ANALYSIS:

In March of 2019, the Corona Fire Department took possession of a Hazmat Trailer purchased with grant funding awarded to our Hazardous Materials Response Team program, by the County and The California Governor's Office of Emergency Services (Cal OES) through the State Homeland Security Program (SHSP). The trailer which will be towed by the purchase of this utility truck, will enhance response capabilities and allow for the transportation and proper storage of mandated equipment compliant of a State Certified Type 2 Hazardous Materials Team. The utility truck will also be equipped with hazardous material incident mitigation equipment, and it will have adequate seating capability to transport team members to emergency incidents.

The utility truck will also be configured for and capable of use on a variety of fire and technical rescue incidents, including the capability of towing other trailers.

April 1, 2019, the Administrative Services Department issued NIB 19-005SB for the purchase of one 2019 Ford HazMat Utility Truck. The NIB was advertised in the *Sentinel Weekly News* on April 5, 2019, and posted on Planet Bids. The City solicited sixteen vendors, and received two bids on the due date, April 16, 2019. Staff evaluated the bid from Emergency Vehicle Group and determined their bid met all bid specifications. The bid submitted by Fritts Ford was evaluated and was determined to not meet the bid specifications. The main bid exception was Fritts Ford but was unable to provide a 2019 model year. The 2020 model year quoted would not be available until April 17, 2020.
