Veterans across the country are not accessing their benefits and/or services to their full potential. California public libraries, in partnership with CAL Vet, are working to connect veterans and their families to local resources that provide them with the support they need to access these benefits.

The Corona Public Library Veterans Resource Center can be the connection vets need for help. Our skilled volunteers can help veterans with finding employment, accessing health benefits, buying a home, and other needs. Learn more about the Veterans Connect @ the Library program and how you can get involved at <http://calibrariesforveterans.org/>.

This [publication/project] was supported in whole or in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.
