# Infrastructure Committee

## June 3, 2020

Discussion regarding the city's ordinance on billboard relocation agreements, CMC Section 17.74.070(H), and possible amendment.

# CMC Title 17, Zoning Ordinance

## Chapter 17.74, Signs

Section 17.74.070(H):

- New off-premise signs (aka billboard) prohibited.
  - Exception - allowed by a relocation agreement.
- Relocation agreements are discretionary.
  - Require City Council approval
- Off premise signs can be a static message board or an electronic changeable message board.
- Replacement of a static billboard face to a changeable message board requires a relocation agreement.

## Not Covered in CMC Section 17.74.070(H)

### Proposed Regulations to Consider for Billboard Relocation Agreements

- City Council currently has discretion to consider relocation agreements on a case-by-case basis.
- Staff believes it is best to establish criteria for consideration of future relocation agreements.

## → Potential Criteria:

- Relocation of surface street billboards to freeways?
  - Note: Allow only w/ overall reduction in billboards
- Relocations resulting in the removal of more than one billboard.
  - Example: 3 billboards removed in exchange for 1 billboard relocated to a different site.
- When a removal to replacement ratio of 3:1 cannot be done, consider allowing relocation within 200' of freeway only if the billboard was already within 100' of freeway, or only on the same surface street as the billboard being relocated.
- Square footage (SF) of relocated billboards is less than the SF of replaced billboards.
  - Note: Each billboard face counted toward the size (single-sided vs double-sided).

Three vertical bars of different colors (light green, dark blue, and yellow) are positioned on the left side of the slide.

## → Recommendation:

- If relocations are to be allowed in the future, staff recommends that criteria be adopted along the following lines:
  - Do not allow the relocation of surface street billboards to freeways unless: (1) at least 3 billboards are removed in exchange for 1 relocated billboard to a different site; and (2) total square footage (SF) of relocated billboards is less than the SF of replaced billboards (each face counted towards SF amount).
  - When a removal to replacement ratio of 3:1 cannot be done, do not allow relocations without the following criteria being met: (1) allow relocation within 200' of freeway only if the relocated billboard was already within 100' of freeway; (2) A billboard currently located on a parcel that does not have freeway frontage may only be relocated to a location with street frontage that is the same street on which it currently fronts; and (3) for all relocations the total SF of relocated billboards must be less than the SF of replaced billboards (each face counted towards SF amount).
