PATH OF LIFE'S MISSION...

WHAT WE'VE LEARNED...

If someone's basic safety and survival needs are secure, they will have mental and emotional margin to focus on deeper issues;

If, with that margin, they develop an internal motivation to create their preferred reality, then they will move forward in doing so;

If a motivated person has clear access to resources, tools, and opportunities to accomplish their goals and if that person develops the personal mindsets and modes of operations they need to successfully implement the resources, tools, and opportunities, then that person will experience positive results from their efforts and keep moving forward;

Relational Support (formal/professional, and especially informal/models) are required for sustained success and transformation.
