

Temescal Subbasin Groundwater Sustainability Plan

Stakeholder Engagement

City Council

Tom Moody

General Manager

July 1, 2020

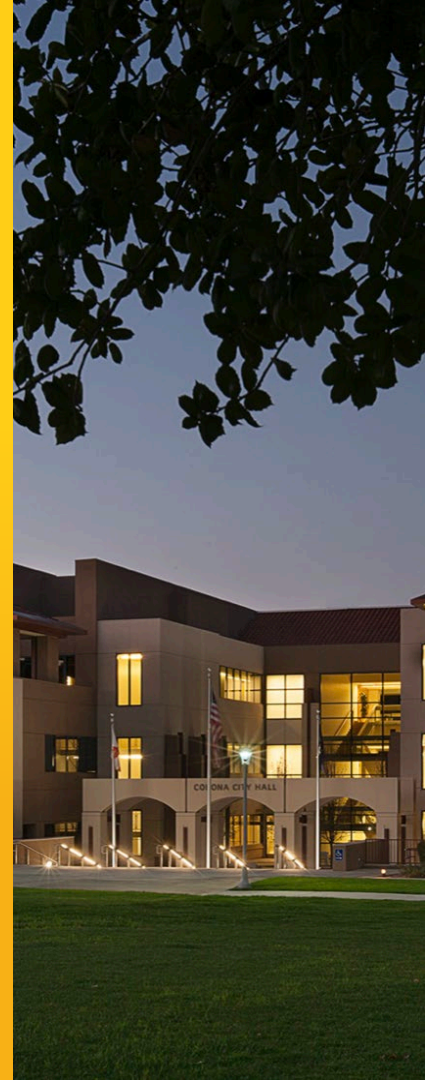

Input from the City Council

- GSA is seeking one or two council members to participate in a technical advisory committee (TAC) with staff, consultants, and other stakeholders
- What to expect:
 - Four TAC meetings during the next twelve months
 - Participation in public workshops (approx. 5)
 - Plan review throughout the process

Temescal Subbasin GSA

- Members
 - City of Corona
 - City of Norco
 - Unincorporated area of Home Gardens
- GSAs are required to adopt a Groundwater Sustainability Plan (GSP) and submit to the Department of Water Resources (DWR)

What is a GSP?

- A groundwater sustainability plan developed and managed by a GSA
- Specifies measures to address groundwater issues and ensure the basin is operated equitably
- The purpose is to achieve defined sustainability goal
- **Emphasis on stakeholder engagement**

Proposed Public Workshop Schedule

Meeting Purpose	Tentative Dates
Kickoff Meeting	8/31/2020
Criteria for sustainability	3/1/2021
Preliminary evaluation of management actions	6/16/2021
Presentation of draft GSP	7/7/2021
Adoption Hearing	11/17/2021
