AGENDA REPORT REQUEST FOR CITY COUNCIL ACTION

DATE: 7/18/2018

TO: Honorable Mayor and City Council Members

FROM: Public Works Department

SUBJECT:

City Council consideration to authorize the Mayor to execute a Grading Agreement for 1071 West Sixth Street - Hitesh P. Patel and Nirmala H. Patel.

RECOMMENDED ACTION:

That the City Council authorize the Mayor to execute a Grading Agreement between the City and Hitesh P. Patel and Nirmala H. Patel for 1071 West Sixth Street.

ANALYSIS:

Conditional Use Permit, CUP17-001 was approved on February 6, 2017 to expand an existing motel with the addition of 14 rooms on 0.43 acres in the GC (General Commercial) designation of the Downtown Corona Revitalization Specific Plan. The project is located on the north side of West Sixth Street approximately 50 feet east of Lincoln Avenue as shown on Exhibit "A."

In compliance with Grading Ordinance No. 2568, the owner will enter into a Grading Agreement to secure the precise grading operations, which include drainage improvements. A cash deposit has been posted to guarantee erosion control. The grading design conforms to the Grading Ordinance, and is consistent with sound engineering standards and practices. The elevation design minimizes significant height and slope differentials from surrounding properties, while maintaining the City's obligation to protect the health and safety of citizens and property.

Securities have been posted as follows:

PGR170032	Faithful Performance		Labor and Materials	
	Security No.	Amount	Security No.	Amount
Grading and Drainage	100385084	\$36,300	N/A	N/A
Erosion Control	Cash Deposit (R6182)	\$2,500	N/A	N/A

COMMITTEE ACTION:

Not applicable.

STRATEGIC PLAN:

Not applicable.

FISCAL IMPACT:

All applicable fees have been paid by the developer.

ENVIRONMENTAL ANALYSIS:

In conjunction with the approval for CUP17-001 on February 6, 2017, City staff determined this project qualifies as a Class 32 Categorical Exemption under CEQA Section 15332 (Infill Development Projects) because the project is consistent with the General Plan designation, zoning, and all applicable development standards of the project site. The project site is less than five acres and surrounded by existing development to the north, east, south and west. The project site was previously developed with a residential building; therefore, it is highly unlikely for the site to contain any habitat for endangered, rare or threatened species. Approval of the project will not result in any significant effects relating to traffic, noise, air quality, or water quality, and the site can be adequately served by all required utilities and public services. Therefore, there is no possibility that the project will have any significant effects on the environment, no environmental analysis is required.
