IMPACT

“

One of the many factors that have differentiated my experience in High School Bigs as opposed to other programs I have been involved in is the communal compassion we all share. Despite variances in location, age and position, the staff members, Bigs and Littles alike all share a passion for fulfilling our responsibility to play a part in bettering the world we live in. Being able to nurture our most vulnerable members of society while being guided by some of our wisest is an absolute joy.”
