The public purpose of the economic development subsidy includes, but is not limited to, having a company establish and maintain a physical presence in the City which creates jobs and stimulates the economic recovery of the Inland Empire. Downs maintains a sales office within the City and has expanded its operations within the City. The establishment of the sales office within the City generates substantial revenue for the City, creates new jobs, revitalizes an area of the City which has suffered a loss of jobs and businesses during the economic downturn of the mid-2000's, and results in community and public improvements that might not otherwise be available to the community for many years. Additionally, by having a company like Downs maintain a physical presence in Corona we have added diversity to and generated new opportunities for economic growth. Further, the sales office serves the additional public purpose of fostering a business and civic environment that may attract additional businesses and investment in the community due to the availability of the

increased public and private services and economic activity resulting therefrom, thereby assisting the City in its goal of furthering the development of the community. The Agreement also facilitates the retention of high paying/management jobs within the City and provides opportunity for additional job growth throughout the term of the Agreement.
