend the Customer's term by the duration of any suspension (for any continuous suspension lasting at least one full day) where the Service Suspension is not caused by the direct Customer's actions or by the actions of parties associated with the Customer. Flock will have no liability for any damage, liabilities, losses (including any loss of data or profits) or any other consequences that Customer or any Authorized End User may incur as a result of a Service Suspension.

2.7 Installation Services.

2.7.1. Designated Locations. Prior to performing the physical installation of the Units, Flock shall advise Customer on the location and positioning of the Units for optimal license plate image capture, as conditions and location allow. While Flock will provide advice regarding the location of positioning of such Units, Customer will have the ultimate decision regarding the location, position and angle of the Units (each Unit location so designated by Customer, a "**Designated Location**"). Due to the fact that Customer selects the Designated Location, Flock shall have no liability to Customer resulting from any poor performance, functionality or Footage

Master Services and Purchasing Agreement

resulting from or otherwise relating to the Designated Locations. After an installation plan with Designated Locations and equipment has been agreed upon by both Flock and the Customer, any subsequent changes to the installation plan driven by Customer's request will incur a \$250 charge in addition to any equipment charges. These changes include but are not limited to camera re-positioning, adjusting of camera mounting, re-angling, changes to heights of poles, and removing foliage.

- 2.7.2. Customer's Installation Obligations.** Customer agrees to allow Flock and its agents reasonable access to the designated installation locations at all reasonable times upon reasonable notice for the purpose of performing the installation work (together with the preceding sentence, the "**Customer Installation Obligations**"). It is understood that the Implementation Fees do not include any permits or associated costs, any federal, state or local taxes including property, license, privilege, sales, use, excise, gross receipts or other similar taxes which may now or hereafter become applicable to, measured by or imposed upon or with respect to the installation of the Hardware, its use, or any other services performed in connection therewith and that Customer shall be solely responsible for the foregoing. Customer represents and warrants that it has all necessary right title and authority and hereby authorizes Flock to install the Hardware at the Designated Locations and to make any necessary inspections or tests in connection with such installation.
- 2.7.3. Flock's Installation Obligations.** The Hardware shall be installed in a workmanlike manner in accordance with Flock's standard installation procedures, and the installation will be completed within a reasonable time from the time that the Designated Locations are selected by Customer. Following the initial installation of the Hardware and any subsequent Reinstalls or maintenance operations, Flock's obligation to perform installation work shall cease; however, Flock will continue to monitor the performance of the Units for the length of the Term and will receive access to the Footage for a period of three (3) business days after the initial installation in order to monitor performance and provide any necessary maintenance solely as a measure of quality control. Customer can opt out of Flock's access to Footage after the initial installation which would waive Flock's responsibility to ensure such action was successful. Customer understands and agrees that the Flock Services will not function without the Hardware. Labor may be provided by Flock or a third party.
- 2.7.4. Theft and Damage.** Flock agrees to replace the Hardware up to one (1) time during the Term of the Agreement, at no cost to Customer, in the event of theft or damage. Subsequent replacement due to damage or theft will be at Customer's own expense, at a replacement cost of three hundred dollars (\$300) per camera. Customer shall not be required to replace subsequently damaged or stolen units; however, Customer understands and agrees that functionality, including Footage, will be materially affected due to such subsequently damaged or stolen units and that Flock will have no liability to Customer regarding such affected functionality nor shall the Fees owed be impacted.
- 2.7.5. Security Interest.** The Hardware shall remain the personal property of Flock and will be removed upon the termination or expiration of Customer's Agreement. Customer agrees to perform all acts which may be necessary to assure the retention of title of the Hardware by Flock. Should Customer default in any payment for the Flock Services or any part thereof or offer to sell or auction the Hardware, then Customer authorizes and empowers Flock to remove the Hardware or any part thereof. Such removal, if made by Flock, shall not be deemed a waiver of Flock's rights to any damages Flock may sustain as a result of Customer's default and Flock shall have the right to enforce any other legal remedy or right.

2.8 Hazardous Conditions. Unless otherwise stated in the Agreement, Flock's price for its

Master Services and Purchasing Agreement

services under this Agreement does not contemplate work in any areas that contain hazardous materials, or other hazardous conditions, including, without limit, asbestos, lead, toxic or flammable substances. 4 **Confidentiality; Data, Feedback; Aggregated Statistics.**

4.1 Customer and Non-Customer End User Data. As between Flock and Customer, all right, title and interest in the Customer Data and Non-Customer End User Data, belong to and are retained solely by Customer. Customer hereby grants to Flock a limited, non-exclusive, royalty-free, worldwide license to use the Customer Data and Non-Customer End User Data and perform all acts with respect to the Customer Data and Non-Customer End User Data as may be necessary for Flock to provide the Flock Services to Customer, and a non-exclusive, perpetual, irrevocable, worldwide, royalty-free, fully paid license to use, reproduce, modify and distribute the Customer Data and Non-Customer End User Data as a part of the Aggregated Data (as defined in Section 4.4 below). This Agreement does not by itself make any Non-Customer End User Data the sole property or the Proprietary Information of Customer.

4.2 Feedback. If Customer provides any suggestions, ideas, enhancement requests, feedback, recommendations or other information relating to the subject matter hereunder, Customer hereby assigns (and will cause its agents and representatives to assign) to Flock all right, title and interest (including intellectual property rights) with respect to or resulting from any of the foregoing.

4.3 Aggregated Data. Notwithstanding anything in this Agreement to the contrary, Flock shall have the right to collect and analyze data and other information relating to the provision, use and performance of various aspects of the Flock Services and related systems and technologies (including, without limitation, information concerning Customer Data and data derived therefrom). For the sake of clarity, Aggregated Data is compiled anonymous data which has been stripped of any personal identifying information. Customer acknowledges that Flock will be compiling Aggregated Data based on Customer Data and Non-Customer End User Data input into the Flock Services ("**Aggregated Data**"). Customer hereby grants Flock a non-exclusive, worldwide, perpetual, royalty-free right and license (during and after the Service Term hereof) to use and distribute such Aggregated Data to improve and enhance the Services and for other marketing, development, diagnostic and corrective purposes in connection with the Flock Services and other Flock offerings. No rights or licenses are granted except as expressly set forth herein.

4.4 Confidentiality. Each Party (the "**Receiving Party**") understands that the other Party (the "**Disclosing Party**") has disclosed or may disclose business, technical or financial information relating to the Disclosing Party's business (hereinafter referred to as "**Proprietary Information**" of the Disclosing Party). Proprietary Information of Flock includes non-public information regarding features, functionality and performance of the Services. Proprietary Information of Customer includes non-public data provided by Customer to Flock or collected by Flock via the Unit, including the Footage, to enable the provision of the Services, which includes but is not limited to geolocation information and environmental data collected by sensors built into the Units ("**Customer Data**"). The Receiving Party agrees: (i) to take the same security precautions to protect against disclosure or unauthorized use of such Proprietary Information that the party takes with its own proprietary information, but in no event will the Receiving Party apply less than reasonable precautions to protect such Proprietary Information, and (ii) not to use (except in performance of the Services or as otherwise permitted herein) or divulge to any third person any such Proprietary Information. Flock's use of the Proprietary Information may include processing the Proprietary Information to send Customer alerts, such as when a car exits Customer's neighborhood, or to analyze the data collected to identify motion or

other events. The Disclosing Party agrees that the foregoing shall not apply with respect to any information that the Receiving Party can document (a) is or becomes generally available to the public, or (b) was in its possession or known by it prior to receipt from the Disclosing Party, or (c) was rightfully disclosed to it without restriction by a third party, or (d) was independently developed without use of any Proprietary Information of the Disclosing Party. Nothing in this Agreement will prevent the Receiving Party from disclosing the Proprietary Information pursuant to any judicial or governmental order, provided that the Receiving Party gives the Disclosing Party reasonable prior notice of such disclosure to contest such order. For clarity, Flock may access, use, preserve and/or disclose the Footage to law enforcement authorities, government officials, and/or third parties, if legally required to do so or if Flock has a good faith belief that such access, use, preservation or disclosure is reasonably necessary to: (a) comply with a legal process or request; (b) enforce this Agreement, including investigation of any potential violation thereof; (c) detect, prevent or otherwise address security, fraud or technical issues; or (d) protect the rights, property or safety of Flock, its users, a third party, or the public as required or permitted by law, including respond to an emergency situation. In the event Customer requests Flock to enable law enforcement monitoring against law enforcement hotlists, Customer hereby expressly grants Flock a non-exclusive, worldwide, perpetual, royalty-free right and license (during and after the term hereof) to disclose the Customer Data (inclusive of any Footage and Footage search access) to enable law enforcement monitoring against law enforcement hotlists. Flock may store deleted Footage in order to comply with certain legal obligations but such retained Footage will not be retrievable without a valid court order, subject to Section 9.1 below.

6 **RESERVED.**

7 **Remedy; Warranty; and Disclaimer.**

7.1 Remedy. Upon a malfunction or failure of Hardware or Embedded Software (a “Defect”), Customer must first make commercially reasonable efforts to address the problem by contacting Flock’s technical support as described in Section 2.9 above. If such efforts do not correct the Defect, Flock shall, or shall instruct one of its contractors to, in its sole discretion, repair or replace the Hardware or Embedded Software suffering from the Defect. Flock reserves the right in their sole discretion to refuse or delay replacement or its choice of remedy for a Defect until after it has inspected and tested the affected Unit; provided that such inspection and test shall occur within seventy-two (72) hours after Customer notifies the Flock of a Defect. In the event of a Defect, Flock will repair or replace the defective Unit at no additional cost. In the event that a Unit is lost, stolen, or damaged, Flock agrees to replace the Unit at a fee according to the then-current Reinstall Policy (<https://www.flocksafety.com/reinstall-fee-schedule>). - 5** **Transferability.** Subject to the terms and conditions of this Agreement, Customer may transfer the Base Software, including any relevant Base Software license rights, only on a permanent basis and as part of the sale or transfer of the Skydio Hardware on which the Base Software is loaded, provided that Customer retains no copies of any version of the Skydio Software. With the exception of the Base Software, Customer may not transfer any other Skydio Software or other Skydio Software license rights granted herein to another person or entity without the express written permission of Skydio, unless allowed by applicable law stating that transfer may not be restricted.
- 6** **Evaluation License.** Skydio may make certain Skydio Software available in object code form to end users only for evaluation, training or other limited non-commercial purposes without charging a Fee ("**Evaluation License**"). Where Skydio has provided an Evaluation License, all of the terms of this Agreement shall apply except that (i) Customer's license rights shall be limited to the evaluation of that Skydio Software, (ii) Customer shall not be required to pay a Fee for the evaluation of that Skydio Software and (iii) Skydio shall have the right to revoke the license to the Skydio Software at any time and for any reason.

Updates are solely provided on a "when-and-if-available" basis and as made generally available by Skydio to its customers. Customer shall promptly install any Updates that Skydio designates as required for the continued safe operation of Skydio Hardware or operation of any Advanced Software.

- 9** **Intellectual Property.** Customer agrees that all worldwide patent, copyright and other intellectual property rights in the Product, and all copies of the Software however made (including copies pre-installed on the Skydio Hardware purchased by Customer) are the exclusive property of Skydio and its suppliers. All Skydio Software is licensed to Customer, not sold. All rights not expressly granted to Customer in this Agreement are reserved by Skydio and its suppliers. There are no implied licenses under this Agreement.
- 10** **Fees.** Skydio reserves the right to suspend and/or terminate access to the Skydio Software if any undisputed fees for Skydio Hardware or Software are past due. Such suspension or termination shall not relieve Customer from its obligation to pay all undisputed amounts.
- 11** **Third Party Software and Open Source Software.** The Skydio Software may include third party software, and open source software ("**OSS**"), and such software is provided under separate license terms.
- 11.1** To the extent the licenses for any OSS requires Skydio to make available to Customer the corresponding source code included in the Skydio Software, Customer may obtain a copy of the applicable OSS source code by sending a written request to legal@skydio.com. The

OSS license terms shall take precedence over this Agreement to the extent that this Agreement imposes greater restrictions on Customer than the applicable OSS license terms. Customer acknowledges receipt of notices for the Open Source Components for the initial delivery of the Skydio Software.

- 11.2** The use of third party software or applications, or the integration of such software or applications with the Skydio Software, (collectively, “**Third Party Applications**”), may result in Customer data or information being transferred to a third party. Skydio is not responsible for, and Customer agrees to hold Skydio harmless, for any data or information transferred to third parties in connection with your use of Third Party Applications.
- 12** **Commercial Item.** The Skydio Software and associated documentation are “commercial items” as defined at FAR 2.101 and according to DFAR section 252.2277014(a)(1) and (5) are deemed to be “commercial computer software” and “commercial computer software documentation.” Consistent with DFAR section 227.7202 and FAR section 12.212, any use, modification, reproduction, release, performance, display, or disclosure of such commercial software or commercial software documentation by the U.S. Government will be governed solely by the terms of this Agreement and will be prohibited except to the extent expressly permitted by the terms of this Agreement.
- 13** **Term and Termination.** This Agreement is effective upon Skydio Software purchase, activation or download, as applicable, and shall continue until terminated.
- 13.1 Paid License Term.** Each Advanced Software Package purchased hereunder shall have its own Skydio License Term. Each Skydio License Term shall have an initial term for the time period set forth on the Quote and that the Skydio License Term shall automatically extend for successive additional one (1) year renewal terms thereafter if any (subject to payment of the then-current applicable license fees for each such renewal term) unless either party give notice to the other of its intention not to renew the Skydio License Term at least thirty (30) days before expiration of the then-current initial or renewal term, as the case may be (“**Renewal Terms**”). If a Skydio License Term is not set forth in the Quote, each Skydio License Term shall have an initial term that commences upon the date of provisioning of the Skydio Software and expires one (1) year later; provided, however, that the Skydio License Term shall automatically extend per the Renewal Terms. Unless Skydio terminates this Agreement for breach by Customer, the perpetual licenses to use Base Software shall survive.
- 13.2 Free or Trial License Term.** If you have obtained a license to a free version of the Skydio Software, then your license will continue until terminated in accordance with this Agreement. If you have obtained a trial license to the Skydio Software, then your license will continue for such time period as may be specified by Skydio with respect to such trial (and if no period is specified, for 30 days). - 13.3 Termination.** Skydio may terminate Customer’s license rights under this Agreement immediately without notice if Customer fails to comply with any terms of this Agreement or Customer fails to make any payment as required hereunder. In no event will termination relieve Customer of its obligation to pay any fees payable for Skydio Hardware or Software. Upon termination or expiration of this Agreement for any reason, Customer shall immediately cease using any Skydio Software and must destroy or return to Skydio all copies of the Skydio Software and associated documentation in its possession or control. The following sections shall survive the termination or expiration of this Agreement: Sections 1, 2(a), 2(b), 2(d), 4, 5 and 7-26.
