IRRIGATION NOTE:  
The irrigation system will use low flow spray heads at the warm season turn areas as well as drip irrigation for all the planter areas. The trees will be on their own system with bubblers at each tree. The irrigation hydrozones will be based on final planting plan. A weather based smart irrigation controller will be used. Irrigation to be installed 'Reclaimed ready.'

WATER CONSERVATION STATEMENT:  
I hereby certify, as the landscape architect/licensed landscape professional of record that the information provided herein meets the requirements and standards as outlined in the Corona Municipal Code Section 17.70.070 and the adopted design guidelines for the development of this project.
