When an experienced Police Officer joins the Corona Police Department, they start at the 1-5-years of service accrual rate category for the purposes of Annual Leave. Currently, for the calculation of longevity pay, only years of service at the Corona Police Department are considered.

ANALYSIS:

The City of Corona Police Department is currently facing many recruitment and retention challenges, including but not limited to:

- Upcoming retirements
- Negative public perception of the profession
- Competition from local and surrounding agencies
- Workload and stress
- Screening and hiring process

To ensure that the Corona Police Department maintains a talented and experienced workforce, it is essential to not only attract highly qualified lateral police officers through enhanced recruitment efforts but also to focus on retaining current officers by fostering their appreciation and loyalty. Lateral police officers bring valuable expertise to the City, quickly adapting to our Police Department procedures, policies, and community dynamics. To achieve and retain a highly skilled police workforce, Corona Police Department must take proactive and creative measures to stand out from surrounding agencies.

Staff recommends that new lateral officers receive 40 hours of Annual Leave upon hire.. Providing this leave to new lateral officers is a way to attract experienced law enforcement professionals to join the Corona Police Department. If such employee does not successfully complete their initial-hire probationary period as addressed in Article 24 of this MOU, forty (40) hours of their Annual Leave will not be permitted to be cashed out upon release from probation.

In addition, staff recommends that both full-time service with the City of Corona, as well as full-time **sworn** law enforcement service in a position (as defined by California Penal Code sections 830.1, 830.2, 830.31 (a),(d), 830.32 and 830.33 or the out-of-state equivalent as determined by the Chief of Police), shall count when determining an employee's years of service placement with relation to longevity pay and annual leave accrual.

To ensure accurate placement regarding longevity and annual leave accrual, staff has developed a verification process to verify prior years of service. This process will support a fair and equitable determination of benefits for lateral police employees joining our department.

FINANCIAL IMPACT:

Approval of the recommended action to recognize the additional years of sworn law enforcement service for annual leave accrual and longevity pay will result in an estimated budget increase of \$105,516 in FY 2024 for existing lateral officers. Based on the Council's approval, the funding change will be incorporated into the Adopted FY 2024 Budget. The recurring budget impact is estimated between \$105,000 - \$112,000 per fiscal year. Approval of the 40-hour annual leave bank for new lateral police employees will cost approximately \$1,600 - \$2,100, depending on the employee's pay rate. No additional funding is needed for the 40-hour annual leave bank, as salary savings from vacant positions will cover the one-time cost.

ENVIRONMENTAL ANALYSIS:

This action is exempt pursuant to Section 15061(b)(3) of the Guidelines for the California Environmental Quality Act (CEQA), which states that a project is exempt from CEQA if the activity is covered by the commonsense exemption that CEQA applies only to projects that have the potential for causing a significant effect on the environment. This action will enhance our recruitment and retention efforts, which will not have an impact on the environment. This activity is not subject to CEQA. There is no possibility that the acceptance of this report will have a significant effect on the environment.
