Corona Box City is a scale model cardboard city created by the imaginative minds of children during this seven-week project.

Permitted builders will learn what makes up a city while improving their problem solving and social skills by working together to make their city come to life. Permitted builders will create blueprints, create their model building, and add it to our growing mini-city!

A free book, courtesy of the Friends of the Corona Public Library, will be gifted to our participants after the completion of four construction days.

Ribbon Cutting Day

**Thursday, July 18
3 to 4 pm, FAM Room & Learning Lab**
